#### Re: Running Horse Promotional Trust Fund Request for Consideration

Commissioners:

Under M.G.L. c.128A §5 racing licensees must:

"...pay into a trust fund known as the Running Horse Promotional Trust Fund, under the direction and supervision of the state racing commissioners as they are individuals as trustees of the trust..." a percentage of handle derived from pari-mutual wagering on running horse races.

From time to time, racetrack licensees submit requests for consideration of distributions from that fund. The purposes for which those funds may be used are outlined in c.128A §5(g):

"The trustees may expend without appropriation all or any part of the promotional trust funds to the appropriate track licensee in proportion to the amount deposited in each fund by the track licensee for use in promotional marketing, to reduce the costs of admission, programs, parking and concessions and to offer other entertainment and giveaways. The trustees may expend to a licensee all amounts accumulated in the trust funds which are attributable to racing operations conducted at each applicable track.

....The trustees shall require from each track licensee vouchers, cancelled checks or such other documents as the trustees deem necessary to verify that

the expenditures from the funds were carried out in accordance with the provisions of this section."

The Racing Division recently received a request for consideration from Sterling Suffolk Racecourse, LLC ("SSR") for reimbursement of costs attributable to racing operations at Suffolk Downs in 2010, namely reimbursement of monies expended for direct mail advertising and broadcast media advertising live racing at Suffolk Downs (project #SPT 2010-01). The total amount of the request is \$475,380.27. This request is consistent in size and scope with approved projects from previous years under Sterling Suffolk Racecourse, LLC's operations. Detailed invoices and copies of itemized payments accompanied the request as required.

#### c.128A §5(g) also contains the following language:

"No expenditure for capital improvements or for promotions shall be approved by the trustees if the improvements or promotions are to be accomplished pursuant to a contract with a person, corporation, partnership, trust or any combination of the same or any other entity owned wholly or in part by a person, corporation, partnership, trust or any combination of the same or any other entity which owns or operates or holds an interest in any race track in the commonwealth."

Although these promotional requests for previous years had been approved by our predecessor agency, because of the nexus between SSR and the advertising agency involved, Conover Tuttle Pace (SSR's Chief Operating Officer is a partner in CTP) and the potential for the appearance of conflict, the Racing Division consulted with Commission counsel. As a result of that consultation it is our understanding that these reimbursements are for the costs of the advertising buys themselves. None of the requested reimbursements are for retainer, design, or other fees contracted between the client and agency, only for the third-party placement of insertion and broadcast orders.

**Recommendation:** The Commission approve payment to Sterling Suffolk Racecourse, LLC for reimbursement of monies expended for direct mail and broadcast media advertising the 75<sup>th</sup> anniversary of live racing at Suffolk Downs in an amount equal to the balance in the Promotional Trust Fund contributed by the Sterling Suffolk Racecourse, LLC ("SSR") now estimated at \$150,000.

#### Re: Reconciliation of Racing Revenues January 2013-June 2014

#### **Executive Summary:**

The Division of Racing and the Division of Administration and Finance (A&F) utilized the information from the KPMG independent review of the Racing legacy billing system, along with the research done by outside counsel and verified by MGC's Legal division on percentage take outs related to racing handles and signals to perform an 18 month reconciliation of billings to racing licensees, as well as the distribution of those billings to the associated trust funds under the control of the MGC. The KPMG independent review demonstrated that the legacy system was (within a very small margin of error) assigning information from the "Tote" system entered by MGC staff to the correct type of signal. This indicates that the win, place, show (WPS) pools, the exotic betting (exotics) pools, and the breaks were being directed to the correct kind of race. The review also showed that based on the statutory percentage take outs for each kind of race, the legacy system was not billing correctly, and it was not assigning the correct distribution of billed revenue to the correct fund as required by statute. The Racing and A&F Divisions utilized the handles, WPS, exotics and breaks data in the legacy system to perform a reconciliation for each week over the 18 month period that calculated what should have been billed, and compared that to what was actually billed and received, and then did a final step of comparing where the funds should have been distributed to where they actually were. The summary of this is attached as appendix A.

