i. BetMGM (2:14)

BetMGM's Senior Director of Compliance Sarah Brennan, Director of Licensing Josh Wyseman, DE&I Program Manager Jahleel Morton, and Responsible Gambling Program Manager Alana Sacerdote presented BetMGM's Sports Wagering Quarterly Report for Q1 2024 with the following topics: Revenue and Taxes, Resource Diversity, Global and Local Vendor Utility, Digital Underage Use, Self-Regulation, Purpose, PGAM Highlights, Lottery, and DEI:

Strategy and Initiatives. *BetMGM's quarterly report presentation was included in the Commissioners' Packet on pages 3 through 34.*

Commissioner Skinner asked when BetMGM rolled out their collaboration with Kindbridge in Massachusetts. Manager Sacerdote stated that the rollout started in March and noted that they would be prepared to present some preliminary data in the following quarter. Commissioner Skinner indicated that she would be interested in seeing data from other jurisdictions for comparison purposes.

Commissioner Hill stated that BetMGM's first responsible gaming commercial had made its way to Boston televisions.

Commissioner Skinner commented that she continued to want to see goals attached to BetMGM's workforce diversity efforts. She reaffirmed the importance that the Commission places on diversity and noted that such goals would provide the opportunity to measure the effectiveness of their recruitment and retention initiatives.

ii. Caesars Sportsbook (29:15)

Caesars Sportsbook's Digital Compliance Manager Curtis Lane Jr., VP of Compliance and Licensing Lisa Rankin, Director of Diversity, Equity and Inclusion Greg Shinbur, VP of Procurement David Schulte, and Responsible Gaming Program Director Carolene Layugan presented Caesars Sportsbook's Sports Wagering Quarterly Report for Q1 2024 with the following topics: Revenue, Workforce/Workforce Diversity, Vendor/Supplier Spend/Supplier Diversity, Compliance, Responsible Gaming, Lottery Engagement, and Community/Outreach/Charitable Contributions. *Caesars Sportsbook's quarterly report presentation was included in the Commissioners' Packet on pages 35 through 45.*

Commissioner O'Brien questioned the efforts taken by Caesars Sportsbook to raise the number of women in executive positions. Mr. Shinbur pointed out they have a number of programs in place to raise the low number of executive women but also admitted they could use some work. He further stated that they are working with various other programs to bring in mid-level employees in an effort to improve their succession planning. He also stated that they did not have specific goals on digital gaming with respect to workforce diversity but that they will consider that as part of their proactive approach.

Interim Chair Maynard commends Caesars Sportsbook's spending within the Commonwealth and thanks them for making that a highlight.

Following up from last quarter's presentation, Commissioner Skinner requested that, if they had not already, they send their diversity playbook and diversity 101 document as she was interested in seeing those documents.

iii. DraftKings (52:41)

Senior Director of Regulatory Operations Jake List, Vice President of Human Resources Christina Ackas, Director of Communications Jared Hess, and Senior Manager of Responsible Gaming Julie Hynes presented DraftKings' Sports Wagering Quarterly Report for Q1 2024 with the following topics: Revenue, Workforce/Workforce Diversity, Breakout of Workforce Diversity Data, Supplier Diversity Efforts, Total Vendor/Supplier Spend Overall, Underage/Minor Access, Voluntary Self Exclusion, Account Limits, Problem Gambling Awareness Month 2024 Efforts, Lottery, and Community/Outreach/Charitable Impacts. *DraftKings' quarterly report presentation was included in the Commissioners' Packet on pages 46 through 71.*

Commissioner O'Brien pointed out that DraftKings is one of the few organizations that has an employee presence in the Commonwealth. She asked for a breakdown of and goals for Massachusetts employees in regard to workforce diversity efforts. Ms. Ackas explained the breakdown of workforce diversity data in Massachusetts on the following slide. She noted that they did not have specific state goals but that it was something they could provide.

Interim Chair Maynard reaffirmed how important goal setting is to the Commission, especially in regard to workforce diversity efforts.

Commissioner O'Brien asked how DraftKings identifies underage users on their platform. Mr. List explained the multiple ways they might be able to detect an underage user. Upon request from Commissioner O'Brien, he indicated that he could look into whether there is one method that is most effective at identifying underage users and provide that information to the Commission.

Commissioner O'Brien asked if DraftKings had a plan in the works with the Massachusetts State Lottery or if there was a lack of communication. Mr. List clarified that they recently acquired Jackpocket, which may impact work with the Lottery. He stated that aside from that, there were no further conversations with the Lottery.

iv. FanDuel (1:17:50)

FanDuel's Vice President of Regulatory Richard Cooper, Senior Director of DE&I Keita Young, and Director of Responsible Gaming and Community Impact Ashley Cahill presented FanDuel's quarterly report for Q1 2024 with the following topics: Revenue, Compliance, Workforce/Workforce Diversity, Vendor/Supplier Spend/Supplier Diversity, Responsible Gaming, Q1 Community Impact Initiatives, and Charitable Impact. *FanDuel's quarterly report presentation was included in the Commissioners' Packet on pages 72 through 88.*

Commissioner Hill asked if FanDuel could clarify how the one underage user noted in their presentation was detected. Mr. Cooper stated that they did file a detailed report with the

Commission but raised concern on discussing such detail in a public session. Commissioner O'Brien suggested that in the future there be an executive session for a briefing on this subject.

Commissioner O'Brien asked if they have goals for workforce diversity. Ms. Young clarified that FanDuel's parent organization, Flutter, has a 40% female leadership goal by 2026. Commissioner O'Brien asked if they have internal initiatives to raise the number of women in leadership to which Ms. Young referenced their women's leadership development program.

Commissioner Skinner thanked FanDuel for their Operation Hope initiative to promote financial literacy. She also thanked them for agreeing to provide their workforce diversity goals in future presentations and that she was looking forward to hearing more about their efforts on their supplier diversity project plan. Commissioner Skinner then suggested that FanDuel work with the Massachusetts Supplier Diversity Office.

v. Penn Sports Interactive (1:47:22)

Penn Sports Interactive's Senior Director of Compliance Adam Kates presented Penn Sports Interactive's quarterly report for Q1 2024 with the following topics: Revenue, Workforce Diversity, Vendor/Supplier Diversity, Underage Activity, Responsible Gaming, Lottery, and Community/Outreach/Charity. *Penn Sports Interactive's quarterly report presentation was included in the Commissioners' Packet on pages 89 through 104.*

Commissioners Present:

Interim Chair Jordan Maynard
Commissioner Eileen O'Brien
Commissioner Bradford Hill
Commissioner Nakisha Skinner

1. Call to Order (00:02)

Interim Chair Maynard called to order the 530th Public Meeting of the Massachusetts Gaming Commission ("Commission"). Roll call attendance was conducted, and all four commissioners were present for the meeting.

2. Opening remarks and overview of discussion to follow (00:37)

Interim Chair Maynard provided an overview of the meeting. He said that the Commission was notified through public comments that some individual patrons were limited by sports wagering operators without notification or other information concerning the possibility of their return to wagering. He explained that through public comments, some patrons asked the Commission to consider whether a sports wagering operator should be allowed to limit a wager amount of an individual patron.

Interim Chair Maynard acknowledged that the Commission held a roundtable on the matter on May 21, 2024. He stated for the record that all the operators initially indicated that they would participate in that roundtable, yet only Bally's Interactive, LLC ("Bally's") attended.

Interim Chair Maynard stated the Commission's goal of learning from the diverse opinions of the licensees, betting stakeholders, and the responsible gaming community. He stated that the Massachusetts Legislature legalized sports wagering with the purpose of striking a balance between providing a marketplace of sports wagering for Massachusetts residents who chose to sports wager and for the state to collect the associated tax dollars.

Interim Chair Maynard further clarified the lack of security provided by illegal operators and their lack of contribution to the Massachusetts tax base. He stated that the operators who were present in the meeting were the safest choice for sports wagering.

Interim Chair Maynard provided an overview of the structure for the discussion. He stated that the first part would involve a conversation with representatives of the sports wagering Category 1 and Category 3 Operators. He stated that the second half of the discussion would involve speaking with representatives of patrons, responsible gaming and alternative sportsbook models. Interim Chair Maynard established that the discussion was to be kind and respectful.

3. Discussion with Sports Wagering Category 1 and Category 3 Operators regarding wager limitations (05:24)

Representatives of the ten operators in attendance briefly introduced themselves and their teams. *A list of these attendees is found on pages 3-4 of the Commissioners' Packet*. Interim Chair Maynard asked the operators to provide details on the limitation of patrons on their platforms and how they may be limited on an individual basis.

Senior Director of Compliance at BetMGM, LLC d/b/a BetMGM ("BetMGM") Sarah Brennan stated that the decision to limit a patron is based on many factors that align with BetMGM's risk management framework. She stated that the limitation of a small minority of players allowed them to offer competitive lines for the rest of the population. BetMGM Deputy General Counsel Jeremy Kolman described some of the tools used to manage risk and liability that applied to all patrons within BetMGM's sportsbook. Additionally, he noted that the factors that contribute to the limitation of advantage players included identifiable betting patterns and were not exclusively result-driven. Mr. Kolman further discussed the specific patron limits which used the stake factors of individual patrons.

Commissioner O'Brien asked for clarification on which team determined factoring down an individual patron. Mr. Kolman replied that the trading team was the one making those decisions. Commissioner O'Brien further asked for clarification on which department would involve this team. Ms. Brennan replied that the trading team within the Operations Department would have had visibility on patron account activity. Commissioner O'Brien asked whether there was use of Artificial Intelligence in analytics. Mr. Kolman stated that he did not have enough information to answer the question, and no experts from the trading team were present on the call.

Commissioner Skinner asked for a definition of an advantage player. Mr. Kolman stated that there was no specific definition but rather involved a holistic analysis of a multitude of factors based on visible behaviors. Commissioner Skinner asked if there were situations where a recreational bettor was deemed an advantage player. Mr. Kolman stated that it was possible for a self-identifying casual bettor to be deemed an advantage player after a review of their betting behaviors.

VP of Product at Betfair Interactive US, LLC d/b/a FanDuel ("FanDuel") Cory Fox stated that the risk management system at FanDuel was broadly similar to the one described by Mr. Kolman, but FanDuel's wager limits allowed them to manage their liability exposure. He noted that the number of users that were limited was small. Interim Chair Maynard noted that there was a possibility that some people were misidentified as advantage players.

Sr. Director of Regulatory Operations at Crown MA Gaming, LLC d/b/a DraftKings ("DraftKings") Jake List added that DraftKings' limitations are tailored to the specific behaviors of a player and would not restrict their involvement in other aspects of the platform. VP of Regulatory Affairs at FBG Enterprises Opco, LLC d/b/a Fanatics Betting & Gaming ("Fanatics") Alex Smith noted that while mistakes with customer accounts in risk management review were made regarding account restrictions, restricting a casual customer was not the goal of the program.

Mr. Fox commented that the operators' ability to have flexible wagering limits allowed them to offer more markets at a higher wagering limit for a vast majority of customers, which positively contributed to the legal wagering market with higher taxable revenue.

Chief Operating Officer & Head of Sports at American Wagering, Inc. d/b/a Caesars Sportsbook ("Caesars") Ken Fuchs described a variety of criteria, with examples, which would lead to limitations. Interim Chair Maynard asked if bots posed a problem that needed further attention. Mr. Fuchs described the computer program activity that was monitored, noting that the bots were often attached to legitimate players to place rapid bets. Mr. Fuchs added that their platform attempted to align risk management in a way that allowed as much flexibility as possible and protected the vast majority of customers.

Commissioner Skinner asked if winning factored into the determination to limit a patron and, if so, in what ways. Mr. Fox answered that FanDuel's review was based on the types of markets that an individual wagered on, types of wagers and the outcomes of the wagers, all of which provided insight into decisions for future wagers. Mr. Smith added that an individual's behavior was the driving factor behind the decisions made by Fanatics.

Commissioner Skinner asked if an individual who won a significant amount after a losing pattern constituted a concern to the risk management team. Mr. Fuchs stated that it did not constitute a scenario for concern at Caesars, and it was not a pattern signifying that the individual was an advantage player.

Commissioner O'Brien asked why shutting down a specific time when an individual could bet on a game, taking into account the lag time in a game feed, was not an implemented solution for courtsiding. Mr. Fox stated that due to technological difficulties, it was a challenge to calibrate the timing of the game feeds. Commissioner O'Brien noted that she would rather they fix the feeds on the technical end, rather than cut off a customer's experience and potentially push them into illegal markets.

Commissioner O'Brien asked if the operators sent any notifications to the customers regarding their limitations. Mr. Fox restated that very few users were limited on FanDuel and described how an individual may find out about their limitations. Commissioner O'Brien added that there could be a communication sent to the customer that alerted them to their limitations.

Commissioner O'Brien asked why removing the limitations and revising the lines using sharp bets was not a viable model. Mr. Fox stated that bets from individual users who were limited still went through, which allowed them to obtain information on their patterns. He also indicated that FanDuel applied limitations for individual bettors as well as across the board. Commissioner O'Brien asked whether there was potentially a middle ground involving a limitation on what operators could limit, for example, requiring a minimum win. Mr. Fox mentioned the limited examples where that was done in Australia and Spain. In those examples, revenue for operators plummeted. Mr. Fuchs added that a generic statement sent to the user could be misleading since it did not cover the real-time nature of the business.

Mr. Smith stated that when Fanatics sent notifications to customers, they received nasty responses, proving that the notification was unsatisfactory to the customer. Mr. Smith further noted that a non-limited customer would see a message if their maximum wager was over the limit for the market, comparing that situation to the limitations placed on a limited customer. Commissioner O'Brien pointed out the difference between knowing what the maximum wager for the market was and the individual's limited wager. Mr. List added that waiting to improve the technology dealing with game feed delays could provide a poor experience for the majority of customers. Mr. List also stated that increasing detail in disclosures to customers would help those customers evade the control.

Interim Chair Maynard asked if there could be a general notification sent to customers involving a general ratio or outline of their limits. He clarified that the Commission received complaints from limited customers and was concerned about casual bettors that were caught in the controls set for non-casual bettors. Mr. Fox stated that the majority of users who wrote to the Commission knew why they were limited, and FanDuel was willing to work with the Commission on improved transparency. Ms. Brennan added that casual bettors caught up in the analysis by BetMGM had their issues resolved, and she raised the consideration of improved clarity in terms of service or house rules about what behaviors could negatively impact customers.

Commissioner O'Brien asked about the perception in the online market in which a customer was enticed to place bets until they ran out of money or found themselves banned. Mr. Fox, Mr. Smith, and Ms. Brennan disagreed with the notion, citing their teams' programs which are designed to protect people from gaming harm. They further noted the small percentage of winning users that got limited. Commissioner O'Brien raised concern with the VIP programs. Mr. Fuchs reassured the commissioners that customers were not being banned for winning.

Commissioner Hill raised the need to get the facts and the need to do the right thing by their consumers and operators. Commissioner O'Brien followed up by stating the need for more clarity on the data in the problem areas. Commissioner Skinner also raised the need to see the data.

Interim Chair Maynard thanked the operators for their contributions.

Transcriber's note: The Commission went on a break at 1:16:24 and returned at 1:28:33.

4. Discussion with representatives of patrons, responsible gaming and alternative sportsbook models regarding wager limitations (1:28:33*)*

Interim Chair Maynard announced the return of the Commission. Roll call attendance was conducted, and all four commissioners were present for the meeting.

Patrons and responsible gaming representatives introduced themselves. *A list of these attendees is found on page 4 of the Commissioners' Packet*.

Interim Chair Maynard asked whether, since individual player limits were industry practice for those customers on a winning streak, there was an opportunity for the usage of the same logic for responsible gaming purposes.

Founder and Chief Executive Officer of Doura-Schawohl Consulting LLC Brianne Doura-Schawohl showed appreciation for the data-driven decision-making of the operators but noted that there was a statistic from the National Council on Problem Gambling indicating that around 5% of any active player base could be struggling with a problem. She highlighted a fear that sometimes responsible gaming had been used as a justification for limiting players for winning. Interim Chair Maynard noted that the previous panelists stated that going on a winning streak did not necessarily cause a limit to be imposed.

Chief Executive Officer of the Massachusetts Council on Gaming and Health Marlene Warner agreed with the operators that the conversation covered a small percentage of people. Ms. Warner pointed out that oftentimes, there was not a distinction between VIPs and people with gambling problems. Ms. Warner asked for further transparency from the operators regarding their terms and conditions.

Executive Chairman of Prime Sports Joe Brennan raised a concern that limiting could be exploited by operators, such as in cases where aspiring professional players were told they were limited due to an investigation for responsible gaming issues.

Chief Executive Officer of Bettors Voice Richard Scheutz emphasized the need for further data analysis and comparison to better understand the problem.

Podcast host, columnist, and writer David Hill reemphasized the question about whether VIP players were problem gamblers, while also being the highest profitable players for operators. He stated his concern that sportsbooks profiled bettors that could win over time and took measures against them.

Ms. Doura-Schawohl raised a concern that individuals were being punished for winning and high wager bettors were being rewarded for losing a lot. She stated that there was an issue in advertising where a customer was invited to play and win but might be cut off for winning a lot. She further noted the existing lack of transparency around communications to customers regarding the limitations. Mr. Hill noted that the main benefits of being a VIP to a sportsbook only brought benefits after losing.

Mr. Scheutz noted the change in the betting industry from risk management to risk avoidance. He followed up by saying that this shift produced growth for the illegal market.

Interim Chair Maynard asked if the illegal markets would limit the customer after witnessing the same types of behaviors. Mr. Brennan responded by stating that the illegal market was not more monolithic than the regulated market. Mr. Brennan stated that the sportsbook model based on limitations prioritized marketing and player acquisition and intended to limit players that showed tendencies of winning.

Interim Chair Maynard asked about situations when Prime Sports limited a player. Mr. Brennan stated that Prime Sports did not limit players, as it guaranteed any player the ability to bet the maximum amount for any given market. Interim Chair Maynard asked if those players were removed. Mr. Brennan responded by stating that the players who were deemed to be advantage players in recreation sportsbook were allowed to place their bets with Prime Sports, thus helping Prime Sports define their lines. Mr. Brennan stated that he leveraged the wagers of sharp bettors to adjust the markets.

Commissioner O'Brien clarified that one of the rationales for limiting could be anti-money laundering efforts; however, it appeared that a response to those efforts would be exclusion or banning. Mr. Brennan stated that if a player did not pass the Know Your Customer protocol processes or meet anti-money laundering standards, they never got a start with Prime Sports. Commissioner O'Brien asked if Prime Sports made their own lines, rather than receiving them from someone else. Mr. Brennan confirmed that Prime Sports makes their own lines.

Mr. Schuetz proposed a metaphor where an art auction banned buyers who knew anything about art, drawing a comparison with sportsbooks which limited knowledgeable players.

Freelance sports betting writer Jeff Edelstein cited his understanding of the reasons for limitations and expressed his frustration with those reasons.

Mr. Schuetz brought up the notion that if sportsbooks were not able to keep up with courtsiders because of technological difficulties related to the game feeds, they should not offer those markets.

Interim Chair Maynard asked Mr. Brennan to compare the size of Prime Sports offerings with the offerings in Massachusetts from licensed operators. Mr. Brennan stated that the companies in Massachusetts were large publicly traded companies, while Prime Sports was a brand-new company, thus having a smaller scale of operation. Mr. Brennan stated that the largest companies focused on providing parlay bets, giving the players more dependent picks and lowering the chance of winning the wager. Mr. Brennan said that by providing a large array of these prop markets, these companies overextended and offered too many products that they could monitor in real-time for changes. Mr. Brennan added that Prime Sports offers fewer parlay options as the type of players they attract are not interested in them.

Ms. Warner restated the necessity for transparency from the sportsbooks and the lack of communication with the players. She further noted an opportunity for sportsbooks to implement a customer review with the ability for customers to see what direction they were trending in and sharing that data with the regulatory body.

Interim Chair Maynard asked whether, under the assumption that bettor limitations were ongoing, notifications would be helpful and consumer friendly and what they would look like. Mr. Schuetz stated that the notification should include reference to the operator's terms and conditions but said that typical terms and conditions were unintelligible for the average bettor. Mr. Edelstein added that reaching out to customer service is never helpful.

Interim Chair Maynard asked whether, when an individual received a notification about a limitation, that notification would have led them to potentially manipulate the lines. Mr. Edelstein said that as a recreational bettor, he would have moved on to a different sportsbook. Mr. Hill said that posted limits were the fairest way of handling limits according to players. Mr. Brennan claimed that Prime Sports posted the limits in a bet slip, but the pricing was dynamic. Mr. Brennan clarified that when an advantage player placed a bet, the price might be adjusted after the bet was placed. Mr. Edelstein provided an example where FanDuel showed a market limit for a specific bet before logging into an individual's account and an individual's specific limit after login. Mr. Schuetz shared a suspicion among players about situations when a certain bet was rejected and then the line was adjusted.

Commissioner O'Brien asked these participants for questions that needed to be asked of the operators or the patrons. Mr. Brennan suggested asking the following of the operators as well as of the Commission itself: if the operators are limiting players in Massachusetts who are willingly attempting to enter a regulated market, what is the alternative for those players? Mr. Hill shared his experience with offshore markets in Costa Rica which witnessed a return of customers who were originally in the regulated markets but left due to limitations. Mr. Schuetz shared his opinion that the regulators needed to take charge in acquiring data from the operators and

showed admiration for the Commission's curiosity. Interim Chair Maynard expressed pride in the Commission having the conversation and stated that the priority of the Commission was the people of Massachusetts.

Interim Chair Maynard asked for more questions that needed to be asked of operators and patrons. Ms. Doura-Schawohl raised the question of whether the risk mitigation efforts that the operators were taking were coming at the expense of the consumers, and how aware of this relationship were the consumers. Ms. Doura-Schawohl further raised concerns about advertising and limitations as related to anti-money laundering efforts. Ms. Warner noted the importance of the Commission in the process of player protection and data collection. Ms. Warner added that integrity and collusion were also a part of gambling problems. Ms. Doura-Schawohl noted the need for transparency on responsible gaming problems before they got linked to the corporate structure of an operator.

Commissioner O'Brien stated that anyone listening to this meeting can send information to the Commission on this topic.

Interim Chair Maynard summarized the importance of the discussions on this topic. He stated that the Commission would not sacrifice getting an issue right for the sake of expediency.

The presentation included the following topics: revenue, workforce diversity, vendor and supplier diversity, compliance, responsible gaming, lottery engagement, and community outreach. *The full presentation was included in the Commissioners' Packet on pages 25 to 35.*

III. DraftKings (2:45)

Transcriber's Note: DraftKings's gave their presentation at the beginning of the quarterly reports presentation, prior to BetMGM's presentation.

Senior Director of Regulatory Operations Jake List, VP of Inclusion, Equity and Belonging Cristina Ackas, Senior Manager of Responsible Gaming Julie Hynes, and Director of Communications Jared Hess presented DraftKings's 2024 Q2 Quarterly Report. The presentation included the following topics: revenue, workforce and workforce diversity, vendor/supplier spend and supplier diversity, compliance, responsible gaming, the lottery and community, outreach and charitable impacts. *DraftKings' Q2 Report Presentation was included in the Commissioners' Packet on pages 36 to 62.*

During the Supplier Diversity Efforts portion of the presentation, Interim Chair Maynard asked VP Ackas if it was correct that a large portion of DraftKings's total diversity spend was in Massachusetts. VP Ackas stated that was correct, and a big part comes from one of DraftKings's technology contracts. She noted that the company does a lot of work within their local offices and is intentional about ensuring that spending on catering or other planning comes from diverse suppliers. VP Ackas stated that the company acknowledges that there are some things that won't change in the short term but that they are working to ensure that there are processes in place for when contracts come up.

In regard to Compliance, Interim Chair Maynard noted that the DraftKings's Monthly Underage Report was significantly higher than the previous quarter. Senior Director List stated that it was something the company needed to monitor and that some of these numbers may have been driven by the timing of the Superbowl and March Madness.

Commissioner Skinner asked Senior Director List if there had been any recent communication with the Massachusetts State Treasurer's office or the lottery about potential collaboration with DraftKings and if the company intended to integrate Jackpocket features into the sportsbook platform. He stated that they certainly intend to have collaboration between DraftKings and Jackpocket.

A discussion continued around the potential of having the lottery invited to a future meeting.

During the Responsible Gaming and Underage Report Metrics portion of the presentation, Commissioner Skinner asked Sr. Manager D'Angelo what Fanatics attributed to the increase in underage individuals wagering or attempting to wager during the month of June. Sr. Manager D'Angelo stated that because they were newer in the market, underage individuals who cannot access other platforms tend to try to wager on Fanatics. However, he emphasized that in general, all their numbers regarding sign-ups were increasing due to further awareness in the industry. He added that all of the underage individuals who attempted to wager are suspended. Commissioner Skinner stated that if they gain additional insight into the increase, it should be included in the next quarterly report. Interim Chair Maynard shared Commissioner Skinner's sentiment.

V. FanDuel (1:19:47)

During the presentation on FanDuel's Responsible Gaming Tool Usage in Massachusetts, Commissioner Skinner asked Senior Director Cahill if she had any comparative statistics from last quarter to reflect the increase in tool usage. Senior Director Cahill stated that the numbers present on the slide were reflective of the increase and noted that it was a small increase.

3. Investigations and Enforcement Bureau (2:22:30)

   a. Update on noncompliance matters related to Temporary Category 3 Sports Wagering Licensee BetMGM, LLC ("BetMGM"), and discussion regarding next steps. Update involves results of GLI Audit of Historical Wagering Data.

Enforcement Counsel Nathaniel Kennedy presented a series of noncompliance matters by BetMGM, LLC ("BetMGM"). He reminded the Commission that in February 2024, the IEB presented two matters, one involving improper wagers on player propositions in NCAA football and a non-compliance event involving penalty cards placed in soccer markets. Both matters were sent to the IEB for a full investigation and an adjudicatory hearing. After the IEB's investigation, BetMGM hired Gaming Labs International ("GLI") to conduct a full audit of their platform to determine if there were any other impermissible markets being offered. As a result of this audit, the IEB received information in June 2024 that BetMGM did offer wagers on Belarusian leagues. This information was presented to the Commission on August 1, 2024. Mr. Kennedy explained that in August 2024, the IEB was made aware of three additional noncompliance events.

Commissioner Skinner asked if the three additional noncompliance matters were discovered outside of the GLI audit process. Mr. Kennedy stated that these matters were self-reported by BetMGM as a part of the ongoing audit on BetMGM's platform.

Mr. Kennedy presented the new noncompliance matters. The first matter involved an additional 41 wagers on NCAA football player propositions, which brought the total amount of wagers to 15,480. The next noncompliance matter consisted of 13 player proposition wagers on the NCAA Men's basketball's National Invitation Tournament. Mr. Kennedy stated the next noncompliance matter involved 12 player proposition wagers on two NCAA Women's Elite 8 basketball games.

The last matter involved 106 wagers placed on Glory Kickboxing events. He stated that the IEB was looking for guidance from the Commission on these matters and if they would like them to be included in the existing investigation into the original noncompliance matters.

Commissioner Hill stated he would be fine adding the new matters into the existing investigation. Interim Chair Maynard, Commissioner Skinner, and Commissioner O'Brien shared this sentiment.

The Commission reconvened after a short break. A roll call was taken, and all four of the commissioners were present.

4. Security at the Casino Facilities (2:36:59)

    a. Executive Session

Interim Chair Maynard read the following into the record: "The Commission anticipates that it will meet in executive session in accordance with G.L. c.30A, §21(a)(4), G.L. c.30A, §21(a)(7), and G.L. c. 23K, §21(a)(7) and 205 CMR 139.02 to discuss the use and deployment of security personnel or devices, or strategies with respect thereto, specifically with regard to firearms security at Encore Boston Harbor and Plainridge Park Casino; and to discuss the response to the Commission's internal control related directive submitted by Encore Boston Harbor and Plainridge Park Casino, related to the same subject matter. 3. Research and Responsible Gaming (10:34)

Research Manager Dr. Bonnie Andrews explained that there was a statutory requirement to create an annual research agenda regarding the social and economic impacts of gambling and sports wagering in Massachusetts. She explained that the Social and Economic Impacts of Gambling in Massachusetts ("SEIGMA") team would present two reports in this meeting.

a. Presentation of report, "Sports Betting in Massachusetts: 2023 Economic Impacts Report" (12:46)

Thomas Peake, Research Manager of Economic and Public Policy Research from the UMass Donahue Institute, presented the Sports Betting in Massachusetts: 2023 Economic Impacts Report. Topics in the report included the following: sports wagering timeline, data sources, modeling strategies, in-state presence, vendor spending concentration, sports wagering's effect on casino revenue, spending reallocation, job growth, and economic output. *The report and presentation were included in the Commissioners' packet on pages 31 through 117.*

Commissioner Hill noted that there was one larger operator that was headquartered in the Commonwealth. He asked if the 12% of sports wagering operator employees who are Massachusetts residents would be lowered significantly if that company moved to another state. Dr. Peake stated that would be correct.

Chair Maynard asked if the shift in patron expenditures was coming from their entertainment budgets. Dr. Peake stated that was likely correct. He stated that the research used a modelling approach to calculate the statistics and then applied it to an economic impact model to make assumptions about how spending worked. He stated that most patrons were shifting spending from other forms of discretionary spending towards sports wagering.

Commissioner Brodeur inquired about how sports wagering affected the building trades such as construction. Dr. Peake stated that there was not high demand on the construction industry as the mobile operators did not have a physical location. He stated that any change in demand to the construction industry would likely be due to demand leading to the construction of a new data center.

Director of the Research and Responsible Gaming Division Mark Vander Linden stated that it was still the early days of sports wagering and that it was important to monitor all potential social and economic impacts.

b. Presentation of report, "Current Trends in Gambling, Sports Betting and Problem Gambling in Massachusetts, 2022-2024" (42:57)

Dr. Rachel Volberg, Research Professor at the University of Massachusetts Amherst and Principal Investigator with SEIGMA, presented the Current Trends in Gambling, Sports Betting and Problem Gambling in Massachusetts, 2022-2024 Report. Topics in the report included the following: panel survey methods, attitudes about gambling, gambling behavior, demographics of gamblers and sports bettors, gambling problems and harms, future directions, and

recommendations. *The report and presentation were included in the Commissioners' packet on pages 118 through 180.*

Commissioner Brodeur asked how the researchers ask respondents about behaviors that are illegal in Massachusetts. Dr. Volberg explained that the researchers did not ask if the respondents were doing something illegal as that would skew data. She stated that SEIGMA checked the respondents' answers against known illegal activities in Massachusetts.

Commissioner Brodeur asked if there was any information regarding the lottery included in the research. Dr. Volberg stated that the research included multiple lottery types and scratch tickets.

Commissioner Brodeur asked if the potential legalization of iGaming being considered by the Massachusetts Legislature would exacerbate the issues identified with online sports wagering. Dr. Volberg stated that there was evidence from other jurisdictions that introducing iGaming leads to increases in gambling problems. Director Vander Linden stated that there was an upcoming study on the potential social impacts of iGaming if it is legalized in Massachusetts.

Director Vander Linden stated that researching new forms of gambling helped to establish a baseline and monitor gambling behaviors. He stated that this early insight informed policy and where to direct resources.

        I. Fanatics

Chief of Sports Wagering Carrie Torrisi stated that the amended regulation would give the Commission discretion as to what the audit would look like each year. Commissioner Hill stated that this change made sense. Chair Maynard stated that the change would give the Commission latitude in deciding how it wanted to perform the audit. Commissioner Brodeur stated that the Commission would be able to use this discretion to drill down into areas of need identified by the staff.

Commissioner Brodeur moved that the Commission approve the Small Business Impact Statement and the draft of 205 CMR 239.07 included in the Commissioners' Packet and discussed here today, and further, that staff be authorized to take the steps necessary to file the required documentation with the Secretary of the Commonwealth to begin the regulation promulgation process. Commissioner Skinner expressed concern that the project costs were only $107,000 and that the additional $80,000 cushion in the reallocation might be excessive. Chief Delaney noted that these funds are not awarded up front and that they are paid out as reimbursements. Commissioner Hill stated that in reviewing local construction costs, he had seen several projects coming as much as $60,000 over budget. He stated that he shared Commissioner Skinner's concerns but that he did not want to have the Town of Saugus have to return repeatedly to request that more funds be allocated.

RE: Sports Betting Among Young Adults in Massachusetts

The Expanded Gaming Act enshrines the role of research in understanding the social and economic effects and mitigating the negative consequences of casino gambling in Massachusetts. To this end, with the advice of the Gaming Policy Advisory Committee, the Commission is charged with carrying out an annual research agenda to comprehensively assess the impacts of casino gambling in Massachusetts. Specifically, M.G.L. Chapter 23K §71 directs the research agenda to examine the social and economic effects of expanded gambling and to obtain scientific information relative to the neuroscience, psychology, sociology, epidemiology, and etiology of gambling. M.G.L. Chapter 23N §23 further expands this research agenda to encompass sports wagering.

To fulfill this broad statutory mandate, the Commission identified eight key areas of research: social, economic, public safety, the Massachusetts Gambling Impact Cohort study, data sharing, sports wagering, responsible gaming program evaluation, and community-engaged research. The objective of community-engaged research is to understand and address the impact of casino gambling and sports wagering in Massachusetts communities. The specific research topic or question is developed by the community through a community-driven process.

The Massachusetts Gaming Commission funded NORC at the University of Chicago, in partnership with Gemini Research, in 2023 to increase understanding of sports betting among young adults in Massachusetts. The study used a community-engaged research approach to understand the social and public health impacts of legalized sports betting among young adults ages 18 to 25 in Massachusetts.

Attached are the brief report and the presentation.

Sports Betting among Young Adults in Massachusetts:

Views, Behaviors, Impacts, and Recommendations

Overview

The Massachusetts Gaming Commission (MGC) funded NORC at the University of Chicago (NORC), in partnership with Gemini Research, in 2023 to increase understanding of sports betting among young adults in Massachusetts.

The study used a community-engaged research approach to understand the social and public health impacts of legalized sports betting among young adults, ages 18 to 25, in Massachusetts.

Research Questions

1. What are the **social**, **economic**, and **health** impacts of the legalization of sports betting on young adults in Massachusetts?
2. How has legalized sports betting affected young adults' **awareness**, **attitudes**, and **perceptions** of gambling?
3. What **policies** or **programs** may mitigate negative effects and/or support the well-being of young adults who sports bet?

Research Methods

Qualitative Data Collection (2024-2025):

- 12 interviews with experts
- 39 interviews with young adults

Community engagement:

- Engaged young adults, advocates, and others to serve as collaborators as part of a Community Advisory Board (CAB).
- Trained two young adults from the community to serve as interviewers.
- Collaborated with CAB members and community interviewers to interpret and validate key findings.

Of the 39 young adults who participated in interviews:

- 69% previously bet on sports.
- 51% ages 21-25; 49% 18-20.
- 56% identify as female, 41% as male, 3% preferred not to answer.
- 62% identify as White, 18% as Asian, 8% as Black or African American, 8% as Hispanic or Latino, 5% as multiracial.

Young Adult Sports Betting Views and Behaviors

VIEWS

Young adults hold both positive and negative views on sports betting, depending on the circumstance.

Sports betting is okay in <u>moderation</u>.

- ✓ Increases social connectedness
- ✓ Increases engagement with sports
- ✓ Can generate income

Sports betting is harmful in <u>excess</u>.

- x Promotes addiction

- x Can cause financial loss

> *"It's sinking a lot more money into a black hole than [young adults] would normally… that being said, it definitely does offer some interesting entertainment and social interactions, especially around watch parties for sports games."*

Many participants believe that sports betting attracts individuals who identify as male, young adults, college students, and college athletes.

BEHAVIORS

Most participants engage in sports betting infrequently, wagering less than $10. A few engage more frequently and wager large amounts.

Most bet <u>casually.</u>

- From "*every few months*" to 1x/year.
- Standard bets range from $0.50 - $10.
- Only during championship games.

A few bet <u>frequently</u>.

- From every day to at least 1x/week.
- Standard bets range from $50 - $100.

Some bet <u>more often</u> based on sport seasons.

- More consistently during the NFL and NBA.
- More frequent betting was not tied to increases in the amount they bet.

> *"Right now, it's slowed down, but once March Madness starts…the bigger events, around those times, you tend to bet more."*

The majority of young adults who bet on sports use online platforms and bet on a range of sports, most commonly football and basketball.

- Most use DraftKings, FanDuel, and BetMGM.
- Many choose apps based on promotions and usability.
- Some use bookies or informal channels via third parties, including "*informal bets*" with friends and families.

Young Adult Sports Betting Impacts and Recommendations

IMPACTS

Advertising targets young adults primarily through social media, mobile app, podcasts, and streaming services.

- All participants suggested ads target young adults, "*sports enthusiasts*," and men.
- Campus *"culture"* and word of mouth facilitate betting on university campuses.
- "*Free money,*" bonus bets promotions, and incorporating gambling into watching sports has *"normalized"* gambling and betting on sports.
- Mobile apps make it "*easy to gamble*."

Legalization of sports betting and advertisements have increased young adult awareness, access, and participation in sports betting.

- Changed engagement and social interaction around sports through legal channels.
- Increased risk of problem gambling and young adult financial risk.
- Enhanced state revenue from taxable gambling.

Awareness of efforts to address the negative effects of sports betting are limited to the Massachusetts Problem Gambling Helpline and disclaimers.

- Vendor initiatives and changes to sports betting policies and regulations are needed to protect people from sports betting harms.

Young Adult and Expert Recommendations

Implement **responsible gambling initiatives** tailored to young adults to shift conversations towards responsible sports betting.

Increase **number and promotion of resources** to support sports betters and young adults experiencing problem gambling.

Launch **public educational campaigns** to increase awareness of problem gambling.

Restrict or regulate vendor advertisements that promote sports betting.

Study Overview and Background

NORC at the University of Chicago

Background on Sports Betting in Massachusetts

- Sports betting was legalized in Massachusetts in August 2022, effective March 2023, for adults 21 and older
- $772 million was spent on sports wagering in Massachusetts as of March 2025, with $52 million in taxable gaming revenue
  - Online wagering accounted for nearly 99% of the total spent on sports wagering
- While a 2023 national NCAA study found that 58% of 18–22-year-olds have engaged in sports betting, there is limited data on sports betting among young adults in Massachusetts
  - On college campuses, 70% of students reported placing bets

The Massachusetts Gaming Commission (MGC) funded NORC to conduct a community-engaged research study to assess:

- The social, economic, and health **impacts** of the legalization of sports betting on **young adults** in Massachusetts
- How **legalized sports betting affects sports betting** among young adults, including their attitudes about gambling and its effects on public health, well-being, comorbidity with problem gambling, social inclusion, and financial impact
- What **policies or programs may mitigate negative effects** and/or support the well-being of young adults participating in sports betting

This study builds on prior MGC-funded studies

- The Social and Economic Impacts of Gambling in Massachusetts (SEIGMA) study has documented the social and economic impacts of casino gambling at the regional and state levels, including changes in gambling behavior, attitudes, and problem gambling prevalence.
- A separate SEIGMA report found that sports bettors in Massachusetts were more likely than non-sports gamblers to be male, under the age of 35, white, have a Bachelor's degree or higher, and to be employed.
- The Encore Community Perspectives Study examined the effects of casino gambling on communities near the Casino and found that casinos may have disproportionate effects on their surrounding communities.

Methods

NORC at the University of Chicago

The study's approach is based on NORC's Community-Engaged Research Framework

Community engaged-research approach:

Co-developed research questions, study design, and study materials with a Community Advisory Board (CAB)

Recruited ant trained 2 young adult community interviewers to facilitate **peer-to-peer** discussion and make it more comfortable for participants to share about a commonly stigmatized topic.