#### Methodology:

A&F and Racing used the total handle, WPS, exotic and breaks items from the legacy FRS weekly billing sheets (appendix B) and the master take out schedule (appendix C) as a basis for developing a weekly statement for what should have been billed to each licensee each week for each type of signal. A sample of one of these sheets is attached as appendix D. MGC Racing and A&F staff then matched the actual amounts billed and collected from the legacy FRS system and bank statements to the amount that should have been billed. Individual examples of this can be found on appendix D, and summary amounts for the 18

month period can be found on appendix A. As a result of the reconciliation performed, the MGC was able to determine that licensees were not billed an aggregate of \$6,198.41. The breakout by licensee is listed in appendix A. The final reconciliation the division of A&F conducted was a comparison of which funds the billings were supposed to be credited to versus where they actually were credited to. A proposed adjustment column is included in appendix A to reconcile where funds were deposited to where they should have been deposited.

#### Moving Forward:

Now that the MGC has devoted a great deal of time to thoroughly researching the Racing statutes, and determining the proper take outs by licensee by signal, it is imperative to make sure that we do not end up in a similar situation in future years. The Divisions of A&F, Legal and Racing have come up with the following controls to monitor legislation, take outs and databases:

- A minimum of once a year the MGC legal division will review the master takeout schedule to make sure there are no updates in the racing statute or any special laws. If there are, the legal division will let both A&F and racing divisions know the effective dates of the changes so that billings can be adjusted in a timely manner.
- Monthly the parimutuel officer will compare the signal types by contract in the CHRIMS system to the master signal sheet maintained by the Racing Division to ensure handles, and betting pools are being attributed to the correct signal type.
- Monthly A&F will test a weekly billing from each licensee using the statement sheets included as appendix D to make sure the legacy billing system, or CHRIMS are calculating the correct weekly billings, and calculating the correct distributions to each fund.
- Weekly, beginning when CHRIMS becomes fully operational, A&F will be processing the sweep of billings to the correct funds. Currently this is being done on a monthly/quarterly basis.

#### **Recommendation:**

The results of the KPMG testing gave A&F staff confidence that the legacy FRS database was calculating total handles, WPS, exotic and breaks pools within a reasonable margin of error, and was attributing them to the correct signal type. Therefore, MGC staff could utilize the overall data included in the legacy system to develop a statement sheet of what should have been billed based on those handles, WPS, exotic and break pools by licensee by week to compare to the actual billings. Based on the analysis, for the period of January 2013 through June of 2014 the following chart demonstrates reconciliation for each track:

Racetrack	Statutory Billings	Actual Billings	Variance
Suffolk	1,756,755.95	1,758,098.31	1,342.36

Plainridge	1,196,918.80	1,188,159.91	-9,342.37
Raynham	1,387,894.94	1,387,464.23	-430.71
Wonderland	383,019.91	382,921.91	-98.00
ADW	1,154,333.80	1,156,664.11	2,330.31
Total	5,878,923.40	5,873,308.47	-6,198.41

The Division of A&F does not recommend any additional billings.

The MGC was collecting most of the revenue it was due. Transfers to the appropriate trust funds were not calculated correctly by the FRS database. The Division of A&F proposes to process adjustments across the trust funds in the amounts listed below to correctly align the revenues received with where they should have been credited:

Fund	18 Month Actual	18 Month Proper	Adjustment
	Transfers	Transfers	
<b>Racing Development and</b>	3,426,205.66	3,813,819.56	387,613.90

Fund			
Total	5,622,365.07	5,878,923.40	256,558.33

If the Commission approves this recommendation, this will clear up the period of January, 2013 through June of 2014. MGC staff would then use this methodology to do a billing reconciliation for July of 2014 through November of 2014, and begin using the statement sheets for generating billings for December through the time period where CHRIMS becomes the billing system of record for the MGC.

MBE = Minority Business Enterprise WBE = Women Business Enterprise VBE = Veteran Business Enterprise

Figures as of November 1, 2014

- Construction workforce is at 320 workers daily as of November 2014.
- 500 people have worked on the project to date.