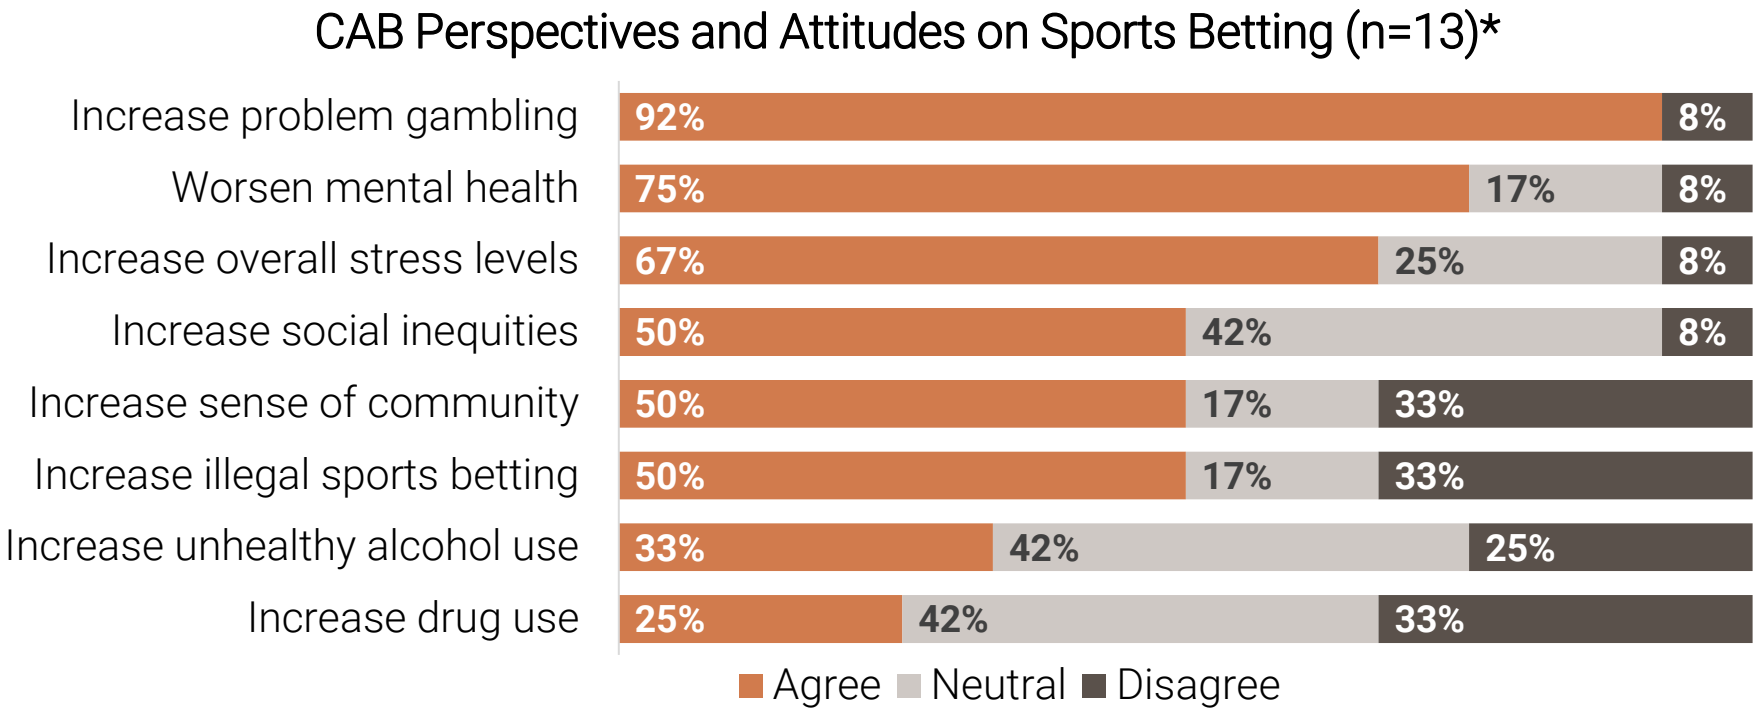
Conducted participatory analysis with the CAB and community interviewers

Benefits of a community-engaged research approach:

Enhances capacity for research; ensures research is culturally and logistically appropriate; improves validity, relevance, interpretability, and contextualization of findings; and enhances the use of the data to create behavioral, social, services, or policy change.

Source: Adapted from the Culturally Responsive Evaluation Framework and based on principles adapted from various frameworks for community-engaged research

CAB members are young adults and/or individuals engaged with the topic area in Massachusetts. They bring mixed perspectives, experiences, and attitudes about sports betting.



*Data collected via a survey to 13 CAB members on their agreement with statements about how the legalization of sports betting in Massachusetts affects young adults.

Interviews with key informants and community-led interviews young adults.

Formative Key Informant Interviews

- Engaged sports betting vendors and subject matter experts
- Provided context on young adult sports betting in Massachusetts

Young Adult Semi-Structured Interviews

Strengths and Limitations of the Study

Strengths

- Offers an in-depth and contextualized understanding of the impacts of the legalization of sports betting on young adults in Massachusetts
- Provides broader perspectives and deeper understanding about the implications, patterns, unintended consequences, and how they interact with the community

Young Adult Views on Sports Betting and Betting Behaviors

NORC at the University of Chicago

Young adult views on sports betting were **mixed**; many **held both positive and negative viewpoints** depending on the circumstances.

Sports betting is okay in <u>moderation</u>

- Bolsters social connectedness
- Increases engagement with sporting events
- Can generate income

Sports betting is harmful in <u>excess</u>

- Promotes addiction
- Can lead to mental health challenges
- Can cause financial loss

A few were <u>neutral</u>

"It's sinking a lot more money into a black hole than they would normally be…that being said, it definitely does offer…some interesting entertainment and social interactions, especially around watch parties for sports games."

Most young adults engage in sports betting infrequently, wagering less than $10. A few engage more frequently and wager large amounts.

Most engage in sports betting casually

- From “every few months” to once a year
- Standard bets range from $0.50 - $10
- Only during championship games (e.g., Superbowl, March Madness)
- Engagement is motivated by friends, family

> “Right now, it's slowed down, but once March Madness starts…the bigger events, around those times, you tend to bet more.”

Some bet more frequently during specific seasons

- More consist during NFL and NBA seasons
- They do not increase the amount they bet

A few bet at least once per week and wager more than $50

- From every day to at least once per week
- Standard bets range from $50 - $100

The majority of young adults who bet on sports use online platforms and bet on a range of sports, but most primarily bet on football and basketball.

Primarily through online/mobile platforms and peer-to-peer

- Most frequently DraftKings, FanDuel, BetMGM, and PrizePicks
- Choose apps based on promotions, usability
- A few use "informal" bets with friends
- Some use bookies

Young adults bet on a range of sports

- Mainly football and basketball
  - Other sports include baseball, hockey, MMA, UFC, soccer, tennis, golf, and Formula 1
- Betting behavior varies by season and event (e.g., Olympics, World Cup)

"Recently, DraftKings and FanDuel have made [sports betting] a lot more easily accessible. At big sports games...people will have their phones open and will be watching their parlays...and keeping track of that during the game."

Young adults also engage in other gambling-related or gateway activities.

Prior to sports betting, young adults were engaging in online poker

Other popular activities include fantasy sports

- Fantasy football growing due to lower barriers to entry and less regulation.

Less Frequent

"We go to Casino on special occasions, if it's someone's birthday… we don't go… on a regular basis."

"If it's my birthday, I do a scratch ticket, or if somebody gifts me a scratch ticket for a special occasion, I'll do it… I've gone to the casino...but nothing on a regular basis."

More Frequent

"All my guy friends pretty much take part in fantasy football and then gambling pretty often. We have Encore, which is the closest casino, and so they go there maybe once every two weeks. I think gambling is a big thing. Even on random nights, we'll play poker and put in some money."

Many participants believe that sports betting attracts individuals who identify as male, young adults, college students, and college athletes.

Perceptions that:

- Individuals who identify as male are "more into sports"
- Targeted ads resonate most closely with young adults
- Sports betting more prevalent on campus, among college athletes

Young adults were sports betting prior to its legalization

- 18-to-20-year-olds are sports betting despite age restrictions
- Loopholes when it is not legal or underage:
  - Traveling to other states where sports betting is legal
  - Using parents' names, fake IDs, or VPNs
  - Offshore website or bookies

Among our young adult study participants:*

- **100%** of male-identifying (n=16/16) participants reported they have previously bet on sports, compared to **50%** (n=11/22) of female-identifying participants#
- **68%** of underage (18-20) young adult participants noted they have previously bet on sports

* From Eligibility Screener; #1 individual responded "prefer not to answer" in the screener question about their gender

Advertisements

NORC at the University of Chicago

Sports betting advertising is targeting young adults primarily through social media platforms, mobile apps, podcasts, and streaming services.

Commonly reported advertisement mediums include:

- TV ads, especially while watching sports
- Social media (e.g., Instagram, X, TikTok, YouTube)
- Non-sports betting apps
- Subway ads ("redline") and billboards
- Podcasts
- "Online promotion" (e.g., memes)
- Bars that show sports

"If you're watching any game on ESPN, I could be watching the NBA, there's just FanDuel things, promotions on the bottom, or it's even Sunday Night Football on NBC, they have on the sides, their picks for the day on sponsored by DraftKings."

Both male and female participants suggested ads target young adults, “sports enthusiasts,” and men.

Ads target young people and men

- Men are “majority… who watch sports”
- Ads are “masculine,” “bolder colors,” and “darker, black-green vibe”
- People in ads are usually young men
- Ads use celebrities and influencers to promote sports betting
- Vendor street teams go to major sporting events, festivals, colleges to encourage people to sign up in person
- KII participants split on whether communications focus on young adults as an audience

“I think it tends to be more masculine appearing, the advertisements, with bolder colors and visuals and stuff... Also, I never really see any ads for betting on women's sports.”

Campus “culture” and word of mouth facilitate betting on college campuses.

Direct ads on campus are not prevalent but word of mouth and peers make betting part of campus culture

- Direct advertising on campuses is not prevalent
- Word of mouth between friends or peers is prevalent
- Exposure is higher at college/since starting college
- “Prevalent on online platforms that exist within college campus culture”
- One student from a D-1 school talked about athletic events sponsored by sports betting companies

“You're bound… to have at least one friend that gambles… because a lot of times these kids or college students, they only talk about how much they've won and not how much they've lost. So, you only hear the good parts of it and that hooks you in, and you want to gamble, too. I think in college students, it's mainly word of mouth and seeing your friends also gamble.”

"Free money" and bonus bets promotions and incorporating gambling into watching sports has "normalized" gambling, apps make it "easy to gamble."

Promotions encourage first-time users to create accounts

- These promotions feel like lower stake bets that target "vulnerable" people
- Some apps (e.g., Fliff) give you a free dollar a day (in "coins")
  - People under 21 using it as entry to gambling

Sports betting on phone apps makes it easier to gamble

Algorithms and viral posts also promote sports betting

- More advertising when game days are coming
- Viral posts that are undisclosed "gambling ads" (e.g., Stake)

"I don't know if you're familiar with bonus bets but it's not your money. You can [bet] it on only things that they want you to put it on so it's almost just like, 'Hey, we'll give you this $200, but you're probably not going to actually get $200. You're just going to make an account with us.'"

Impacts

NORC at the University of Chicago

Legalization of sports betting may increase awareness about, access to, and participation in sports betting, including among young adults.

Increases awareness

- There was awareness prior to legalization, but legalization has increased awareness due to advertisements and word of mouth
- Young adults have mixed levels of awareness of age restrictions; among those who were not aware are a mix of bettors and non-bettors

Increases access and participation

- More young people, athletes, young men engaging in sports betting
- Phone apps/online betting increase the accessibility and frequency of sports betting
- Normalizes sports betting because people are exposed to and talking about it more

> "I personally wouldn't have even thought to [bet on sports] if it wasn't legalized in Mass… But, because it's easily accessible on my phone and someone who's already done it before showed me how to use it, I felt more comfortable doing it."

Positive impacts: Legalization of sports betting increases engagement with sports, social interaction, state revenue, and regulation of the market.

Increases sports engagement and brings people together

- Having a stake in the outcome increases engagement
- Promotes “bonding” and “connecting” over watching sports

Provides state with revenue to reinvest in the local economy

Steers people away from the sports betting “black market” due to regulation and protections through legal avenues

Technology facilitates evaluation of gambling habits

Normalization reduces stigma, provides opportunities for conversations around responsible gambling

“I never had an interest in sports until I started betting on sports... but if you have money in it, you're going to be paying attention to the game, you're going to be a lot more interested... I tend to pay attention more. My friends tend to pay attention more.”

Negative impacts: Normalization of sports betting results in young adults wasting money and increases the risk of problem gambling.

Young adults believe they are "wasting money," but not to financial ruin

- "Easier" to accrue debt: electronic payment options mean many use lines of credit
- Instant and constant nature of online betting allows for rapid and high-volume bet placement
  - Frequency and speed of online betting may appeal to the underdeveloped pre-frontal cortex of young adults, which manages impulse control functions
- Money loss can increase disappointment, anger, frustration, stress

Young adults recognize the risk for problem gambling but believe they and their friends gamble responsibly

- Some have family or friends who have experienced problem gambling, financial loss, and/or loss of relationships
- Relative newness of online betting means limited infrastructure exists to detect problem betting or "younger" bettors
- Normalization of sports betting can increase risk of problem gambling

Mitigation of Harms

NORC at the University of Chicago

Awareness among young adults of programs mitigating potential harms of sports betting are limited to hot lines and disclaimers.

Some young adults split were aware of available resources or programs, while some were not aware

- Reported awareness is limited to disclaimers and helplines, and some questioned their effectiveness

Most young adults believe that responsibility for mitigating harms lie with multiple entities

- Government and vendors were commonly cited as key entities, followed by communities, colleges, and individuals

"Start at the source with the sports betting platforms. I think, while it is beneficial for them to have more customers and to have people get really excited and place larger bets, I think that is kind of irresponsible, and there's a need for them to promote safety and mindfulness when you're sports betting."

Participants recommended that vendor initiatives and changes to sports betting policies and regulations could protect people from sports betting harms. More specific participant recommendations include:

Vendor initiatives

- Apps/vendors should include disclaimers, warnings, and other features that limit losses and provide resources
- Online betting platforms' offer potential to investigate and document how young adults engage with apps to help develop tailored and responsive responsible gaming initiatives

Policies and regulations

- Regulations and protections oversight beyond betting vendors themselves are needed
  - Lack of federal regulations and/or oversight defaults to state policy, which is variable
- Some young adults recommended banning sports betting overall, banning online sports betting, and/or increasing age requirements

"[Sports betting apps] should have some notification if and when you are down on a lot of money, I'd say it has to set some limit… I see a lot of sports betting apps that will limit you if you've won a lot, which is part of their model, but there has to be something on the other end where it's limiting you because of how much you're losing. I feel like that's fair."

Participants recommended that responsible gaming initiatives targeted at young adults could be implemented to shift sports betting conversations towards help-seeking and harms of gambling.

Increase number and promotion of resources to support sports bettors and people experiencing problem gambling

- Resources should be available everywhere, including on sports betting apps, college campuses, and government websites

Launch public educational initiatives to increase awareness and education around sports betting and how to gamble responsibly

- Initiatives could include public educational announcements (PSAs), similar to anti-smoking campaigns
- Increase education and awareness around financial literacy, sports betting, and potential risks and negative effects

Responsible gaming initiatives through Prevention, Education, Treatment, Enforcement, Research

Restrict or regulate vendor ads on sports betting

Discussion

NORC at the University of Chicago

Young adults are engaging in sports betting and it is becoming increasingly normalized. More interventions are needed to address potential harms.

Concerns about the frequency of betting, speed of plays, types of bets, bet sizes

- Access is 24/7 on online platforms
- Anything that can be measured or monitored about performance can be monetized

Sports betting is fast-paced and ever-evolving, making it difficult to evaluate

- But technology/online platforms can potentially provide rich sources of data for evaluation and to design interventions

Young adults do not seem to view sports betting as gambling

- Need for sports betting-specific resources
- Strengthen/identify its connection to gambling

Advertising is prevalent, and seems to focus on males and young adults

- Policies/regulations needed around ads

Initiatives should focus on Prevention, Education, Treatment, Enforcement, and Research

Next Steps: Study Activities

- **Continued CAB and community engagement, including participatory analysis of additional data collection findings**
- **Data collection**
  - In-depth interviews with adult mentors
  - Focus groups with young adults ages 18 to 25. Potential options (pending CAB feedback) include focus groups with: young adults who frequently engage in sports betting; college athletes who frequently engage in sports betting; underage sports bettors (ages 18 to 20)
- **Deliverables**
  - Final report summarizing findings across years and including recommendations
  - Updated plain-language snapshot of findings
  - Updated PowerPoint Presentation

RE: Social and Economic Research Deliverables for the FY26 Research Agenda

The FY26 research agenda was approved by the Commission during a public meeting on June 17, 2025. As the MGC was engaged in a re-procurement of the social and economic research services at that time, the specific topics of study in these areas were not yet finalized. Following a competitive procurement process, on August 5, 2025, an Intent to Award letter for social and economic research was issued to the Boston University School of Public Health. The Commission is currently in contract negotiations with this apparent successful bidder, pending the Commission's approval of a final list of FY26 deliverables.

The design for the proposed social and economic research includes six aims. Aims 1-3 focus on the overall and social impacts of sports and casino gambling on individuals, families, and communities in Massachusetts, and Aims 4-6 focus on the economic impacts of sports wagering and casinos.

- **Aim 1** proposes to conduct a state-representative survey of Massachusetts residents to assess gambling attitudes, gambling behavior, problem gambling in the Commonwealth, and how these attitudes and behaviors have changed over time. Building on prior MGC-funded surveys, topics will be added such as sports wagering and AI.
- **Aim 2** proposes to conduct and analyze large-scale survey data from a key, high-risk demographic: MA college and university students. Data will be collected through the annually-conducted Healthy Minds Study, to assess gambling behaviors and attitudes in a critical vulnerable population. The large-scale survey data will be used to understand the distribution of gambling behaviors and attitudes within the MA college student population. Newly added items on sports wagering and problem gambling will be examined as key predictors of social outcomes collected as part of the annual Healthy Minds Study, such as depression, anxiety, loneliness, academic performance, and intention to persist to graduation.
- **Aim 3** will measure gambling advertising exposure and assess its effect on problem gambling behavior. An objective and personalized Gambling Advertising Media Exposure (GAME) Index will be created by merging and analyzing MediaRadar data on gambling advertising instances on television with gambling behavior from the state-representative survey from Aim 1.
- **Aim 4** proposes to conduct surveillance of economic outcomes related to casino and sports wagering building on prior MGC-funded research. This will involve tracking trends in employment, income, spending, and other measures over time. Differences by geographic area will be assessed, where appropriate, including by city and county and for casino host cities and

surrounding communities. Predictors of variability in these measures will be identified and key economic ratios over time will be estimated, such as casino employment as a share of local employment, wage differentials between casino and regional sectors, and the proportion of spending on gambling relative to total discretionary expenditures.

- **Aim 5** assesses the causal impacts of casinos on county-level employment and wages and municipal-level government expenditures and revenue in Massachusetts. This aim evaluates how casinos have shaped the local and state economy, including county-level labor markets, sector-specific employment trends, and municipal finances. This aim extends the surveillance in Aim 4 to using state-of-the-art quasi-experimental methods, such as time-varying difference-in-differences (DiD) for estimating effects of casino openings and operation on these economic outcomes.
- **Aim 6** proposes to estimate the association of sports wagering with financial well-being and social needs using the state-representative survey of MA residents in Aim 1. Analyses will include comparisons across gambling categories (non-gamblers, recreational gamblers, at-risk gamblers, and problem gamblers), analyses examining the relationship between sports wagering frequency and financial/social outcomes, and assessing whether and how different gambling behaviors predict variation in financial well-being scores and prevalence of unmet social needs.

Below are the proposed deliverables for the FY26 social and economic research for each study aim. Please note that the budget approved for the FY26 research agenda included funding for social and economic research and therefore remains unchanged.

Proposed FY2026 Gaming Research Agenda: Social Research	
Study Aim	**Year 1 Deliverables**
Aim 1: Conduct a state-representative survey of Massachusetts residents to assess gambling attitudes, gambling behavior, problem gambling, and how these attitudes and behaviors have changed over time.	Finalized survey with Institutional Review Board (IRB) approval programmed for administration, including multiple languages
Aim 2: Conduct and analyze large-scale survey data from Massachusetts college and university students to assess gambling behaviors and attitudes and understand relationships with other key factors.	Analysis of existing large-scale sports betting data from the most recent year of Healthy Minds Survey (HMS) data collection (2024-2025) and determination of items to include in the Year 2 questionnaire of HMS.
Aim 3: Measure gambling advertising exposure and assess its effect on problem gambling behavior.	Collection of advertising data from the MediaRadar database to assemble the GAME Index, as well as finalized list of survey items.

Proposed FY2026 Gaming Research Agenda: Economic Research	
Study Aim	**Year 1 Deliverable**
Aim 4: Conduct surveillance of economic outcomes related to casino and sports wagering.	Finalized survey and economic indicators, final data sharing agreements, IRB approval, and collection of survey data
Aim 5: Assess the impacts of casinos on county-level employment and wages and municipal-level government expenditures and revenue in Massachusetts.	Analysis of county-level employment, employment composition, and wages, including accommodation and hospitality employment and wages
Aim 6: Estimate the association of sports wagering with financial well-being and social needs using a state-representative survey of Massachusetts residents.	Finalized survey with Institutional Review Board (IRB) approval programmed for administration, including multiple languages

RE: Quarterly Reports Schedule – Possible Updates

Commissioner Hill asked the Sports Wagering Division to provide a possible amended schedule for the sports wagering operators' presentation of their quarterly reports. Please see on page two one possible outline of topics to be included in each quarter's presentation. Please note that an asterisk indicates a new item that is not currently included in quarterly presentations.

This is just one option, and the Sports Wagering Division will, of course, adjust the schedule and any aspects of the operators' presentations in whatever way the Commission might request.

Please note, as well, that Q2 presentations are currently scheduled for September 9th, so any changes made as a result of the Commission's discussion will not be reflected in the Q2 presentations but will be implemented for Q3.

- If a batter is substituted in after the in-play market has been offered, the original market will be removed and settled as normal even if the substitute scores the highest individual score. A new market with updated selections may be offered.

Top Bowler

- The result of this market is determined on the bowler with the most wickets in the match.
- In limited overs matches, bets will be void if it has not been possible to complete at least 50% of the overs scheduled to be bowled in either innings at the time the bet was placed due to external factors, including bad weather.
- Top bowler bets for First Class matches apply only to the first innings of each team, and will be void if fewer than 200 overs have been bowled, unless settlement of the bet has already been determined. If a player was named at the toss, but later is removed as a concussion sub, that player will still be counted, as will the replacement player.

Match/Team X Ducks (Total Ducks)

- In limited overs matches, bets will be void if it has not been possible to complete at least 80% of the overs scheduled to be bowled due to external factors, including bad weather, unless settlement of the bet has already been determined before the reduction. - A duck is classed as someone being dismissed for zero runs. Retired hurt does not count as a dismissal.
- Ducks in a super over do not count.
- In First Class matches where the result will solely be based on the first innings of each team.

The summary of changes is as follows:

1. **General Rules:** Additional clarification for futures. Further clarification for grading, where PSI will refer to the relevant governing body when settling wagers.

2. **Baseball:** Removal of Next Plate Appearance markets and slight clarification to Plate Appearance Result Exact markets.

3. **Basketball:** Clarification to Regular Season markets and additional futures markets.

4. **Football:** Clarification update on market for "Player to Score a Touchdown this Drive".

5. **Cricket:** Clarification for Top Batsman, Top Bowler, and Markets Involving 'Fours' and 'Sixes'

Sports Wagering Division

CONCLUDING STATEMENT:

The Sports Wagering Division confirms all requirements have been met under 205 CMR 247.02 and recommends approving these changes.

Section A: General Rules

8. Futures

8.4 All bets action unless otherwise indicated in the market or via additional House Rules specific to individual markets and/or sports. Therefore, all applicable bets will be settled regardless of the participants or outcome. Inactive participants and participants who do not qualify or advance after bet placement will not be voided.

8.5 All markets designated to include Listed Players Only within our House Rules will be graded based on the selections offered only.

Example: Most Passing Yards In Week 10 (NFL): The player amongst those listed who records the most passing yards will be deemed the winner. Unlisted players who record more passing yards than all listed players will not have any influence on the grading outcome.

11. Grading

11.1 We will refer to the relevant governing body when settling wagers. This includes all terms and definitions, and the use of official results, box scores, and team/player statistics. This includes (but is not limited to) the following leagues: NFL, NBA, MLB, NHL, WNBA, and all NCAA competitions.

When official results are delayed, we reserve the right to delay the grading of wagers or to use alternative sources if the outcome is clear and unambiguous. With the exception of the correction of clear errors, any changes to results after events have concluded and results have been announced will not be recognized and wagers will not be regraded.~~We will use the official results from the relevant governing body when settling wagers. 15. Dead-Heat Rules

15.1 For outright markets, in cases where there are ties in the results between winning selections, then the dead heat rule will apply. The payout will be determined by dividing the amount wagered by the number of selections that tied in the case where there is only one expected winner of the wager.

For example, you wager $5 on a golfer to have the best score among a group of 3 at +150 odds (2.5 decimal odds). The event ends with two golfers tying for the best score in the group. As a result, the original stake ($5) is divided by the number of participants who tied (2), resulting in a reduced stake of $2.50. Therefore, your payout would be $6.25 ($5/2) x 2.5 = $6.25.~~For outright markets, in cases where there are ties in the results between winning selections, then the dead heat rule will apply. Therefore, your payout would be $6.25 ($5 x 1.25 (–400) = $6.25)~~

25. General Market Rules

25.33 Player Stat changes:

Where player stat changes occur during live events which directly affect betting markets offered, wagers placed after the initial crediting of the stat on affected markets will be deemed no action and stakes refunded. Any additional stats recorded after the stat change will be graded normally.

Example: A goal is initially awarded to Player A, but is later changed to Player B. All wagers on Player B goalscorer markets placed between the initial and incorrect stat accreditation and the stat correction will be no action. If Player B scores another goal within the same event after the stat correction has been applied, wagers will be graded as a win.

Baseball

In-play

~~BS.7.10 Next Plate Appearance markets:~~

~~The official ruling made by MLB on what constitutes a plate appearance for a given player will be used for grading purposes when determining whether the plate appearance was recorded.~~

~~Intentional walks will void the batter's Plate Appearance, Pitch Result, and Pitch Count markets.~~

BS.7.10~~1~~

Plate Appearance Result Exact markets:

Any option not clearly listed will result in 'any other' being graded as the winner. Batter and pitcher must be as indicated, or market is no action.~~Plate Appearance Result Exact markets:~~

~~"Reach on Error" includes: on error, failed fielder's choice, and catcher interference.~~

~~"Inplay Out" includes fielder's choice~~

Basketball

Futures

BB.4.8 Regular Season player props markets, player to record X statistic, will be graded on the official result from the competition's governing body. The statistics from the NBA Cup Final and the WNBA Commissioner's Cup Final do not count towards grading these markets unless otherwise stated. Minimum 1 game played for bets to be action.~~Season player props markets will be graded on the official result from the competition governing body. BB.4.10 Regular Season League Leaders Markets are graded based on rules as per the NBA (Link) and WNBA (Link) websites. Min Games Played To Qualify.~~Regular Season League Leaders are graded based on rules as per the NBA/WNBA websites.~~

BB.4.11 Player markets encompassing a single Series or Round: Minimum 1 game played for bets to be action. This includes player averages, head-to-head markets and single-game benchmarks (Player To Score x+ Points In Any Game In The Series).

Each Series Game minimums (Player To Score x+ Points In Each Game In The Series) are minimum 1 game played for bets to be action. Only games played will count towards grading; inactive games will be excluded if 1 game minimum is met.

Example: Player To Score 25+ Points In Each Game In The Series

0 Games Played: No Action

1-7 Games Played & 25+ Points In Each Game Played: Win

1-7 Games Played & Less Than 25 Points In Any Game Played: Loss

BB.6.9 Player To Record X Stat In Each Quarter:

All Bets Action if the player takes the court at any point in the game, irrespective if they played in each quarter.

Football

In-play

FO.7.6 Player to Score a Touchdown This Drive: The market will grade as the player who is credited with the touchdown according to official statistics. For example, on a receiving touchdown, the winning selection will be the player who caught the pass, rather than the passing player. All bets are action regardless of if player takes the field during the drive.~~Player to Score a Touchdown This Drive: The market will grade as the player who is credited with the touchdown according to official statistics. For example, on a receiving touchdown, the winning selection will be the player who caught the pass, rather than the passing player~~

Cricket

Specific market rules

CR.4.3 Top Batsman:

For Limited overs matches at least 40% of the originally allotted overs in that team's innings must be bowled for bets to stand unless a team is all out or has reached its target before reaching this amount, or bets will be void. Players must be in the starting XI, or come on as a concussion replacement, or bets on that selection will be voided. Players need not bat for bets on that selection to stand. In the case of two or more batsmen winning with the same total then Dead Heat rules will apply. For First Class or Test Matches bets stand for the 1st innings of the match only, unless expressly stated and a minimum of 60 overs must be bowled in the innings unless the team is all out or declares. Bets stand on impact players who replace a player in the named starting XI if it was possible for them to bat after they got subbed in.

If a batsman retires and does not resume his innings, his score will stand. Runs scored in Super Overs, or similar, do not count for grading of Top Batsman markets.~~Top Batsman:~~

~~Grading is determined by the batsman with the highest individual score in the specified innings.~~

~~If a batsman retires and does not resume his innings, his score will stand.~~

~~Wagers placed on any player who is not named in the starting eleven will be deemed no action and voided.~~

~~Wagers placed on any player in the starting eleven stand, whether they bat or not.~~

~~A minimum of 90% of the entire overs allocated for the innings at the time that the wager was accepted must be played for wagers to be deemed to have action unless the innings reaches a natural conclusion in which case wagers will be deemed to have action.~~

~~If two or more players tie as Top Batsman, Dead Heat rules apply.~~

~~Runs scored in Super Overs, or similar, do not count for grading of Top Batsman markets.~~

CR.4.4 Top Bowler:

For Limited overs matches at least 40% of the originally allotted overs in that team's innings must be bowled for bets to stand unless a team is all out or has reached its target before reaching this amount, or bets will be void. Players must be in the starting XI, or come on as a concussion replacement, or bets on that selection will be voided. Players need not bowl for bets on that selection to stand. If two or more bowlers have taken the same number of wickets, the bowler who has conceded the fewest runs will be the winner. If there are two or more bowlers with the same wickets taken and runs conceded, dead heat rules will apply. If there are no wickets assigned to any bowlers, this market will be void. For First

Class or Test Matches bets stand for the 1st innings of the match only, unless expressly stated and a minimum of 60 overs must be bowled in the innings unless the team is all out or declares. Bets stand on impact players who replace a player in the named starting XI if it was possible for them to bowl after they got subbed in.

Wickets taken in Super Overs, or similar, do not count for grading of Top Bowler markets.~~Top Bowler:~~

~~Grading is determined by the bowler with the highest number of wickets taken in the specified innings. Note, the number of runs conceded by each bowler is not considered for grading purposes.~~

~~If two or more players tie as Top Bowler, Dead Heat rules apply.~~

~~Wagers placed on any player who is not named in the starting eleven will be deemed no action and voided.~~

~~Wagers placed on any player in the starting eleven stand, whether they bowl or not.~~

~~A minimum of 90% of the entire overs allocated for the innings at the time that the wager was accepted must be played for wagers to be deemed to have action unless the innings reaches a natural conclusion in which case wagers will be deemed to have action.~~

~~Wickets taken in Super Overs, or similar, do not count for grading of Top Bowler markets.~~

CR.4.5 Markets involving 'Fours' and 'Sixes':

Only fours and sixes scored from the bat will count towards grading. Overthrows, all run fours or sixes and extras do not count. Fours and sixes scored in a super over do not count. In First Class games and Test Matches, only the first innings' fours and sixes will count. If there is no more play after the bet is struck then bets are void.~~Team To Hit The Most 4s / 6s:~~

~~In limited overs matches, bets will be void if 90% of the overs scheduled to be bowled in either innings due to external factors are not complete, including bad weather, unless settlement of the bet has already been determined.~~

CR.4.6 Xth Innings Team Next Delivery Total Runs O/U: Over 0.5 Runs Off Deliver

Only runs accredited to the named delivery count, legal or otherwise. An illegal ball, such as a wide ball, counts as a delivery in its own right. Therefore, an over with 2 wides will have 8 deliveries as opposed to 6 legal balls. Should a wide be bowled, then followed by a four, this will be two separate delivery markets, the first being resulted as 1 and the second as 4. In the event a delivery does not take place for whatever reason, bets on that delivery will be no action.

MEMO: 08/25/2025

MEETING: 09/4/2025

RE: NCAA Catalog Language Update

EXECUTIVE SUMMARY:

The Sports Wagering Division (SWD) is recommending an update to the Massachusetts Sports Wagering Event Catalog to clarify the scope of permissible wagering on NCAA sporting events, particularly those involving NCAA-member institutions, but not directly governed by the NCAA.

This update would ensure consistent interpretation and application by sports wagering operators, while allowing appropriate wagering opportunities that align with the Commission's intent.

DISCUSSION:

In March 2025, the SWD began receiving inquiries from sports wagering operators regarding the permissibility of offering wagers on certain postseason college basketball tournaments, including The Crown and the College Basketball Invitational (CBI). These events feature Division I NCAA-member institutions but are not governed by the NCAA itself[1][2].

In response, the SWD held meetings over the past several months with NCAA representatives and conducted internal research to understand the NCAA's role in relation to these types of

[1] The Crown is overseen by Fox Sports and Anschutz Entertainment Group (AEG)
[2] The CBI is overseen by the Gazelle Group

events. Unlike other sports governing bodies (NFL, NBA, FIFA, etc.), the NCAA does not govern all events in which its member institutions participate. Rather, certain postseason competitions are organized by third parties and fall outside of the NCAA's direct control; yet they still involve teams from NCAA Division I schools.

Currently, the Event Catalog states that matches are permitted provided the league and bet type is approved. Within the Event Catalog, the NCAA is listed as the approved Governing Body and the approved League for various sports. G.L. c. 23N, § 3 defines "sports governing body" as "an organization that is headquartered in the United States and prescribes final rules and enforces codes of conduct with respect to a sporting event and participants therein."

While the NCAA does prescribe final rules and enforce its own code of conduct for events involving NCAA athletes, the NCAA does not oversee all events that involve NCAA athletes and there may be instances where the event itself, such as The Crown, may prescribe additional final rules related to the event or enforce additional rules related to conduct. As such, certain events involving Division I NCAA-member institutions may not be authorized under the current Event Catalog despite the Commission's intent to authorize all events for approved sports involving Division I NCAA-member institutions.

Where the NCAA does not fit neatly into the statutory definition of the Commission's established framework for the Event Catalog, SWD is proposing a language update to Section 1 of the Guidelines within the Event Catalog to clarify which NCAA events are authorized for wagering in Massachusetts.

Sports Wagering Division

	Topic
1	Exhibition, pre-season, regular season, all-star games, all-star contest, and post-season betting is permitted provided the league and corresponding bet types are approved and the matches or events are governed by the approved sports governing body or approved league, except as outlined in 1A. Leagues and events include all genders (Omnigender), and all qualifying rounds.

	Subsection
1A	NCAA matches or events shall be deemed to be governed by the NCAA for purposes of this approved catalog of events if the following conditions are met: A.The match or event is played by official NCAA rules and uses NCAA referees/officials; B.The match or event counts against each team's win/loss record and contributes towards each participant's official statistics; and C.The match or event is played after the official start of the regular season and before the official conclusion of the regular season/national championship, unless a "Playing and Practice Season Waiver" has been issued for the match.

This change would encompass events like The Crown and the CBI post-season basketball tournaments. Lastly, this change would also include every NCAA sport that is currently approved within the Event Catalog.

CONCLUDING STATEMENT:

The SWD recommends the Commission approve an update to Section 1 of the Event Catalog Guidelines to clarify that wagering may be permitted on NCAA events involving Division I NCAA-member institutions, even when those events are not directly governed by the NCAA.

This clarification will ensure consistent application of the Event Catalog, reduce ambiguity for operators, and support the inclusion of legitimate postseason competitions.

Re: Proposed Amendment to 205 CMR 238.48(3)
Date: August 28, 2025

205 CMR 238.48 regulates the expiration of sports wagering tickets and vouchers. If the winnings from a sports wagering ticket or voucher go unclaimed for more than one year, the ticket or voucher expires and the involved funds must be transferred to the Sports Wagering Control Fund in accordance with M.G.L. c. 23N, § 1. Currently 205 CMR 238.48(3) only permits payment to the sports wagering control fund via checks. The proposed changes align with the Commission staff's current practices and would allow payments to be made via wire transfer.

In sum, we are seeking a vote of authorization to begin the promulgation process for this regulation, and approval of the included small business impact statement.

RE: Update to 205 CMR 146.13: *Blackjack Table; Card Reader Device; Physical Characteristics; Inspections*

DATE: September 4, 2025

Overview:

Code of Massachusetts Regulations ("CMR") Chapter 146.00: *Gaming Equipment,* sets forth the equipment necessary to conduct table games at the two gaming establishments within the Commonwealth. Sections of the regulation prescribe the requisite chips, dice, displays (placards), shufflers, and physical layouts for common table games and game variations including but not limited to, Blackjack, Roulette, Poker and Baccarat.

Titles of the specific sections within 205 CMR 146.00, which may have been misnumbered or not fully listed, have been updated and corrected for clarity. 205 CMR 146.13: *Blackjack Table; Card Reader Device; Physical Characteristics*, has been amended in sections to increase clarity.

Proposed Amendments:

The Legal Division, in conjunction with the IEB's Gaming Agent's Division are seeking authorization to amend portions of 205 CMR 146.13.

First, **205 CMR 146.13(3)(b)** sets out the required inscriptions that must appear on a blackjack layout and prescribes two sets of rules pertaining to how the dealer draws cards. A slight correction is being made in this subsection to remove the "or" from 3(b)(2) so that (c) is not mistakenly conditional. The "or" has been moved to the proper position between the two draw rules in 3(b)(1) and (2) as follows:

(3) The following inscriptions shall appear on the blackjack layout:

(a) Blackjack pays 3 to 2 or 6 to 5;

(b) The draw rules of one of the following options:

1. Dealer must draw to 16 and stand on all 17s; or

2. Dealer must hit on soft 17s; ~~or~~

(c) Insurance pays 2 to 1.

Next, **205 CMR 146.13(15)** is being amended to increase clarity for casino patrons. This section authorizes an alternate inscription on blackjack game variants that require a dealer to draw additional cards on a soft 17[1] and stand on hard 17's[2] and all 18's. Casino staff have informed the IEB that patrons are confused by the layout's references to 18, as it is not a commonly seen inscription in most major gaming jurisdictions. Accordingly, the following change has been proposed:

> (15) If a gaming licensee offers the option set forth in the authorized Rules of the Game of blackjack that requires the dealer to draw additional cards on a soft 17, the blackjack layout shall have imprinted on it, at a minimum, the following inscription instead of the inscription set forth in 205 CMR 146.13(3)(b): "Dealer must draw to 16 and soft 17 and stand on hard 17's and above. ~~all 18's.~~"

This change increases clarity and remains consistent with the Authorized Rules of the Game of Blackjack.