## MASSACHUSETTS GAMING COMMISSION ACCESS AND OPPORTUNITY COMMITTEE RULES OF PROCEDURE

Section 1. Scope and Purpose of Committee

The Massachusetts Gaming Commission ("Commission") hereby establishes an Access and Opportunity Committee ("Committee"). The Committee's primary function shall be to monitor efforts by each Category 1 gaming licensee to achieve diversity in the construction workforce and supplier base and to further the goals underlying G.L. c.23K, §15(16), and to make related recommendations to the Commission and/or licensees. This Access and Opportunity Committee will serve the function as a Liaison Committee highlighted in Administrative Bulletin 14.

## Section 2. Organization

(a) The membership of the Committee shall consist of:

## Statewide Representatives:

- Interim Director of the Office of Access and Opportunity or her designee;
- The Director of the Massachusetts Supplier Diversity Office or his designee;
- Secretary of the Commonwealth's Department of Veteran's Services or his designee
- Secretary of Commonwealth's Department of Labor and Workforce Development or her designee
- A Representative appointed by the Commission from the Commission's Vendor Advisory Team
- A representative, appointed by the Commission from statewide labor organizations
- The Director of Workforce Supplier and Diversity Development for the Commission

## Local Subcommittees (One for each gaming licensee)

- A representative of the Construction Manager or Construction Managers performing work pursuant to any agreement between the licensed casino operator and organized labor
- At least one representative of the Category 1 gaming licensee
- The appointee of the Mayor of the Host Community

• Representatives, appointed by the Commission, of local union organizations/institutions, minority, women and veteran business organizations, trade associations, workforce and community-based organizations

## Staff and Support to the Committee

- The Director of Workforce, Supplier and Diversity Development for the Commission
- The Construction Monitors engaged by the Commission
- MGC Administrative staff
- (b) The Massachusetts Gaming Commission shall appoint a Chairperson.
- (c) The Gaming Commission staff to serve as Secretary of the Committee. The Secretary shall be responsible for the custody of the records of the Committee, including but not limited to Agendas, Minutes, Program Requirement Reports, and any other matter related to the purpose of the Committee.

## Section 3. Duties and Responsibilities of Committee

- a) The Committee shall recommend actions that can be taken to increase the level of minority business enterprise, veteran business enterprise and women business enterprise participation as subcontractors.
- b) The Committee shall recommend actions that can be taken to increase the number and percentage of women, minority individuals and veterans participating as labor on the construction projects.
- c) The Committee shall participate in public forums and other educational and/or outreach activities designed to inform the general public about the construction projects as determined by the Commission.
- d) The Committee may take any other actions, consistent with the purpose of the Committee, as determined by the Commission.
- e) The Committee shall provide its recommendations and provide status updates to the Commission at the Commission's request.
- f) The Committee shall review detailed statistical reports on the number, gender, race, and veteran status of individuals by job classifications hired to perform labor

as part of the construction of the gaming establishment and related infrastructure, and a comparison of this report with the goals established by the gaming licensee and commission pursuant to G.L. c. 23K, § 21(a)(22), (23).

g) The Committee shall review reports describing the number of contracts, total dollar amounts contracted with and actually paid to minority business enterprises, women business enterprises and veteran business enterprises for design and construction of the gaming establishment and related infrastructure, and the total number and value of all subcontracts awarded to a minority, women and veteran owned business, and a comparison of these reports with the goals established by the gaming licensee and commission pursuant to G.L. c. 23K, § 21(a)(21).

## Section 4. Meetings of the Committee

- (a) The Committee shall meet every other month or as frequently as the Commission determines. The Committee shall be subject to the Open Meeting Law. Committee meetings shall be convened by the Chairperson at such times and places as the Commission shall decide.
- (b) The Chairperson of the Committee shall prepare an agenda for each meeting, which shall be sent by the Commission, with all pertinent documents, to each member of the Committee. Agendas and reports will be posted online on a regular basis.
- (c) The Commissioners of the Massachusetts Gaming Commission and the Executive Director of the Massachusetts Gaming Commission may participate in meetings of the Committee. Such other officials as the Commissioners or the Executive Director considers appropriate may also participate.
- (d) The meetings shall alternate locations between the regions of the Category 1 Licensees

RE: Play management recommendation

### **Play management**

A key element of the Massachusetts Gaming Commission (MGC) Responsible Gaming Framework is Strategy 2: Support Informed Player Choice, which sets out measures to support players' efforts to responsibly manage their gambling. Section 2.2 Play information and Management Systems, describes specific tools to implement this strategy, including the ability for players to set limits on the money and time spent gambling (also referred to as play management tool and limit-setting).