If approved by the Commission, this regulation would be promulgated in the regular course; with opportunities for public comment, a public hearing and final presentation before the Commission at a meeting in November.

[1] A "soft 17" is a hand in blackjack that consists of an Ace and any combination of cards that totals 17, where the Ace can be counted as either 1 or 11. The most common example of a soft 17 is an Ace and a 6. The term "soft" indicates that the hand has flexibility; if a patron/ dealer draws another card, they cannot bust immediately because the Ace can be adjusted to count as 1 instead of 11 if needed.

[2] A "hard 17" is a hand that totals 17 without an Ace card, meaning it can either be a 10 and a 7, or an 8 and a 9.

(1) Blackjack shall be played at a table having on one side places for the players and on the opposite side a place for the dealer. A true-to-scale rendering and a color photograph of the layout(s) shall be submitted to the Bureau prior to utilizing the layout design.

(2) The layout for a blackjack table shall contain, at a minimum:
(a) The name or trade name of the gaming licensee offering the game; and
(b) Specific areas designated for the placement of wagers, which betting areas shall not exceed seven in number.

(3) The following inscriptions shall appear on the blackjack layout:
(a) Blackjack pays 3 to 2 or 6 to 5;

SCHEDULE E

RESEARCH AND DEVELOPMENT ACTIVITIES CRITERIA

In accordance with the terms and conditions of this Agreement, this Schedule E specifies the requirements that the Commission must adhere to as it relates to the R&D Activities and R&D Contribution. These requirements may change at the direction of BCLC at any time.

1. External Research Projects

a) In the event that the Commission chooses to apply the R&D Contribution for External Research Projects, the Commission will:
   i. engage qualified external research organizations such as:
      - Any accredited post-secondary institution (accreditation must be from an organization that is recognized by the given jurisdiction's government). In the case of Canadian institutions, a member institution of Universities Canada.
      - A recognized responsible or problem gambling association that conducts independent responsible or problem gambling research.

      (the "**Qualifying Organizations**")

   ii. ensure that research work is focused on surveys, focus groups, interviews, ethnographies, case studies, literature reviews or secondary data analyses related to responsible gambling, positive play behavior and beliefs, and/or the impact of the Program or positive play on customers, business outcomes, or government policy goals; and any other topics as agreed by BCLC and Licensee. ("**Qualifying Research Topics**").

b) Qualifying expenses in which the R&D Contribution shall be applied to for this section 1(a) include sponsored research grant fees, or similarly titled expenses as defined by the Qualifying Organization's policies.
c) The Commission acknowledges and agrees that not more than fifteen percent (15%) of total expenses may be applied to "Indirect (facilities & administrative (F&A))" or "Overhead" costs at the Qualifying Organization(s) (the "F&A Costs"). F&A Costs means those costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted. These costs include general administration and general costs, operation, and maintenance expenses, building depreciation, equipment and capital improvement, research administration, library expenses, accounting, and purchasing.
d) In accordance with section 1.5, as a condition to applying any expenses under this section 1 against the Commission's R&D Contribution, the Commission must provide BCLC with the Project Results and summary of findings of the research that is acceptable to BCLC.

2. Internal Research and Evaluation Projects

a) In the event that the Commission chooses to apply the R&D Contribution to complete Internal Research and Evaluation Projects, the Commission will ensure that research and evaluation work is focused on:
   i. employee surveys, focus groups, interviews, or secondary data analysis related to Program awareness, positive play behavior and beliefs, and/or the impact of the Program or positive play on other employee key performance indicators (employee satisfaction, motivation, turnover, etc.); or
   ii. Customer surveys, focus groups, interviews, or secondary data analysis related to Program awareness/effectiveness, use of the Program products/services, positive play behavior and beliefs, and/or the impact of the Program or positive play on other customer key performance indicators (customer satisfaction, loyalty, purchase intentions, etc.); or
   iii. Other topics as agreed by BCLC and the Commission.

b) Qualifying expenses in which the R&D Contribution shall be applied to for this section include:
   i. Commission staff time related to the planning, implementation, and ongoing support for internal research and evaluation projects; or

   ii. All third party expenses related to internal research and evaluation support. This can include any firm contracted by Licensee to conduct customer surveys, focus groups, interviews, or data analysis for internal research and program evaluation.

c) In accordance with section 1.5, as a condition to applying any expenses under this section 2, the Commission must provide BCLC with the Project Results and summary of findings of the research that is acceptable to BCLC.

3. GameSense Asset Development

a) In the event that the Commission chooses to apply the R&D Contribution for GS Asset Development, the Commission may seek to develop any of the following:

   i. Digital marketing assets/materials, website tools/games, and/or digital marketing campaigns;
   ii. GameSense Program brand assets, photography, designs, animations, videos, and/or advertisements;
   iii. GameSense Program brochures, posters, digital signage;
   iv. Customer engagement strategies, customer interaction programs, and/or live/experiential marketing programs/strategies;
   v. Training programs in video format; or
   vi. Other materials as agreed by BCLC and the Commission.

b) Qualifying expenses in which the R&D Contribution shall be applied for this section include the following:

   i. Staff time related to planning, implementation, and ongoing support of items.
   ii. Third Party costs contracted out by Licensee to support items.
   iii. Any other costs associated with the direct development of the brand materials.

c) All assets must comply with GameSense brand guidelines and will undergo an approval process with BCLC to ensure brand adherence. The Commission must obtain BCLC's prior approval to any use of the assets.

RE: Massasoit Greyhound Association, Inc. Request for ADW Approval

On June 16, 2025, the Massasoit Greyhound Association, Inc. ("MGA"), filed a written request to the Commission requesting approval of Churchill Downs Technology Initiatives Company ("CDTIC") as an advance deposit wagering ("ADW") provider.

Advance deposit wagering is governed primarily by **G.L. c. 128A, § 5C.** This section provides:

> each person licensed to conduct a running horse, harness horse or dog racing meeting . . . may establish and maintain betting accounts with individuals for use in connection with account wagering on races offered by the licensee, as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C, including those fees, payments, commissions and premiums.

The statute clarifies that "account wagering" means

> a form of pari-mutuel wagering in which an individual may deposit money to an account established through an agreement with a person licensed to conduct a running horse, harness horse or dog racing meeting and use the account balance to make and pay for wagers by the holder of the account which wagers may be made in person, by direct telephone call or by communication through other electronic media by the holder of the account to the licensee.

The details and potential limitations surrounding the MGA's simulcasting rights are set forth in **G.L. c. 128C, § 2(2):**

> The greyhound dog racing meeting licensee located in Bristol county shall have the right to simulcast at any location in Bristol county approved by the commission: (a) unlimited greyhound dog racing; (b) on any day of the calendar year, unlimited running horse racing from and after 6:00 p.m., plus the entire racing cards from any 2 running horse racing meetings in the state of California; and simulcasts of the Suffolk county running horse racing meeting

licensee's live races during its racing season and 2 so-called companion cards; and 6 interstate running horse simulcasts prior to 4:00 p.m. on any day the Suffolk county running horse racing meeting licensee does not conduct live races; and (c) a total of 4 harness horse racing performances on any day of the calendar year, provided, further, that the licensee shall (i) simulcast in a fair and equal manner the racing card from the harness horse racing meeting licensee located in Norfolk county and pay therefor at the rate of 11 per cent and (ii) simulcast a minimum of 3 interstate harness horse racing cards, if available, and pay to the harness horse racing meeting licensee located in Norfolk county a 3 per cent premium with respect to any interstate harness horse simulcasts received, over and above the cost of obtaining such simulcasts. (emphasis added)

G.L. c. 128C, § 2(5) goes on to explain that

> All premiums received by a running horse racing meeting licensee, harness horse racing meeting licensee or greyhound racing meeting licensee pursuant to this section shall be paid into the purse accounts of the horsemen or dogmen, respectively, at the race track licensee where the premiums were received and paid to the horsemen or dogmen as purses or, with the approval of the appropriate horsemen's association representing the horse owners racing at that meeting, used for payment of administrative and horseracing operations; provided, however, that the premiums shall be in addition to all other amounts required to be paid into purses in accordance with chapter 128A and chapter 128C.

It is worth noting that there are no active horsemen or dogmen associated with the MGA at this time, thus no funds would flow to any purse accounts under this proposed change.

The Commission's regulations also address account wagering at 205 CMR 6.20, stating:

> Associations may, either directly or through a service provider authorized and licensed by the Commission, offer a system of account wagering to its patrons whereby wagers are debited and payoffs credited to a sum of money, deposited in an account by the patron that is held by the association. The association shall notify the patron, at the time of opening the account, of any rules the association has made concerning deposits, withdrawals, average daily balance, user fees, interest payments and any other aspect of the operation of the account. The association shall notify the patron whenever the rules governing the account are changed, such notification occurring before the new rules are applied to the account and including the opportunity for the patron to close or cash-in the account. The patron shall be deemed to have accepted the rules of account operation upon opening or not closing the account. The association shall annually request authorization from the Commission before a system of account wagering is offered. Included in the associations' request shall be information related to any planned, non-monetary, incentive programs and account security plans. If a service provider is used, copies of any and all agreements between the service provider and the association regarding the services to be provided by the service provider to the association in respect to the association's account wagering operations will be give to the Commission. RE: Massasoit Greyhound Association, Inc. Request for ADW Approval

Dear Dr. Lightbown:

In accordance with 205 CMR 6.20, Massasoit Greyhound Association, Inc. ("MGA") requests approval, by the Massachusetts Gaming Commission, to include Churchill Downs Technology Initiatives Company ("CDTIC" and its platforms known as TwinSpires and DK Horse) as an Advance Deposit Wagering (ADW) provider, beginning June 24, 2025 through December 31, 2025. This vendor has been previously approved, by the Commission. Although MGA and CDTIC have entered into an agreement, CDTIC accepts interstate horserace wagers pursuant to the federal Interstate Horseracing Act. MGA's agreement with CDTIC is to operate as an ADW provider, for parimutuel wagering only.

If you require any further information, please do not hesitate to contact me.

Re: Account Wagering Agreement between Massasoit Greyhound Association, Inc. and Churchill Downs Technology Initiatives Company

Dear Mr. Stempeck:

On behalf of Churchill Downs Technology Initiatives Company ("CDTIC") and with the approval of Massasoit Greyhound Association, Inc. ("MGA"), I write to respond to your June 23, 2025, email inquiry pertaining to the proposed account wagering agreement between CDTIC and MGA ("the Commission would appreciate submissions explaining your position with respect to the limitations surrounding simulcasting recited in G.L. c. 128C, section 2").

Background on Account Wagering Pursuant to the Interstate Horseracing Act

As an initial matter and prior to responding to the Commission's inquiry, CDTIC operates an advance deposit wagering ("ADW") platform pursuant to a multi-jurisdictional simulcasting and interactive wagering hub license issued by the Oregon Racing Commission ("ORC"), which permits CDTIC to accept wagers placed by residents of multiple jurisdictions at its Oregon hub.

Pursuant to the federal Interstate Horseracing Act, 15 U.S.C. § 3001 *et seq.* ("IHA"), CDTIC can accept wagers from residents of one state on horseracing occurring in another state ("interstate wagers") provided it obtains the consent of (1) the entity that "conducts the horserace[s]" (i.e., the out-of-state track where the race will be run); (2) the state that "host[s]" the horserace (i.e., the state in which the track is located); and (3) the agency "with jurisdiction to regulate off-track betting" in the state where the wager is accepted (i.e., the state agency that licenses the wagering system to accept interstate wagers—in CDTIC's case, ORC). *See* 15 U.S.C. §§ 3002(9)-(11), 3004(a); *see also Sterling Suffolk Racecourse Ltd. P'ship v. Burrillville Racing Ass'n, Inc.*, 989 F.2d 1266, 1270 (1st Cir. 1993) (noting that the IHA alone establishes "the absolute condition precedent to off-track wagering across state lines").

In other words, at least for the purpose of wagers by Massachusetts residents on racing taking place outside Massachusetts, CDTIC's compliance alone with the IHA is sufficient, and not only is approval from the Commission not required; the IHA preempts anyone other than the three groups identified in the preceding paragraph from imposing additional prerequisites on the acceptance of interstate horserace wagers. *See Churchill Downs Technology Initiatives Co. v. Michigan Gaming Control Board*, No. 1:25-CV-47, 2025 WL 539972 (W.D. Mich. Feb. 19, 2025).

Despite the above background, both in order to accept *intra*state horserace wagers and to work collaboratively with state gaming regulators, CDTIC elects to adhere to state-specific requirements in several jurisdictions, even where such requirements may be preempted by the IHA. This includes Massachusetts, where CDTIC has for many years operated under an agreement with Suffolk Downs, and where it has now entered into an agreement with MGA. Thus, while as discussed below the agreement between CDTIC and MGA should be approved, and CDTIC is therefore not asking that the Commission agree with or accept its position in regard to its ability to accept interstate wagers pursuant to the IHA at its Oregon hub, CDTIC reserves all rights to assert its rights under the IHA, should it be appropriate to do so in the future.

Response to the Commission's Inquiry

The Commission has asked whether any "limitations surrounding simulcasting recited in G.L. c. 128C, section 2" are relevant to the agreement between CDTIC and MGA. For several reasons, we submit that no such limitations are relevant.

Initially, we note that it is not G.L. c. 128C, section 2 which authorizes account wagering in the Commonwealth. Rather, that authorization is found in G.L. c. 128A, section 5C, which states that racing licensees "may establish and maintain betting accounts with individuals for use in connection with account wagering on races offered by the licensee, as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C, including those fees, payments, commissions and premiums." Section 5C states that racing licensees may "accept and maintain betting accounts directly, or through an agreement with an authorized and licensed service provider." There is no distinction in Section 5C or elsewhere in Massachusetts law between the authorization to conduct account wagering directly as opposed to via a "service provider" such as CDTIC.

We acknowledge that the text of Section 5C of chapter 128A contains the text "as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C," and we assume that text forms the basis of the Commission's June 23 inquiry.[1] For several reasons, however, that text cannot be read to place any restrictions on the account wagering CDTIC intends to offer pursuant to its new agreement with MGC.

[1] To be clear, however, CDTIC and MGA are cognizant of the restriction in G.L. c. 128C, section 9 on the acceptance of wagers on greygound racing. CDTIC does not currently accept wagers on greyhound racing from Massachusetts residents, and it would not do so pursuant to its agreement with MGA.

Any Limitations on Simulcasting Do Not Apply to Account Wagering

First, although G.L. c. 128C, section 2 places certain limitations surrounding "simulcasting," those limitations do not extend to the "account wagering" authorized by G.L. c. 128A, section 5C. The relevant definitions of "simulcast" and "simulcast wager," found in G.L. c. 128C, section 1, are as follows:

> "Simulcast," the broadcast, transmission, receipt or exhibition, by any medium or manner, of a live race, including but not limited to, a system, network, or programmer which transmits, or receives, television or radio signals by wire, satellite, or otherwise.
>
> "Simulcast wager", a wager taken at a guest track on a race conducted live at another track, whether inside or outside the commonwealth.

By contrast, G.L. c. 128A, section 5C defines "account wagering" as

> a form of pari-mutuel wagering in which an individual may deposit money to an account established through an agreement with a person licensed to conduct a running horse, harness horse or dog racing meeting and use the account balance to make and pay for wagers by the holder of the account which wagers may be made in person, by direct telephone call or by communication through other electronic media by the holder of the account to the licensee.

Although G.L. c. 128C, section 2 places certain restrictions on "simulcasting," no simulcasting is required in order for an account wager to be taken pursuant to the definition of "account wagering." In other words, "simulcasting" focuses on the broadcast of a race, whereas "account wagering" refers to how wagers are made on racing, with no reference to simulcasting or any restrictions thereon. The definition of "simulcast wager" makes this even more clear, as it clarifies that such wagers are limited solely to "wager[s] taken at a guest track," as opposed to via the other means by which account wagers can be taken. Simply put, the relevant definitions make clear that an account wager is not a simulcast wager and not subject to any statutory restrictions on simulcasting.[2]

The explanatory text in G.L. c. 128A, section 5C makes this even more clear, as it contains no indication that account wagers are to be construed as simulcast wagers and, rather, focuses on the need for account wagers to comply with any "fees, payments, commissions, and premiums" set forth in G.L. c. 128A, section 5C (stating that licensees "may establish and maintain betting accounts with individuals for use in connection with account wagering on races offered by the licensee, as the licensee is otherwise authorized to accept in accordance with this

---

[2] This is reinforced by the language of G.L. c. 128C, section 9, which states that licensees that racing meeting licenses shall not "simulcast **or** accept a wager" on greyhound dog racing. If "simulcast" referred to the accpetance wagers by means such as account wagering, there would be no need for the statute to contain the "or accept a wager" text.

chapter and chapter 128C, **including those fees, payments, commissions and premiums**") (emphasis added).

In short, any limitations on simulcasting in G.L. c. 128C, section 2 do not apply to account wagering, and the references to chapter 128C in G.L. c. 128A, section 5C solely exists to clarify that account wagering is subject to the various payments to which wagering authorized by chapter 128C are subject.

The Commission's Current and Historical Treatment of Account Wagering Reinforce that Limitations on Simulcasting Do Not Apply to Account Wagering

Next, although, as discussed in the preceding subsection, the relevant text of the statutes makes clear that any limitations on simulcasting in G.L. c. 128C, section 2 do not apply to the account wagering permitted by G.L. c. 128A, section 5C, this is reinforced by the Commission's actual current approach to account wagering. Although this approach is consistent as it pertains to all racing licensees, one need look no further than the Commission's current and historical authorization to MGA to conduct account wagering.

Namely, MGA is currently authorized to conduct wagering through Dial2Bet. Indeed, the Commission approved of MGA's "long-standing account wagering provider, Dial2Bet" by way of a unanimous vote on December 16, 2024.[3] In fact, in Director of Racing Lightbown's letter presenting Dial2Bet to the Commission for consideration, it was noted that MGA's affiliation with Dial2Bet, for which MGA contracts with US Off-Track, L.L.C., has "been in place for approximately 20 years."[4] The only restriction imposed on Dial2Bet has been the requirement to discontinue the acceptance of wagers on greyhound racing after July 31, 2023, pursuant to G.L. c. 128C, section 9.[5] The Commission's consistent authorization of account wagering by Dial2Bet pursuant to a contract with MGA is a practical example of how any limitations on simulcasting in G.L. c. 128C, section 2 cannot possibly apply to account wagering. Thus, because there is no legal distinction to be made between the account wagering offered by

Please note that the Commission considered the approval of Dial2Bet as MGC's acount wagering provider as a separate agenda item from its approval of MGC's simulcast import locations, further reinforcing the dinstiveness of account wagering from simulcast wagering. *See id.*

[5] Massachusetts Gaming Commission, Meeting Minutes, December 9, 2022, at 8-9, *available at* https://massgaming.com/wp-content/uploads/Meeting-Minutes-12.9.22-OPEN.pdf) (unanimous approval of Dial2Bet for calendar year 2024, with note that MGA has been "using these services since account wagering entered the Commonwealth around 2001," and solely limiting Dial2Bet's authorization to the requirement to discontinue wagering on greyhound racing after July 31, 2023).

Dial2Bet and the account wagering offered by CDTIC, the agreement between MGA and CDTIC should be approved.

Further, just as G.L. c. 128C, section 2 contains limitations on simulcasting by dog racing meeting licensees, that same statute contains limitations on simulcasting by the harness horse racing meeting licensee, Plainridge Park Casino. And just as the Commission has consistently authorized account wagering by Dial2Bet through its affiliation with MGA, the Commission has likewise consistently authorized Plainridge Park Casino to conduct account wagering through an affiliation with Hollywood Races since 2016.[6] As is the case with the Commission's consistent authorization of Dial2Bet, the Commission's consistent authorization of account wagering by Hollywood Races pursuant to a contract with Plainridge Park Casino is an additional illustration of how any limitations on simulcasting in G.L. c. 128C, section 2 cannot possibly apply to account wagering.

Additionally, and also similarly, Suffolk Downs has historically had account wagering agreements not only with CDTIC but several other providers.[7] This authorization to Suffolk Downs' account wagering providers has persisted in spite of the fact that Suffolk Downs last conducted live racing in the Commonwealth in 2019.[8] Further, just as G.L. c. 128C, section 2 contains limitations on simulcasting by dog racing meeting licensees and harness horse racing meeting licensees, the statute also imposes restrictions on simulcasting by horse racing meeting licensees. In spite of these restrictions, Suffolk Downs' several account wagering partners (including CDTIC) have consistently been authorized by the Commission, up to and including for the year 2025.

There is no basis in the statute to draw any distinction between the authorization to Suffolk Downs to conduct account wagering and the authorization that is afforded to both MGA and Plainridge Park Casino, which is reinforced by the fact that the Commission has consistently authorized the account wagering operators affiliated with all three racing licensees. In other words, if the Commission was to call into question the agreement between MGA and CDTIC based on any purported limitation in G.L. c. 128C, section 2, the exact same reasoning would call into question the viability of *all* account wagering in the Commonwealth.

Lastly, CDTIC is currently authorized by the Commission to operate pursuant to an agreement with Suffolk Downs. Other than changing its Massachusetts racing licensee partner to MGA, there will be no modifications to CDTIC's account wagering offering to Massachusetts residents. Thus, just as the authorization of CDTIC's account wagering agreement with Suffolk Downs is appropriate, the same rationale should apply to CDTIC's account wagering agreement with MGA.

Justin Stempeck, Interim General Counsel
Massachusetts Gaming Commission

Boston, MA 02110

Dear Mr. Stempeck:

Thank you for your June 23rd email inquiry concerning our request to include Churchill Downs Technology Initiatives Company ("CDTIC"), as an Advance Deposit Wagering (ADW) provider. Your specific question was to explain our "*position with respect to the limitations surrounding simulcasting recited in G.L. c. 128C, section 2*". Please accept this letter as our promised submission.

The Commission has full authority under chapter 128C to authorize the Raynham Park licensees to receive an unlimited number of running horse and harness horse simulcast signals. Section 2 of chapter 128C does not limit the Commission's authority to grant unlimited simulcast signals to Raynham Park.

The clear language in G.L. c. 128C, § 2(2), expresses that Raynham Park has the "*right to simulcast*" a minimum number of simulcast signals that the Commission must authorize, assuming all other statutory conditions are satisfied. Section 2(2) states in relevant part:

"*The greyhound dog racing meeting licensee located in Bristol County shall have the* ***right to simulcast*** *. . .*".

Our statutory "right" to receive a minimum number of simulcast signals cannot be considered as a limitation on the maximum number of simulcast signals that the Commission can authorize. The Commission's critical mission would not be well-served if it does not embrace its full authority, particularly when chapter 128C was enacted in 1992 to enhance live running horse racing which now suffers greatly in the Commonwealth. *See* sections 1 and 5 of chapter 101 of the Acts of 1992.

Section 2 in the original version of chapter 128C did limit the maximum number of simulcast signals that Raynham Park could receive:

"*All licensees licensed to conduct greyhound dog racing meetings, . . . , may simulcast* ***up to*** *fifty racing cards and* ***up to*** *fifteen special events of national significance . . .*".

1958 Broadway, P.O. Box 172, Raynham, MA 02767 ■ Website: raynhampark.com

Phone: (508) 824-4071 ■ Fax : (508) 821-3239

In 2001, the Legislature reversed the "up to" limitation that it had established in the 1992 legislation by granting each licensee the "right" to receive a minimum number of simulcast signals. *See* section 17, of chapter 139, of the Acts of 2001. By doing so, the Legislature also removed the statutory limitation on the Commission's authority to approve unlimited simulcast signals for all licensees. The Legislature's reversal from an "up to" maximum number of simulcast signals, to a "right" to simulcast a minimum number, had followed several studies that the Legislature had ordered to find ways to enhance live horse racing. *See* section 13, of chapter 163, of the Acts of 1999. The Legislature's reversal to a "right" to simulcast a minimum number of signals was also in recognition that live racing had suffered for decades, because racing meeting licensees had been unnecessarily forced to compete for live racing days from a limited pool. The 2001 overhaul of Chapter 128C solved that quandary for simulcast wagering by guaranteeing each licensee the "right" to a minimum number of simulcast signals.

We also note that account wagering under G.L. c. 128A, §5C, is not simulcast wagering under G.L. c. 128C. G.L. c. 128A, §5C, defines "account wagering" as wagering from a betting account where the individual may place their account wager at the licensee's track, or remotely by telephone or other electronic media. But simulcast wagering must always be placed, at the licensee's track. *See* the definition for simulcast wager at G.L. c. 128C, §1.

Lastly, we note that the Legislature mandated that Raynham Park engage in account wagering under G.L. c. 128A, §5C. That section expressly provides that all such licensees " . . . ***shall*** *accept and maintain betting accounts directly, or through an agreement with an authorized and licensed service provider, . . .*". Raynham Park seeks to comply with that legislative mandate by contracting with CDTIC, which has been an authorized and licensed service provider to Suffolk Downs. Raynham Park respectfully requests that the Commission allow it to conduct the same scope of account wagering, through CDTIC, that the Commission has repeatedly approved for Suffolk Downs. Specifically, it is our understanding that account wagering at Suffolk Downs is not limited by its number of daily simulcast signals, because Suffolk Downs' account wagering occurs on days when Suffolk Downs is completely closed and has zero simulcast signals. On that basis, the number of Raynham Park's daily simulcast signals should not restrict our account wagering activities through the same service provider that Suffolk Downs has been utilizing. If the Commission wishes, please also accept this submission as the Raynham Park licensees' request for approval to receive unlimited, daily, running horse and harness horse simulcast signals from our list of host tracks that the Commission has already approved.

I trust this submission has adequately answered your inquiry. Should you require further information, please let me know.

Sincerely,

Susan J. Rodrigues

Director Lightbown:

Plainridge Park offers the following public comment regarding Massasoit Greyhound Association, Inc's (Raynham Greyhound Park) request to add the Churchill Downs Technology Initiatives Company platforms Twin Spires and DK Horse ADW to their offering.

Raynham Greyhound Park's request to offer an Advanced Deposit Wagering (ADW) through Twin Spires/DK Horse is not permitted under currently existing Massachusetts law. MGL 128A Section 5C states that those licensed to conduct a racing meeting may "accept and maintain betting accounts directly, or through an agreement with an authorized and licensed service provider." At this time, Plainridge Park Casino (PPC), is the only licensed entity in the Commonwealth conducting a racing meeting. Should the Commission determine that Raynham Greyhound Park is permitted to enter this agreement, Raynham Greyhound Park should be subject to the restrictions listed in MGL 128C Sec 2 Sub-Sec 2.

Thank you for the opportunity to provide comment. Please feel free to reach out to us with any questions you may have.

NEW ENGLAND HBPA
Horsemen Helping Horsemen

June 27, 2025

Dear Commissioners

We are writing today over our concerns regarding the meeting on Tuesday (July 1st) regarding a proposed contract between Twin Spires and Raynham/Taunton Park for Advanced Deposit Wagering (ADW) without consent from the NEHBPA. Operating within the racing statutes the NEHBPA has held continuous contracts with Suffolk Sterling Racecourse (SSR) for ADW revenues.

When dog racing was banned many years ago at Raynham Park, the licensee was no longer obligated to pay the NEHBPA for the Thoroughbred racing signals. In retrospect, that was widely viewed as an oversight that has not been corrected. These are premiums legally due to the Horsemen, consistent with every other Horsemen's organization across the country. Loss of those premiums directly impacts our ability to maintain our organization and fulfill our statutory requirements.

It is now our understanding that the Twin Spires Platform will be handled by Raynham/Taunton. If the Commission approves the agreement between the two parties, it is effectively sanctioning a deal that intentionally bypasses the NEHBPA and releases not only Raynham from this obligation but will also lose revenue from SSR that we can't afford at this time.

Implicit in the 2011 legislation that established the Massachusetts Gaming Commission (MGC) is the preservation and advancement of horse racing in Massachusetts, both thoroughbreds and standardbreds.

We have previously communicated to MGC staff that NO Simulcast Licensee should be approved by the Commission without first verifying that the licensee has the NEHBPA consent to Simulcast. It should be fairly obvious to the MGC that if Raynham Dog track is permitted to go forward without that contract with the NEHBPA, they will not feel obligated to negotiate with us and can literally put our organization out of business.

If the commission approves their request, at a minimum the Commission should require Raynham to reach an agreement with the NEHBPA as a condition for receiving the license.

The gross revenue for simulcast fees was $33 million in 2024 (Annual Report) and even at a reduced hosting fee of 2% that Raynham might negotiate; Raynham would receive $600,000 with little or no cost while the Horsemen are pushed further to a financial cliff.

The Commission has to consider how its decisions will affect and reshape horse racing in Massachusetts, but sanctioning this proposed deal between Twin Spires and Raynham does nothing to promote the return of live racing in Massachusetts. What it does is provide a windfall to Twin Spires and Raynham while delivering another fatal blow to our industry .

We ask that the Commission to either deny this request or make its approval conditional upon it reaching an agreement with the NEHBPA. The Commission's legislative mandate is to protect and advance the horse racing industry, not racing licensees.

Thank you

RE: Massasoit Greyhound Association, Inc. Request for ADW Approval

On June 16, 2025, the Massasoit Greyhound Association, Inc. ("MGA"), filed a written request to the Commission requesting approval of Churchill Downs Technology Initiatives Company ("CDTIC") as an advance deposit wagering ("ADW") provider. On July 1, 2025, the Commission held a public meeting where it heard from a number of interested parties regarding this request, including, MGA, Churchill Downs Technology Initiatives Company ("CDTIC"), Plainridge Park Casino ("PPC") and the New England Horsemen's Benevolent and Protective Society ("NEHBPA"). During that discussion the primary questions that arose were the following:

1. How should the Commission interpret the reference in G.L. c. 128A, §5C to the simulcasting statute, G.L. c. 128C and does this reference incorporate the simulcasting limitations on licensees to their advance deposit wagering operations? The specific statutory language is cited below:

… each person licensed to conduct a running horse, harness horse or dog racing meeting, not including racing meetings held or conducted at a state or county fair, may establish and maintain betting accounts with individuals for use in connection with account wagering on races offered by the licensee, as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C, including those fees, payments, commissions and premiums.

2. Is PPC the only racing licensee authorized to offer Advance Deposit Wagering?

3. Is the consent of the NEHBPA necessary to simulcast in Massachusetts?

In anticipation of further discussion and review the Commission requested written submissions from any interested party. As a result, the Commission received responses from MGA, CDTIC, PPC,

the NEHBPA and Sterling Suffolk Racecourse, LLC ("Suffolk"). All written responses are attached hereto and are summarized below.

1. **How should the Commission interpret the reference in G.L. c. 128A, §5C to the simulcasting statute, G.L. c. 128C and does this reference incorporate the simulcasting limitations on licensees to their advance deposit wagering operations?**

a. MGA and CDTIC

MGA and CDTIC take the same position with respect to the question of whether the limits on simulcasting contained in G.L. 128C impact the offering of advance deposit wagering under G.L. 128A, namely, that the two activities are entirely separate. In support of this argument, CDTIC points to the fact that simulcasting and advance deposit wagering regulations are in different regulatory sections as are the rulemaking authority for each statutory section.

CDTIC further argues that the specific language at issue must be read in its context within the statute, highlighting the final clause of the sentence as below:

> each person licensed to conduct a running horse, harness horse or dog racing meeting, not including racing meetings held or conducted at a state or county fair, may establish and maintain betting accounts with individuals for use in connection with account wagering on races offered by the licensee, as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C, **including those fees, payments, commissions and premiums.**

CDTIC asserts that there are many provisions of G.L. c. 128C which cannot apply to account wagering under G.L. 128A and that the only possible reading of this statutory section would be a narrow one tied to the ensuring that the licensee pays the appropriate fees associated with the highlighted language.

b. PPC

On this issue, PPC argues that the racing licensee limitations on simulcasting certain races as detailed in G.L. c. 128C §2, are incorporated by reference into G.L. c. 128A §5C and should similarly apply as limits on advance deposit wagering.

c. Suffolk

Suffolk argues that the express statutory language and the rules of statutory construction require a finding that account wagering is limited to a licensee's simulcast rights under G.L. c. 128C. In furtherance of this position Suffolk explains that advance deposit wagering providers operate on behalf of racing licensees and thus are bound by whatever restrictions are placed upon its associated racing licensee. Suffolk specifically calls out the language stating that the legislature was specifically

and expressly limiting the account wagering authorization set forth in G.L. c. 128A, §5C, where it stated that racing licensees are permitted to conduct account wagering only with respect to races and wagers "the licensee *is otherwise authorized to accept* in accordance with [Chapter 128A] and Chapter 128C" (emphasis added). As a result, racing licensees are authorized to conduct account wagering only on those races and wagers that are authorized by Chapter 128C (races they are authorized to simulcast).

d. NEHBPA

The response from the NEHBPA does not address this question and the NEHBPA appears to take no position on this issue.

2. Is PPC the only racing licensee authorized to offer Advance Deposit Wagering?

a. MGA and CDTIC

MGA asserts that it has a statutory right to offer advance deposit wagering and simulcasting.

CDTIC does not address the argument raised by PPC.

b. PPC

PPC argues that it is the only entity in the Commonwealth statutorily permitted to offer advance deposit wagering. In support of this position, PPC points to the language in G.L. c. 128A, §5C that refers to "each person *licensed to conduct a running horse*, harness horse or dog racing meeting…" and argues that it is the only entity licensed to conduct *live* racing in the Commonwealth and thus the only entity that should be allowed to engage in advance deposit wagering.

c. Suffolk

In contrast to PPC, Suffolk asserts that all existing racing licensees are authorized to conduct advance deposit wagering. In its letter Suffolk walks through its history of live racing in the Commonwealth as well as its continued approval as a racing licensee via legislative acts since its cessation of live racing in 2019. Suffolk explains that it is a "racing meeting licensee" and argues that its status as a "racing meeting licensee" is the same as being "licensed to conduct a running horse, harness horse or dog racing meeting" as stated in G.L. c. 128A, § 5C. Suffolk additionally points out that PPC is raising this argument for the first time despite Suffolk's annual approvals from the Commission to conduct advance deposit wagering for each of the past five years. Suffolk further details the legislative history of each extension of its racing license since 2015 to underscore its position that the legislature has never limited Suffolks rights to conduct account wagering despite carefully crafting a variety of other language over the years. In particular, Suffolk points to the most recent racing and simulcasting extension statute, which, when enacted in 2023 identified Suffolk as

"the running race horse meeting licensee located in Suffolk county licensed to conduct live racing pursuant to said chapter 128A and simulcast wagering pursuant to said chapter 128C in calendar year 2023." St. 2023, c. 26, §23.

e. NEHBPA

The NEHBPA does not address this question in its response.

3. Is the consent of the NEHBPA necessary to simulcast in Massachusetts?

a. MGA and CDTIC

MGA asserts that no statute or regulation authorizes the Commission to condition its license to require it to reach an agreement with the NEHBPA.

CDTIC does not address this issue in any of its materials.

b. Suffolk

Suffolk argues that the NEHBPA has limited consent rights with respect to simulcasts in Massachusetts. Specifically, Suffolk states that except with respect to incoming simulcast signals from New York in months other than August, no Massachusetts racing licensee and no advance deposit wagering company acting as a service provider for a racing licensee currently requires the consent of the NEHBPA to simulcast. Suffolk further asserts that the NEHBPA has provided its consent to Massachusetts racing licensees for New York Races.

c. PPC

PPC disagrees with the NEHPBA's position and argues that once the NEHBPA has approved a simulcast signal for one racing licensee that signal is deemed approved f or all otherwise eligible racing meeting licensees under the Interstate Horseracing Act.

d. NEHBPA

The NEHBPA originally argued that without its consent no simulcast licensee should be approved by the Commission. The NEHBPA has now changed position and formally consents to the proposed agreement between MGA and CDTIC.

Justin Stempeck
Interim General Counsel
Massachusetts Gaming Commission
101 Federal Street, 12th Floor
Boston, MA 02110

July 31, 2025

Counselor Stempeck:

Plainville Gaming and Redevelopment, LLC d/b/a Plainridge Park Casino ("PPC") writes to provide follow-up information regarding our position on G.L. c. 128A, section 5C and its reference to 128C, as requested by the Massachusetts Gaming Commission ("Commission"). PPC has two main concerns with the addition of entities authorized to offer advance deposit wagering ("ADW") operations in Massachusetts: (1) advance deposit wagering may be approved by the Commission only for those licensees conducting live racing meetings (*see* G.L. c. 128A, Section 5C), and (2) advance deposit wagering that is approved by the Commission must comply with the simulcast restrictions in G.L. c. 128C, Section 2. Further, contrary to the New England Horsemen's Benevolent & Protective Association (NEHBPA)'s assertion, neither federal nor state law requires horsemen's associations to consent to simulcast.

1) PPC is the Only Entity in the Commonwealth Statutorily Permitted To Offer ADW.

Advance deposit wagering is primarily governed by G.L. c. 128A, Section 5C, which states the following:

"each person ***licensed to conduct a running horse, harness horse or dog racing meeting*** . . . may establish and maintain betting accounts with individuals for use in connection with account wagering on races offered by the licensee, ***as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C***, including those fees, payments, commissions and premiums. As used in this section, "account wagering" shall mean a form of pari-mutuel wagering in which an individual may deposit money to an account established ***through an agreement with a person licensed to conduct a running horse, harness horse or dog racing meeting*** and use the account balance to make and pay for wagers…"

and

"A person **licensed to conduct a running horse, harness horse, or dog racing meeting** [...] shall accept and maintain betting accounts directly, or through an agreement with an authorized and licensed service provider, in the name of a natural person only."
Emphasis added.

It appears from the submissions previously made by some parties to the Commission that there is significant emphasis being placed on whether the simulcast conditions contained in section 128C apply to acceptance of ADW. Focusing on this question, however, overlooks a fundamental statutory construct that moots the inquiry. By its very text, the law states that only those licensed to conduct live racing may establish and maintain ADW accounts. In fact, the phrase ***"licensed to conduct a running horse, harness horse, or dog racing meeting"*** appears seven (7) times within Section 5C. Although this section authorizes live racing licensees to conduct ADW directly or through a service provider, the fact remains that the entity conducting ADW must be an entity "licensed to conduct a running horse, harness horse, or dog racing meeting." PPC is the only entity in the Commonwealth that is licensed to conduct live racing.[1] As such, PPC is the only entity in the Commonwealth that is statutorily authorized to maintain ADW accounts or conduct ADW through approved service providers. Because no other entity is statutorily authorized to maintain ADW accounts, the question of whether the simulcast restrictions can or should apply to any other entity is moot.[2]

Further, the Commission's regulations address advance deposit wagering at 205 CMR 6.20, which states that "associations may, ***either directly*** or ***through a service provider authorized and licensed by the Commission***, offer a system of account wagering to its patrons." Further, the regulation states that "[t]he association shall annually request authorization from the Commission before a system of account wagering is offered." Thus, other parties' assertions to the contrary, the Commission's approval is required by both law and regulation before an entity begins to offer ADW. PPC has satisfied this requirement through its annual racing license renewal process with the Commission. To PPC's knowledge, no other entity has gone through this annual process with the Commission.

---

[1] For purposes of completeness, both Suffolk Downs and MGA are precluded under the law to conduct live racing pursuant to the sunset provisions located in the Massachusetts racing laws. *See, e.g.,* Acts of 2011 c. 194, Section 92, extended by Acts of 2023, c. 26, Section 19 and Acts of 2023 c. 26, Section 23.