### Issue

The MGC must decide whether to require gaming licensees to offer voluntary limit-setting tools as part of a play management system. If so, what features should be included to bring the greatest benefit.

### Background

The MGC Responsible Gaming Framework was adopted by the MGC on September 25, 2014. One measure, whether to require play management tools, remained unresolved until there was further investigation of incorporating play management tools into the development of regulations.

To date, the potential utility of play management tools in Massachusetts has been thoroughly reviewed and discussed using a variety of methods:

### Review of the research

*Method:* There was an exhaustive review of the research including theory and evaluation of play management tools.

*Conclusion:* Definitive evidence of effectiveness based on empirical research is inconclusive. There are two overarching reasons why this is the case. First, literature has focused on the play management practices of *problem gamblers*, rather than recreational gamblers who may want to set limits to maintain safe levels of gambling to ensure they don't move along the spectrum toward problem gambling. Second, empirical research to date has struggled with expansive methodological flaws (Ladouceur, Blaszczynski, & Lalande, 2011).

### Engagement with licensees:

*Method:* Play management tools have been discussed numerous times in meetings of the Massachusetts Partnership for Responsible Gaming (MPRG). In July 2014, a facilitated meeting was dedicated to the

### \*\*\*\*

### Massachusetts Gaming Commission

topic to ensure a detailed understanding of the concerns of MGC applicants and licensees and recommendations from leading researchers in the field. Last month Wynn, MGM and Penn, shared written and verbal positions on the issue.

*Conclusion:* Throughout the process of developing a Responsible Gaming Framework, MGC licensees have been fully invested. Their successful experience as operators in numerous other jurisdictions cannot be overlooked. Each has expressed a commitment to promote responsible gaming at their Massachusetts gaming establishment. I've seen this demonstrated through the process of developing the RGF, as well as the applications submitted for a gaming license. While they have shared concerns about using limit-setting tools, they have also expressed a willingness to test a system to see what measurable benefit can come from it. In testimony during the MGC meeting on November 20<sup>th</sup> and written comment, each has presented recommendations on how to effectively introduce a play management system without unreasonably interfering with the gaming experience of patrons. Many of those recommendations have been incorporated into my final recommendation.

### Input from product hardware and software manufacturers

*Method:* Focused conversations regarding cost and feasibility of play management tools were held with three companies offering an operator-based solution.

*Conclusion:* A specific cost to implement and maintain a system is difficult to determine, but does not appear cost prohibitive. Early adopters of play management systems paid high costs to build new technology from scratch and retrofit both hardware and software to existing gaming management systems. Since that time, the technology has become increasingly effective and cost-efficient which would likely benefit Massachusetts if play management tools are adopted.

### Input from other stakeholders

*Method:* MGC solicited public comment following the presentation of the initial draft of the RGF and specific to play management.

*Conclusion:* Input was received from persons representing Massachusetts communities, industry other than licensees, academic and research institutions and advocacy groups. Overall the support/opposition to implement play management tools was mixed. Such input was important to the process and factored into the overall and detailed recommendation.

### Review of experienced jurisdictions

*Method:* Strategic Science explored the experience of jurisdictions that had implemented play management tools. New Zealand, Canada, Norway, Sweden and Australia were selected based on available documentation, relevance to Massachusetts, and willingness to disclose details of implementation in interviews. A summary of findings and recommendations from Strategic Science was delivered to the MGC in October 2014.

*Conclusion:* The report created by Strategic Science, *Informing play management systems: International review of limit-setting tools,* provides a compelling case to adopt play management tools in Massachusetts. Their primary recommendation:

"The MGC Responsible Gaming Framework should include play management tools that encourage players to set limits of time and money, and support players in maintaining those limits."

Strategic Science further provided detailed recommendations to address key considerations for the successful implementation of play management tools. Many of these recommendations have been incorporated into my final recommendation.

### Recommendation

I recommend the Massachusetts Gaming Commission include limit-setting options in the play management system.