[2] Apparently, the only justification that has been provided to circumvent this statutory provision is historical practice and that the Commission may have approved ADW by those not operating live racing in the past. However, the Commission's current and historical treatment of ADW is irrelevant in this instance. As the Commissioners discussed during the Commission's July 1, 2025 public meeting, the statute in question here is complex, and regardless of what has happened in the past, the Commission is bound by the law. The Supreme Judicial Court has held that "[t]he right of the public to have the [...] laws properly administered cannot be forfeited by the action of its officials." *New City Hotel Co. v. Alcoholic Beverages Control Com.*, 347 Mass. 539 (1964). Moreover, the restrictions present in c. 128C, Section 2 are independent of requests that have previously been approved by the Commission for simulcast signals. Rather, once the Commission approves the signals, it is the licensee's responsibility to adhere to the law and the restrictions therein.

2) If The Commission Authorizes Others To Offer ADW, The Provisions Of Section 128C Should Be Applied.

As discussed above, PPC is the only entity statutorily eligible to offer ADW directly or through approved service providers and there is no reason to consider the question further. However, if the Commission takes the view that other associations are authorized to offer ADW accounts and wagering, all approved ADW service providers are required to comply with the simulcast restrictions imposed on the licensed associations by G.L. c. 128C, Section 2, as that section is incorporated by reference into G.L. c. 128A, Section 5C, as noted above. Among those restrictions are the following:

"The Greyhound dog racing meeting licensee located in Bristol county [Massasoit Greyhound Association, Inc., "MGA"] shall have the right to simulcast at any location in Bristol county approved by the commission: (a) unlimited greyhound dog racing; (b) on any day of the calendar year, unlimited horse racing from and after 6:00 p.m., plus the entire racing cards from any 2 running horse racing meetings in the state of California, and simulcasts of the Suffolk county running horse racing meeting licensee's live racing during its racing season and 2 so-called companion cards; and 6 interstate running horse simulcasts prior to 4:00 p.m. on any day the Suffolk county running horse racing meeting licensee does not conduct live races; and (c) a total of 4 harness horse racing performances on any day of the calendar year…"

G.L. c. 128A, Section 5C's explicit incorporation by reference of the above simulcasting restrictions means that not only is the licensed association bound by these restrictions, all such ADW service providers approved by the Commission to operate through that licensed association are subject to those restrictions as well. There is no basis for the argument that these restrictions apply only to simulcasting by the association and not to account wagering, given the legislature's mention of c. 128C, Section 2 in the section governing ADW. Nowhere in the statutory text is there an indication that the legislature intended for these restrictions only to apply to simulcasting.

Lastly, there is no basis in the applicable law for the NEHBPA's assertion that its consent is necessary to simulcast. The NEHBPA relies on an "implicit" intent by the legislation establishing the Massachusetts Gaming Commission to "preserv[e] and advance […] horse racing in Massachusetts," yet provides no statutory authority for its assertion. Massachusetts law states that "all simulcasts shall comply with the Interstate Horse Racing Act of 1978, 15 U.S.C. 3001 *et seq.* or other applicable federal law; provided further, that all simulcasts which have racing associations that do not require approval in compliance with the Interstate Horse Racing Act of 1978, 15 U.S.C. 3004(a)(1)(A) shall require the approval of the New England Horsemen's

Benevolent & Protective Association prior to being simulcast the a racing meeting licensee within the commonwealth; and provided further, that if the association agrees to approve the simulcast for 1 racing meeting licensee, it shall approve the simulcast for all otherwise eligible racing meeting licensees." This provision therefore only applies to an association receiving a signal from a specific jurisdiction that does not require approval from the local horsemen's association to send the simulcast signal out-of-state. Furthermore, the statute is clear that should the NEHBPA approve such a simulcast signal, then that signal is deemed approved for all otherwise eligible racing meeting licensees.

PPC respectfully requests the Commission deny MGA's request to add a new ADW service provider. If the Commission chooses to approve MGA's request, PPC requests that MGA and its ADW service provider be subject to the applicable simulcast restrictions in G.L. c. 128C Section 2, which is incorporated by reference in G.L. c. 128A, Section 5C, the provision governing ADW. Further, the NEHBPA does not have to consent to simulcasts.

Thank you for your consideration of this matter. We are happy to discuss further should the Commissioners or Commission staff wish to do so. Please do not hesitate to contact us with any questions or concerns.

Respectfully,

RE: Request to Add Authorized Service Provider to Our Account Wagering System

Dear Mr. Stempeck:

Kindly accept this letter as a summarization to our request to approve an amendment to our authorized system of account [deposit] wagering. Our requested amendment is to add Churchill Downs Technology Initiatives Company ("CDTIC", d/b/a "TwinSpires") as an authorized service provider.

In addition to the comments set forth below, we incorporate the response filed by CDTIC, including but not limited to the comments aimed to address the Commission's inquiry pertaining to your highlighted text of Section 5C of Chapter 128C, at the July 1, 2025 public meeting and your July 10, 2025 request, for additional comments. As comprehensively set forth by the CDTIC, our proposed agreement is completely harmonious with the statutory distinction between account wagering and simulcasting and otherwise in compliance with the applicable provisions of both chapters 128A and 128C.

Further, our racing meeting license includes the *statutory obligation* to engage in account wagering either directly, or through a service provider.[1] It is our understanding that, for many years, the Commission has consistently authorized CDTIC to be a service provider to the Suffolk Downs racing meeting licensee. In addition to ensuring equity and fairness among racing licensees, reasoned consistency is an important tenant of regulatory decision making.

Plainridge Park provided written comments in its June 27th email to Director Lightbown claiming that Plainridge Park is the only racing meeting licensee in the Commonwealth, and that we are somehow subject to unexplained "*restrictions listed in MGL 128C Sec 2 Sub-Sec 2*". Those

[1] See G.L. c. 128A, §5C.

unsupported comments are not only baseless, but were obviously motivated by Plainridge Park's desire to improperly monopolize simulcast wagering. It is indisputable that we are a racing meeting licensee, and that we have the statutory obligation to engage in account wagering. Similarly, it is indisputable that G.L. c. 128C, §2(2) expresses our "right" to simulcast[2], and that a "right" is never construed as a restriction on the person holding the "right". Kindly refer to our June 27th letter for the legislative history of that provision. Our "right" to simulcast under chapter 128C, does not impair our right and obligation to engage in account wagering under chapter 128A, and to do so with CDTIC, when the Commission has consistently recognized CDTIC as an authorized service provider.

The New England HBPA also provided written comments in its July 27th letter. The essence of that letter requests that the Commission "*require Raynham to reach an agreement with the NEHBPA as a condition for receiving the license*" [sic]. Respectfully, there is no provision in G.L. c. 128A, §5C, or in 205 CMR 6.20, that authorizes the Commission to impose such a condition. We note that the NEHBPA should recognize that including CDTIC will certainly increase the public's awareness and participation in the horse racing industry. That increased public exposure will provide the greatest benefit to the horsemen.

We respectfully request that the Commission authorize CDTIC to be added as an authorized service provider, for our account wagering, at its next meeting. Thank you in advance, for your consideration.

Sincerely,

Susan Rodrigues

Re: Account Wagering Agreement between Massasoit Greyhound Association, Inc. and Churchill Downs Technology Initiatives Company

Dear Mr. Stempeck:

On behalf of Churchill Downs Technology Initiatives Company ("CDTIC") I write to respond to the Commission's July 10, 2025, follow-up email inquiry pertaining to the proposed account wagering agreement between CDTIC and Massasoit Greyhound Association, Inc. ("MGA").

NEHBPA Consent

To initially and briefly address the Commission's second inquiry, CDTIC takes no position on whether the NEHBPA's consent is required as it pertains to the proposed agreement between CDTIC and MGA. However, following discussions with the NEHBPA, the NEHBPA has consented to the proposed agreement.

The Statutory and Regulatory Separateness of "Account Wagering" and "Simulcasting"

Turning to the Commission's first inquiry pertaining to the highlighted text in your July 10 email, CDTIC incorporates by reference the substance of CDTIC's June 27, 2025 letter to the Commission. In that letter, we discussed how "account wagering"—as defined by statute, is not subject to any statutory limitations on "simulcasting," both as evidenced by the statutory language and the historical operation of account wagering in Massachusetts. Lest there be any doubt, however, we provide additional analysis herein in response to your July 10, 2025 follow-up inquiry.

First and foremost, further to the discussion in our June 27 letter that "account wagering" is simply not "simulcasting," one need only look to the structure of the Commission's existing

regulations pertaining to account wagering and simulcasting. The Commission's regulations pertaining to account wagering are located in section 6 of title 205 of the Code of Massachusetts Regulations, specifically at subsections 205 CMR 6.20 through 205 CMR 6.28 (the "Account Wagering Regulations"). By contrast, the Commission's regulations pertaining to simulcasting are located in an entirely different section, comprising the entirety of 205 CMR 7.00 (the "Simulcasting Regulations"). Nowhere in the Account Wagering Regulations is there a reference to "simulcasting," and similarly, nowhere in the Simulcasting Regulations is there a reference to "account wagering." This separation makes good sense in light of the fact that, per the definitions discussed in our June 27 letter, "account wagering" must be viewed as something different from "simulcasting."

The separation between account wagering and simulcasting is reinforced by the rulemaking authority granted to the Commission. In the rulemaking power granted to the Commission pertaining to *account wagering* is located in section 9 of chapter 128A and states in pertinent part that "[t]he commission shall prescribe rules and regulations under which betting accounts for account wagering, as provided in section 5C, shall be established, maintained and operated." By contrast, the rulemaking power granted to the Commission pertaining to *simulcasting* is located in section 8 of chapter 128C and states that "[t]he commission shall have full power to promulgate rules, regulations, and conditions under which all running horse, harness horse, or greyhound racing simulcasts and simulcast wagers shall be conducted in the commonwealth." Again, section 9 of chapter 128A makes no reference to account wagering being subject to simulcasting regulations, and section 8 of chapter 128C likewise makes no suggestion that regulations pertaining to simulcasting should apply to account wagering.

In short, not only has account wagering historically been treated separately from simulcasting in Massachusetts, but this separateness has a basis in the statutes and Commission's regulations, which consistently speak separately to account wagering and simulcasting.

The Proper Interpretation of Section 5C of Chapter 128A

Turning directly to the Commission's July 10 follow-up email, the Commission seeks our position regarding the highlighted language "as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C." However, that clause needs to be read in the context of the entire statute, including the language that immediately follows: "as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C***, including those fees, payments, commissions and premiums***" (emphasis added).

It should go without saying that chapters 128A and 128C contain numerous provisions that cannot possibly apply to account wagering. For example, account wagering providers are not subjected to the various requirements pertaining to the operation of a race meeting set forth throughout chapter 128A, such as those in sections 7, 8, and 8A. Similarly by way of example, account wagering operators are not subject to the requirements of section 3A of chapter 128C pertaining to unclaimed wagers, because all winning wagers are immediately credited back to patrons' accounts. In other words, the text highlighted in the Commission's July 10 email does not mean that account wagering providers are subject to *all* of the requirements of chapters 128A

and 128C, and, in fact, many (if not most) of the provisions of chapters 128A and 128C cannot possibly be read to apply to account wagering.

With that in mind, the clarifying language immediately following the highlighted text which references "fees, payments, commissions, and premiums" illuminates the true meaning of the reference to chapters 128A and 128C. Pursuant to CDTIC's agreement with MGA (and just as we understand MGA currently does as it relates to the Dial 2 Bet ADW services), MGA will be paying any pertinent amounts pertaining to the account wagering revenue it receives from CDTIC. Thus, the account wagering offered by CDTIC pursuant to the proposed agreement with MGA will be in compliance with the highlighted section 5C which, as clarified by the language that follows it, pertains to the payment of any required fees and the like.

Conclusion

For the reasons discussed herein and in CDTIC's June 27 letter, CDTIC's proposed agreement with MGA should be authorized, as it is completely harmonious with the statutory and regulatory separateness of "account wagering" from "simulcasting" discussed in both letters and will otherwise be in compliance with any pertinent provisions of chapters 128A and 128C, specifically those pertaining to fees, payments, commissions, and premiums.

CDTIC reserves all rights to further respond to the Commission or assert additional positions should the need arise. If CDTIC can answer any questions or provide any additional information, please do not hesitate to contact me.

Re: Sterling Suffolk Racecourse, LLC 2025 Simulcasting Approvals

Dear General Counsel Stempeck:

I am writing on behalf of Sterling Suffolk Racecourse, LLC ("Sterling Suffolk") in response to your email dated July 10, 2025, conveying the Gaming Commission's request for comments on certain issues related to account wagering/ADW and simulcasting that arose at the Commission's public meeting on June 24, 2025, in connection with its consideration of the request for approval of Churchill Downs Technology Initiatives Company ("CDTIC" or "TwinSpires") as an ADW provider for Massasoit Greyhound Association, Inc. ("Raynham Park").

Background

TwinSpires has been an account wagering provider for Sterling Suffolk pursuant to M.G.L. Chapter 128A, Section 5C ("Section 5C") since 2009, during which time the companies have enjoyed a mutually beneficial relationship. The ADW agreement between the companies provided TwinSpires with a right to terminate on 30 days' notice, and TwinSpires exercised that right on May 22, 2025. On Sunday, June 22, TwinSpires informed Sterling Suffolk that it had entered into an account wagering agreement with Raynham Park and would be seeking MGC approval as an ADW provider for Raynham. On June 23, 2025, the parties entered into an extension of the about-to-expire ADW agreement.

Sterling Suffolk has long recognized that it holds no monopoly on the ability to conduct account wagering and to engage ADW providers to facilitate wagering by horse racing patrons in Massachusetts. Sterling Suffolk is an attractive ADW partner because its simulcasting rights (and therefore, the wagering opportunities available to its ADW partners) are superior to other racing licensees, as more particularly described below.

Moreover, Sterling Suffolk recognizes that TwinSpires was within its rights to terminate the ADW agreement and has no legal basis to object to the authority of the Commission to approve TwinSpires as an account wagering provider for Raynham Park to conduct ADW wagering in Massachusetts. Such account wagering is, of course, subject to the requirements and restrictions on account wagering as set forth in the General Laws and the Commission's regulations.

Account Wagering Is Restricted to a Licensee's Simulcast Rights Under Chapter 128C

For the reasons set forth below and other than with respect to a racing licensee's own live races, the licensee and its ADW providers should be restricted to accepting wagers on races that the licensee is authorized to simulcast. Sterling Suffolk believes this is the only way to harmoniously interpret Section 5C and Chapter 128C, which is expressly incorporated into Section 5C.

Since 2001, racing licensees have been authorized to conduct account wagering pursuant to M.G.L. Chapter 128A, Section 5C, by either opening accounts with patrons directly or engaging third-party ADW providers approved by the Commission. Section 5C provides in part as follows:

> Notwithstanding section 17A of chapter 271, each person licensed to conduct a running horse, harness horse or dog racing meeting, not including racing meetings held or conducted at a state or county fair, may establish and maintain betting accounts with individuals for use in connection with account wagering on races offered by the licensee, as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C, including those fees, payments, commissions and premiums. As used in this section, "account wagering" shall mean a form of pari-mutuel wagering in which an individual may deposit money to an account established through an agreement with a person licensed to conduct a running horse, harness horse or dog racing meeting and use the account balance to make and pay for wagers by the holder of the account which wagers may be made in person, by direct telephone call or by communication through other electronic media by the holder of the account to the licensee.

Section 5C goes on to provide that racing licensees may "accept and maintain betting accounts directly, or through an agreement with an authorized and licensed service provider." ADW providers are not otherwise addressed in the statute. The Commission's regulations also do not address ADW providers extensively; the only mention of them is in the opening (and operative) phrase of 205 CMR 6.20, which states that "[a]ssociations may, either directly or through a service provider authorized and licensed by the Commission, offer a system of account wagering to its patrons."

The statute and the regulations make clear that ADW providers operate on behalf of racing licensees, not as independent actors separately licensed by the Commission. It follows that an ADW provider is bound by whatever restrictions and limitations are placed upon its associated racing licensee, whether by statute, regulation, or order of the Commission.

At the June 24 public meeting and in your July 10 email, you have asked stakeholders for their positions on the relationship between account wagering rights under Chapter 128A and simulcasting rights under Chapter 128C. In particular, you have asked for comments on significance of the statutory language that provides racing licensees "may establish and maintain betting accounts with individuals for use in connection with account wagering on races offered by the licensee, as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C."

Sterling Suffolk recognizes that account wagers and simulcast wagers are not identical transactions. A patron can place a simulcast wager at a racing licensee's facility without using a wagering account, and he or she can place an account wager with a licensee or its service provider without being at the facility. However, through the language underlined above, the Legislature has expressly linked simulcasting and account wagering by incorporating a racing licensee's simulcasting authorization under Chapter 128C into its account wagering authorization under Section 5C. A "fundamental canon[] of statutory interpretation requir[es] that [courts] read statutes concerning the same subject matter as a harmonious whole wherever possible." Commonwealth v. Morgan, 476 Mass. 768, 778 (2017).

When interpreting a statute, one must also endeavor to give all provisions and all words meaning. The Supreme Judicial Court has emphasized that "a statute should be construed so as to give effect to each word, and no word shall be regarded as surplusage" Ropes & Gray LLP v. Jalbert, 454 Mass. 407, 412 (2009). If the Commission were to allow racing licensees and their ADW providers to operate account wagering as if the incorporation of Chapter 128C into Section 5C does not exist, it would violate that principle of interpretation, which is meant to ensure that legislative intent is fully realized and that no part of the statute is rendered meaningless. See also Morgan, 476 Mass. at 779 ("[I]if a sensible construction is available, we shall not construe a statute to make a nullity of pertinent provisions or to produce absurd results.").

The Legislature has specifically and expressly limited the account wagering authorization granted in Section 5C by permitting racing licensees to conduct account wagering only with respect to races and wagers "the licensee is otherwise authorized to accept in accordance with [chapter 128A] and chapter 128C." MGL c. 128A, § 5C. The reference to Chapter 128A is irrelevant to the question before the Commission because that chapter "otherwise authorizes" live races and wagering thereon. The Legislature has explicitly authorized Raynham Park (and Sterling Suffolk) to operate without hosting a live racing meeting. As a result, Raynham Park and Sterling Suffolk are authorized to conduct account wagering only on those races and wagers

that are authorized by Chapter 128C—that is, only on those they are authorized to simulcast. And, because an ADW provider in Massachusetts acts as an extension of the racing licensee with which it is associated (i.e., an ADW provider's right to accept wagers in the Commonwealth is wholly derivative of the authority granted to the racing licensee with which it has an agreement), an ADW provider for such a licensee is authorized to offer to its clients only those races that the licensee is authorized to simulcast.

Chapter 128C authorizes racing licensees to conduct simulcasting and accept wagers. Since its adoption, Chapter 128C, Section 2 has established the number and type of races that each respective licensee may simulcast. As it applies to Raynham Park, the statute provides as follows (with references to premium payments omitted to simplify):

> (2) The greyhound dog racing meeting licensee located in Bristol county shall have the right to simulcast at any location in Bristol county approved by the commission: (a) unlimited greyhound dog racing; (b) on any day of the calendar year, unlimited running horse racing from and after 6:00 p.m., plus the entire racing cards from any 2 running horse racing meetings in the state of California; and simulcasts of the Suffolk county running horse racing meeting licensee's live races during its racing season and 2 so-called companion cards; and 6 interstate running horse simulcasts prior to 4:00 p.m. on any day the Suffolk county running horse racing meeting licensee does not conduct live races; and (c) a total of 4 harness horse racing performances on any day of the calendar year, provided, further, that the licensee shall (i) simulcast in a fair and equal manner the racing card from the harness horse racing meeting licensee located in Norfolk county . . . and (ii) simulcast a minimum of 3 interstate harness horse racing cards, if available,. . . .
>
> (3) In addition to the rights granted in subparagraphs (1) and (2), the greyhound dog racing meeting licensee located in Suffolk county and the greyhound dog racing meeting licensee located in Bristol county shall have the right to simulcast 15 running horse special events, so-called . . . .