To promote the greatest benefit in reducing gambling related harm, I recommend the following detailed recommendations:

- 1) Play management tools allow patrons to pre-commit to an amount spent per gaming session/day, and/or per month.
- 2) Play management tools are mandatory for licensees to offer on all electronic gaming machines.
- 3) Play management tools are voluntary for players to use.
- The use of play management tools are incentivized at enrollment and periodically thereafter for continued use.
- 5) Play management tools provide pop-up reminders on the screen of the electronic gaming machine at 60%, 90% and 100% of the limit.
- 6) Play management tools are seamlessly integrated as a feature of the licensees' player reward or loyalty card system.
- 7) Licensees work closely with the MGC to develop marketing strategies to maximize uptake and use of play management tools.
- 8) Patrons can enroll or change their limits from multiple locations including:
  - a. All electronic gaming machines;
  - b. Customer service stations;
  - c. On-site Responsible Gaming Information Centers;
  - d. Self-service kiosks, and;
  - e. Player reward portal of the company website.
- 9) When signing up for a new player account with the casino, the patron will be required to decide whether to use the play management tool.
- 10) The system will provide a periodic check to patrons who decline to use the play management tool to set limits
- 11) Limit-setting tools are coordinated with other tools of the play management system such as:
  - a. Cost of play messaging;
  - b. Monthly statements of gaming activity as required in Chapter 23K Section 29;
  - c. Brief problem gambling self-assessment tool;
  - d. Tips on responsible gaming;
  - e. Educational quizzes, and;
  - f. Information on how to access assistance.
- 12) Play management tools are flexibly designed to allow changes to limits.

### \*\*\*\*

### Massachusetts Gaming Commission

- a. Decreases take effect immediately, and;
- b. Increases will be subject to a 24-hour cooling off period.
- 13) When a player reaches the pre-set limits, the following steps reinforce the limit:
  - a. The session is interrupted and the player informed that he or she has reached limits. The player must actively acknowledge a message to continue gambling.
  - b. If the player continues to play in excess of the limit, the session is interrupted with an informative message at time intervals of every fifteen-minutes. The player would have to actively acknowledge the message to continue gambling.
  - c. Consequences for exceeding limits include forgoing any further loyalty points for play.
- 14) Play management tools are operator-based for each licensee.
- 15) The play management tools are designed on a platform that allows for evaluation and continuous improvement.

# MASSACHUSETTS GAMING COMMISSION 2015 COMMUNITY MITIGATION FUND GUIDELINES

# What is the Community Mitigation Fund?

The Expanded Gaming Act, MGL c. 23K, created the Community Mitigation Fund to help entities offset costs related to the construction and operation of a gaming establishment.

# When Is the Application Deadline?

**February 1, 2015.** MGL c. 23K, § 61 states that "parties requesting appropriations from the fund shall submit a written request for funding to the Commission by February 1 of each year."

# Who Can Apply?

MGL c. 23K, § 61 states the Commission shall expend monies in the fund to assist the host and surrounding communities ... "including, but not limited to, communities and water and sewer districts in the vicinity of a gaming establishment, local and regional education, transportation, infrastructure, housing, environmental issues and public safety, including the office of the county district attorney, police, fire, and emergency services." The Commission may also distribute funds to a governmental entity or district other than a single municipality.

Private non-governmental parties may not directly apply for Community Mitigation Funds. However, governmental entities may apply to the Commission on behalf of private parties provided that the governmental entity provides a program that ensures that funding will be made only to remedy impacts and provided that the governmental entity will be responsible for overseeing such funding.

The Community Mitigation Fund may be used to offset costs related to both Category 1 full casino facilities (MGM Springfield and Wynn Everett) and the state's Category 2 slots-only facility (Plainridge Park).

# Does a Community Need to Be a Designated Host or Surrounding Community to Apply?

**No**. The Commission's regulations and MGL c. 23K, § 61 do not limit use of Community Mitigation Funds to only host or surrounding communities. The Commission's regulation, 205 CMR 125.01(4), states that "[a]ny finding by the commission that a community is not a surrounding community for purposes of the RFA-2 application shall not preclude the community from applying to and receiving funds from the Community Mitigation Fund established by MGL c. 23K, § 61...."

# **One-Time 2015 Reserve**

In recognition that Communities may not be able to demonstrate many significant impacts by February 1, 2015 and in recognition of the Commission's emphasis on proper local planning, the Commission has established a one-time local reserve for the 2015 Community Mitigation Fund program. The Commission has reserved \$X for each designated surrounding community, each community which entered into a nearby community agreement with a licensee, and any community that petitioned to be a surrounding community to a gaming licensee.

This reserve can be used to cover impacts that may arise in 2015 or thereafter. It may also be used for planning, either to determine how to achieve further benefits from a facility or to avoid or minimize any adverse impacts.

Communities that choose to utilize the reserve in 2015 should simply check the "Check Box If Requesting the Creation of a Mitigation Reserve Fund for a Community" box on the application. No other description is required by the February 1, 2015 deadline. Commission staff will follow-up with each community to get the community's description of planned uses. Funds will be distributed as the needs are identified. Communities that utilize the reserve are not prohibited from applying for funding for any specific mitigation request.

Although no specific description as to use needs to be included in an application for the 2015 reserve, communities must apply by February 1, 2015 to get the reserve.

## What are the Reserve amounts?

Can communities apply both for the reserve and for a specific impact?

**Yes.** However, if a specific impact application is successful, a portion of the reserve will be used as an offset against amounts requested for the specific impact. The reserve amount will be reduced by **\$X** assuming the specific impact request is at least that amount.

# What Specific Impacts Can Be Funded?

In recognition that no gaming facility will be operational by February 1, 2015, the Commission has determined that <u>the 2015 Community Mitigation Fund is available only</u> <u>to mitigate impacts related to the construction of gaming facilities</u>. This limitation does not apply to planning activities funded under the 2015 one-time reserve fund.

The Commission's regulation 205 CMR 125.07 defines construction period impacts as:

"The community will be significantly and adversely affected by the development of the gaming establishment prior to its opening taking into account such factors as noise and environmental impacts generated during its construction; increased construction vehicle trips on roadways within the community and intersecting the community; and projected increased traffic during the period of construction."

Although this definition includes the types of construction period impacts that may be funded, it is not limited to those. The determination will be made by the Commission after its review.

The Fund may be used only to mitigate impacts that either have occurred or are occurring as of the February 1, 2015 application date. Although the definition in the Commission's regulations (for the purpose of determining which communities are surrounding communities) references projected impacts, the 2015 program is limited to only those impacts that are being experienced by the time of the February 1, 2015 application date.

The Commission has determined that the funding of unanticipated impacts will be a priority under the Annual Mitigation Fund. Thus the Commission will review funding

requests in the context of any host or surrounding community agreement to help determine funding eligibility.<sup>1</sup> The Community Mitigation Fund is not intended to fund the mitigation of specific impacts already being funded in a host or surrounding Community Agreement. Please note that impacts determined through any look back review likely are unanticipated impacts.

# What Cannot Be Funded?

2015 Community Mitigation Funds may not be used for the mitigation of:

- any operational related impacts;
- impacts that are projected or predicted but that are not occurring or have not occurred by February 1, 2015;
- impacts that are the responsibility (e.g. contractual, statutory, regulatory) of parties involved in the construction of gaming facilities (such as damage caused to adjoining buildings by construction equipment, spills of construction-related materials outside of work zones, personal injury claims caused by construction equipment or vehicles); and
- Other impacts determined by the Commission.

Please note that the Commission may determine to expand the eligible uses of funds for the 2016 program when impacts are more clearly identifiable. The Commission will also consult with mitigation advisory committees established in MGL c. 23K in determining such uses.

## How Much Funding Is and Will Be Available?

As a result of the license fees paid by MGM Springfield and Wynn MA LLC, \$7.5 million for each facility will be deposited to the Community Mitigation Fund. As a result of these deposits and the state's slots licensee Penn National's one-time \$2.5 million deposit in March 2014, the Community Mitigation Fund will have a balance of \$17.5 million.

<sup>&</sup>lt;sup>1</sup> The Commission is aware of the difference in bargaining power between host and surrounding communities in negotiating agreements and will take this into account when evaluating funding applications.

No further contributions will be made to the Community Mitigation Fund until either MGM Springfield or Wynn Everett become operational and generate revenues.<sup>2</sup> MGM Springfield currently projects to be operational in the second quarter of 2017. Wynn Everett currently projects to be operational by the fourth quarter of 2017. Once operational, MGL c. 23K, § 59 specifies that 6.5% of the revenues from the tax on gross gaming revenues from Category 1 (full casino) licensees shall be deposited in the Community Mitigation Fund.

Once the MGM Springfield and Wynn Everett facilities are operational, approximately \$18.0 million generated by these two facilities will be annually deposited into the Community Mitigation Fund using a conservative estimate provided by the Commission's financial consultants.

# What Should Be Included in the Applications?

- Applicants are required to complete the 2015 Community Mitigation Fund Application and may also submit additional supporting materials of a reasonable length.
- Applicants will need to describe how the specific mitigation requested will address any claimed impacts and provide justification of any funds requested. Unlike existing surrounding community agreements which were based on anticipated impacts, any community mitigation award will be based on impacts that have occurred or are occurring, as noted previously.
- Applicants will need to describe if and how such impacts were addressed or not addressed in any host or surrounding community agreements.
- Applicants may include a letter of support from the applicable gaming licensee. However, this is not necessary, as the Commission will request the licensee's opinion regarding each application.

# How Will the Commission Decide on Applications?

• Similar to the Commission's surrounding community review process, the Commission will ask each licensee to review and comment on any requests for funding.

<sup>&</sup>lt;sup>2</sup> These guidelines do not describe revenue estimates from or the participation of a Region C facility, as the Region C application deadlines have not yet been reached. Further, after the initial deposit, no further contributions from the Slots licensee will be made to the fund.

- The Commission will evaluate the submittal by the community, any input received from the community and interested parties (such as Regional Planning Agencies), the responses of the licensee, Commission consultant reviews, and any other sources determined by the Commission.
- The Commission will evaluate any funding requests in the context of any host or surrounding community agreements.
- The Commission may ask applicants for supplementary materials, may request a meeting with applicants, and reserves the ability to host a hearing or hearings on any application.
- The Commission's deliberations on Community Mitigation Fund policies will also be aided through input from the Gaming Policy Advisory Committee, the Community Mitigation Subcommittee, and any Local Community Mitigation Advisory Committees, as established pursuant to MGL c. 23K.
- The Commission reserves the ability to determine a funding limit, as additional contributions to the Community Mitigation Fund will not be made until Category 1 gaming facilities are operational.

# When Will the Commission Make Decisions?

The Commission anticipates making funding decisions on any requests for mitigation of specific impacts approximately by July 2015, after a comprehensive review and any additional information requests.

# Is There a Deadline for the Use of the 2015 Reserve?

There is no deadline. Funds may be used on a rolling basis when specific impacts are determined or the specific planning activity is determined. Once known, communities should contact the Ombudsman's Office, which will assist the community in providing the needed information. Communities with specific impacts will, at the time the impacts are known, complete the grayed sections of the 2015 Community Mitigation Fund Application (the grayed boxes 1-4 beginning on page 3). Communities with requests for planning funds will provide similar information to the Commission: a description of the planning activity, how the planning activity relates to the development or operation of the gaming facility, how the planning funds are proposed to be used, consultation with the Regional Planning Agency, other funds being used, and how planning will help the community determine how to achieve further benefits from

a facility or to avoid or minimize any adverse impacts. Please note that such details do not need to be determined by the February 1, 2015 application date. Communities must only check the box on the first page of the application to establish the reserve. Commission approvals of the use of the 2015 reserve funds will also be on a rolling basis corresponding to the rolling determinations of use by communities.

## Who Should Be Contacted for Any Questions?

As the 2015 Community Mitigation Fund program is the inaugural program for the Commission, communities and other parties may have a number of questions. They are encouraged to contact the Commission's Ombudsman with any questions or concerns. The Commission's Ombudsman will regularly brief the Commission regarding the development of Community Mitigation Fund policies.

The Commission's Ombudsman, John Ziemba, can be reached at 617-979-8423 or via email at john.s.ziemba@state.ma.us.