M.G.L. Ch. 128C, § 2.[1]

Because Sterling Suffolk is no longer running live races, Raynham Park is authorized by those provisions to simulcast thoroughbred races only as follows: (1) prior to 6:00 p.m.: the entire racing cards from any two race tracks in California plus, before 4:00 p.m., six additional races from any race track; (2) after 6:00 p.m.: unlimited races; and (3) fifteen other special event races through the year at any time of day.

[1] Section 128C, Section 2 imposes analogous (but not identical) restrictions on Sterling Suffolk's ability to simulcast harness races and PPC's ability to simulcast thoroughbred races.

By virtue of the Legislature's express incorporation of these limits into the account wagering statute, as set forth above, Raynham Park and its ADW providers are accordingly authorized only to accept wagers on races falling within those parameters.

All Existing Racing Licensees are Authorized to Conduct Account Wagering

There is no statutory basis for the recent contention of Plainridge Park Casino ("PPC") that it is the only racing licensee authorized to conduct account wagering and engage ADW providers in the Commonwealth.

Sterling Suffolk conducts its wagering business, including account wagering through MGC-approved service providers, as a "running horse racing meeting licensee" under the statutes governing horse race wagering and simulcasting, including General Laws Chapters 128A and 128C and numerous and continuing special acts of the Legislature reinforcing these rights and privileges. See Addendum A.

Through 2014, Sterling Suffolk applied each year for a racing license, first to the State Racing Commission and then to the Gaming Commission, which was given the Racing Commission's function in the Expanded Gaming Act enacted in 2011. Since 2014, when the future of live horse racing at Suffolk Downs became tenuous because of the Commission's casino selection, the Legislature has established Sterling Suffolk's continuation as a racing licensee in a series of special acts. This legislative action, which was modeled on the treatment given to the former greyhound tracks after dog racing was banned in the Commonwealth, has allowed Sterling Suffolk to remain in business, accept wagers, and keep its employees working, even after it concluded live racing in 2019.

The Legislature continues the racing licenses of Sterling Suffolk and the former greyhound tracks at the same time that it extends the existing regime of general and special laws governing the racing and simulcasting industry. The current authorization was enacted in July 2023 and runs through December 15, 2025. See St. 2023, c. 26. Specifically as to Sterling Suffolk, Chapter 26 of the Acts of 2023 provides in pertinent part:

> *Notwithstanding section 2 of chapter 128A of the General Laws, sections 1, 2, 2A and 4 of chapter 128C of the General Laws and section 9 of said chapter 128C, as inserted by section 6 of chapter 173 of the acts of 2022, or any other general or special law to the contrary, the running race horse meeting licensee located in Suffolk county licensed to conduct live racing pursuant to said chapter 128A and simulcast wagering pursuant to said chapter 128C in calendar year 2023 shall remain licensed as a running horse racing meeting licensee and shall remain authorized to conduct simulcast wagering pursuant to said chapter 128C until December 15, 2025; provided, however, that the days between January 1, 2023 and December 31, 2025 shall be dark days pursuant to said chapter 128C and the*

> *licensee shall be precluded from conducting live racing during that period unless it applies for and is granted a supplemental live racing license pursuant to said chapter 128A[.]*

St. 2023, c. 26, § 23.

This legislative language authorizing the continuation of a racing meeting license for Sterling Suffolk was modeled on the legislative continuations of racing meeting licensee status for the former greyhound tracks—Raynham Park and Wonderland Greyhound Park—when live dog racing was banned in the Commonwealth effective as of January 1, 2010. See, e.g., St. 2009, c. 167, § 154; St. 2011, c. 194, § 92 (as subsequently extended). The current authorization for Raynham Park is found in an uncodified and as-amended section of Chapter 194 of the Acts of 2011 (the Expanded Gaming Act), which provides that "the greyhound meeting licensee located in Bristol county . . . licensed to conduct live racing pursuant to said chapter 128A and simulcast wagering pursuant to said chapter 128C in calendar year 2009, shall remain licensed as greyhound racing meeting licensees until December 15, 2025." St. 2011, c. 194, § 92 (as amended, most recently, by St. 2023, c. 26, § 19).

In advance of the Commission's meeting on July 1, 2025, and again at that meeting, PPC advanced, for the first time ever, the suggestion that Sterling Suffolk and Raynham Park are not authorized to conduct account wagering, even though they are "racing meeting licensees" per the express and repeated enactments of the Legislature, because Section 5C states that one must be "licensed to conduct a running horse, harness horse or dog racing meeting" to conduct account wagering. Somehow, in PPC's view, being a racing meeting licensee is different from being a licensee licensed to conduct a racing meeting.

The weakness of PPC's argument is belied by its novelty; they are raising it now for the first time, even though Sterling Suffolk has been conducting account wagering continuously since it concluded live racing in June 2019.[2] During that time, Sterling Suffolk has applied for and received annual approvals from the Commission for its ADW providers five times. In addition, Sterling Suffolk has come before the Commission five separate times since June 2019 seeking (and obtaining) approval of new ADW providers and/or platforms. Moreover, there is no indication in any of the numerous enactments that have continued the status of Sterling Suffolk and Raynham Park as racing meeting licensees that the Legislature intended to restrict them in anyway from the full rights and privileges of racing meeting licensees, aside from the facts that Raynham Park cannot conduct live dog races because of the statewide ban and Sterling Suffolk cannot conduct live races unless it seeks approval of specific dates from the Commission

[2] Moreover, SSR understands that Raynham Park has been continuously operating an account wagering business since 2010.

through a supplemental racing license application.[3] When amending a statute or enacting a new one, the Legislature is presumed to be aware of prior statutory language. Ropes & Gray, LLP, 454 Mass at 412-13.

The Legislature has made many refinements of the rights and obligations of racing licensees over the last 15 years, from allowing the greyhound tracks to simulcast without live racing, St. 2011, c. 194, § 92, to reducing and then eliminating the live racing requirement for Sterling Suffolk, St. 2012, Ch. 230, § 1; St. 2014, Ch. 311, § 1(b); St. 2015, Ch. 10, § 59; St. 2020, Ch. 1, § 17, to suspending Raynham Park's obligation to pay simulcasting premiums to Sterling Suffolk, St. 2015, Ch. 10, §§ 66-67, to banning wagering on out-of-state greyhound races, St. 2022, Ch. 128, § A1, to allowing racing licensees to relocate simulcasting operations within their home counties, St. 2023, Ch. 26, §§ 3-6. Moreover, when the Legislature has extended Sterling Suffolk's racing license since 2015, it has generally done so not by merely extending a date but rather enacting a substantive, detailed paragraph. While those eight enactments have been similar to each other, they have not been identical, as shown in the statutory excerpts collected in Appendix A attached hereto. The Legislature has had ample opportunity to revoke Sterling Suffolk's account wagering authorization, but it has never done so. In sum, the legislative history demonstrates that the Legislature is keenly aware of the nuances of the racing and simulcasting statutes and that, when it intends to alter rights and obligations in the industry, it does so expressly. It is beyond a doubt that if the Legislature intended to limit the account wagering privileges of any of the legacy racing meeting licensees. it would have explicitly done so.

Most importantly, and at least as to Sterling Suffolk, the plain language of the Legislature's frequent ratifying enactments demonstrates that when it says that "Sterling Suffolk shall remain licensed as a running horse racing meeting licensee" the Legislature means that Sterling Suffolk is "licensed to conduct a running horse . . . meeting" within the meaning of Section 5C. Look, for example, to the most recent racing and simulcasting extension statute, quoted above. When it was enacted it 2023, the Legislature identified Sterling Suffolk as "*the running race horse meeting licensee located in Suffolk county licensed to conduct live racing pursuant to said chapter 128A and simulcast wagering pursuant to said chapter 128C in calendar year 2023*." St. 2023, c. 26, § 23. At that time, Sterling Suffolk was licensed pursuant the prior racing and simulcasting extension, Chapter 128 of the Acts of 2022, which provided that Sterling Suffolk would "remain licensed as a running horse racing meeting licensee until July 31, 2023." Accordingly, in 2023, the Legislature recognized that when, in 2022, it declared that Sterling Suffolk "shall remain licensed as a running horse racing meeting licensee" for 2023, it meant that Sterling Suffolk was "licensed to conduct live racing" in 2023. If it were not so, then there would have been no "running race horse meeting licensee located in Suffolk County licensed to conduct live racing" in 2023, and Section 23 of Chapter 26 of the Acts of 2023 would

[3] A "supplemental live racing license" is term of art under Chapter 128A, Section 2. It is a filing available only to a racing licensee to whom "a license had theretofore been issued."

be a nullity. Such results are to be avoided when interpreting statutes. Morgan, 476 Mass. at 779.[4]

The NEHBPA Has Limited Consent Rights With Respect to Simulcasts in Massachusetts.

In a letter to the Commissioners dated June 27, 2025, prior the first MGC meeting at which the TwinSpires-Raynham Park agreement was discussed, the New England HBPA ("NEHBPA") stated that no simulcast licensee should be approved by the Commission unless it has NEHBPA consent to simulcast and that TwinSpires should not be approved as an account wagering provider for Raynham Park unless Raynham Park reaches an agreement with the NEHBPA. Your July 10 email asked for stakeholders' positions on the NEHBPA's assertion that a racing licensee needs its consent before it may simulcast. As explained below, state and federal law are clear that, except with respect to incoming simulcast signals from New York in months other than August, no Massachusetts racing licensee and no ADW company acting as a service provider for a racing licensee currently requires the consent of the NEHBPA in order to simulcast.

The NEHBPA letter does not identify the source of its claimed right to approve simulcasting in Massachusetts, but it has in the past invoked the Interstate Horse Racing Act of 1978, 15 U.S.C. §§ 3001 *et seq*. (the "IHA"). While the details are complicated, the effect can be summed up simply: The IHA gives horsemen a consent right on the out-going signal for their own races, but it provides them no rights with respect to incoming signals. More specifically, the IHA requires a race track hosting a live race to obtain the consent of its own horsemen (i.e., at the so-called "sending track") before it sends its signal on its own live races to out-of-state tracks and off-track betting systems for wagering, but it does not require that any consent be provided by the horsemen's groups at the tracks or other OTBs where the signals are received and the races are wagered upon. See 15 U.S.C. § 3004(a)(1)(A). Accordingly, the NEHBPA has no consent rights under the IHA or any other federal law with respect to simulcast or other wagers placed or accepted in Massachusetts on thoroughbred races (or races of any other class) that take place outside of the Commonwealth.

With respect to state law, all racing meeting licensees are authorized by Massachusetts statutes to simulcast races and to accept wagers on them, subject to the restrictions discussed in Section II, above. General Laws Chapter 128C, Section 2 provides as follows:

> *A racing meeting licensee, except a licensee operating within Berkshire county, shall have the right to simulcast live races, for wagering purposes or otherwise,*

[4] The 2023 extension act was not the first time the Legislature identified Sterling Suffolk as a licensee "licensed to conduct live racing" after it ceased live racing in June 2019. It did so in each of the five extensions following the cessation of racing. See St. 2019, c. 47, § 17; St. 2020, c. 1, § 17; St. 2020, c. 106, § 17; St. 2021, c. 27, § 17; St. 2022, c. 128, § 17 (excepted in Appendix A).

> *within the commonwealth except in Berkshire county and to and from pari-mutuel licensees or other licensed wagering facilities located outside the commonwealth. Such right may be exercised only on any calendar day on which the licensee conducts a racing performance, a dark day, or during a dark season. . . . The right to simulcast is subject to the following exceptions and conditions, and each racing meeting licensee shall obtain prior approval from the commission:--*

MGL c. 128C, § 2. The only consent right that the NEHBPA enjoys under Massachusetts law is set forth in the fifth paragraph of Ch. 128A, Sec. 2, which provides as follows:

> *All simulcasts shall comply with the provisions of the Interstate Horse Racing Act of 1978, 15 U.S.C. Sec. 3001 et seq. or other applicable federal law; provided, however, that all simulcasts from states which have racing associations that do not require approval in compliance with the Interstate Horse Racing Act of 1978, 15 U.S.C. Sec. 3004 (a) (1) (A), except simulcasts during the month of August, shall require the approval of the New England Horsemen's Benevolent and Protective Association prior to being simulcast to any racing meeting licensee within the commonwealth; provided further, that, if the association agrees to approve the simulcast for 1 racing meeting licensee, it shall approve the simulcast for all otherwise eligible racing meeting licensees.*

Id. It is generally understood that the category of "*states which have racing associations that do not require approval in compliance with the Interstate Horse Racing Act of 1978, 15 U.S.C. Sec. 3004 (a) (1) (A)*" applies only to the State of New York, where live races are conducted by the New York Racing Authority. The NEHBPA has given the consent required by this provision and Massachusetts racing licensees are able to simulcast NYRA's races.

Conclusion

In summary, Sterling Suffolk believes that Chapter 128A, Section 5C and Chapter 128C, Section 2 must be read together to determine the account wagering rights of a racing licensee and each of its ADW providers. The statutes should be read in harmony such that account wagering by either the racing licensee or the ADW provider is permitted only on races that the racing licensee would be authorized to simulcast under Chapter 128C, Section 2. In addition, the Commission should reject PPC's novel argument that it is the only racing licensee authorized to conduct account wagering in the Commonwealth or to engage ADW companies to provide that service. Finally, the Commission should reject any assertion by the NEHBPA that it has a consent right under state or federal statutes over the receipt of or wagering on simulcasts in Massachusetts other than with respect to simulcasts from New York during August.

Justin Stempeck, Esq.
Interim General Counsel
Massachusetts Gaming Commission
101 Federal Street, 12th Floor
Boston, MA 02110

Dear General Counsel Stempeck,

Kindly accept his letter on behalf of my clients - the Bristol County greyhound racing meeting licensees: Massasoit Greyhound Association, Inc., and Taunton Dog Track, Inc. This letter concerns my clients' June 16, 2025 requests for the Commission to approve Churchill Downs Technology Initiative Company ("CDTIC"), as their account wagering service provider under G.L. c. 128A, §5C, and the Commission's implementing regulations at 205 CMR 6.20. This letter also supplements my clients' prior written responses to your questions, dated June 17, 2025 and July 31, 2025.

Kindly note that this letter also responds to your two memoranda to the Commissioners, dated June 24, 2025 and August 7, 2025, both of which did not fully or accurately address the legal issues that my clients have raised.

Summation

My clients respectfully request that you supplement your memoranda to the Commissioners consistent with the law as discussed below. I am happy to have a discussion with you in order that I may answer any questions that you may have.

In summary, there is no public interest that is served by limiting the number of simulcast signals that my clients' patrons might enjoy, and to do so indirectly by refusing to approve CDTIC as my clients' account wagering service provider.

There is no lawful basis for the Commission to withhold its approval of CDTIC under 205 CMR 6.20, when the Commission has already approved CDTIC to be a service provider for the Suffolk County racing meeting licensee. There is no provision in 205 CMR 6.20 that authorizes the Commission to rescind or condition its prior approval

of CDTIC merely because CDTIC will become a service provider to my clients. It is axiomatic that the Commission may not impose account wagering conditions that are *inconsistent with, and absent from,* the plain language of its implementing regulations at 205 CMR 6.20. It is also improper for your memoranda to *conflate* the Commission's unambiguous account wagering regulations at 205 CMR 6.20, with an inaccurate and irrelevant interpretation of simulcast wagering law and regulation.

The effect of those errors of law has been to deny my clients' statutory right and obligation to conduct account wagering pursuant to their racing meeting licenses, and to do so without cause and without conducting an adjudicatory proceeding pursuant to G.L. chapter 30A. We are hopeful that you will properly supplement your memoranda to the Commissioners. Again, I would be happy to discuss the issues of law with you, at your earliest convenience.

I. Account Wagering.

Your memoranda incorrectly cites the first paragraph in G.L. c. 128A, §5C, as the provision that establishes my clients' ***statutory right*** and obligation to conduct account wagering. The first paragraph simply provides that my clients may establish betting accounts with specific patrons. My clients' statutory right to engage in account wagering is found in the second paragraph under G.L. c. 128A, §5C, that provides in relevant part:

> *"A person licensed . . . **shall** accept and maintain betting accounts directly, or through an agreement with an **authorized and licensed service provider**, . . ."*.[1] (Emphasis supplied.)

It is important to correctly reference the second paragraph because it establishes that my clients' right and obligation to engage in account wagering is a statutory right that is attendant to their racing meeting licenses, and is not a permissive authorization that must be obtained from the Commission.

G.L. c. 128A, §5C, first paragraph, explicitly defines "*account wagering*" to mean each patron's betting accounts:

> *"As used in this section, 'account wagering' shall mean a form of pari-mutuel wagering in which an individual may deposit money to an account established through an agreement with a person licensed to conduct a . . . racing meeting and use the account balance to make and pay for wagers by the holder of the account . . ."*

[1] My clients remain licensed as racing meeting licensees pursuant to section 92 of chapter 194 of the acts of 2011, as amended through to section 19 of chapter 26 of the acts of 2023.

The next relevant statutory provision is found in G.L. c. 128A, §5C, eighth paragraph, which expressly provides that the Commission's regulatory authority is limited to overseeing the system of betting accounts that are utilized by each racing meeting licensee and any service provider:

> *"Betting accounts authorized by this section shall be established, maintained and operated in accordance with the rules and regulations promulgated by the commission."*

In fact, the Commission has only issued account wagering regulations that apply to the mechanics of betting accounts for account wagering; *see* 205 CMR 6.20 - 6.28. The Commission's account wagering regulations at 205 CMR 6.20 are the only regulations that apply to my clients' pending requests. The only relevant regulatory sentence in section 6.20 is:

> *"The association* (i.e., racing meeting licensee) *shall annually request authorization from the commission before a* ***system of account wagering*** *is offered."* (Emphasis supplied.)

Consistent with the statutory scheme, the plain language of 205 CMR 6.20 means the Commission only authorizes and regulates the mechanics of the patrons' betting accounts that are utilized by my clients and their service provider. No new condition, consideration, or regulatory hurdle may be read into the existing language of 205 CMR 6.20. My clients' June 16, 2025, requests merely seek to recognize CDTIC as their service provider. There is absolutely no regulatory provision in 205 CMR 6.20 that allows the Commission to condition my clients' statutory right to conduct account wagering directly, or through CDTIC as an approved service provider, on any matter other than overseeing the mechanics of their betting accounts. Respectfully, your supplemental memorandum must recognize that, as a matter of law, the Commission is bound to remain within the guardrails created by the plain language in 205 CMR 6.20.

II. Simulcast Wagering.

The clear language in G.L. c. 128C, § 2(2), expresses that my clients had the statutory *"right to simulcast"* a minimum number of simulcast signals that the Commission must authorize, assuming all other statutory conditions were satisfied. Section 2(2) states in relevant part:

> *"The greyhound dog racing meeting licensee located in Bristol County shall have the* ***right to simulcast*** *. . .".*

Respectfully, your memoranda improperly inserted a misleading simulcast restriction discussion into the account wagering regulation at 205 CMR 6.20. Again, there is no provision in 205 CMR 6.20 that

allows the Commission to conflate the approval of CDTIC, as a service provider for account wagering, with any simulcast issue that is regulated under 205 CMR 7.00.

All racing meeting licensees originally obtained the statutory right to engage in simulcast wagering pursuant to G.L. c. 128C, §2[2], and the Commission's implementing regulations at 205 CMR 7.00. The statutory right to simulcast under chapter 128C, is clearly a distinct statutory right that is separate and apart from the statutory right and obligation to engage in account wagering under chapter 128A. For that reason, the Commission's simulcast regulations at 205 CMR 7.00, may not be conflated with its account wagering regulations at 205 CMR 6.20 - 6.28. Your supplemental memorandum must be consistent with the Commission's separate and distinct regulatory schemes for simulcast wagering and account wagering.

(i) A Statutory Right Is Not A Restriction.

It is legally inaccurate to continually reference my clients' statutory right (to engage in simulcast wagering) as a "restriction" that applies to my client. It is foundational to American jurisprudence that every constitutional and statutory right is a *restriction only on government action that impedes on the exercise of the right*. I am unaware of any legal definition, or common law or caselaw holding, where a statutory right is construed against the private party that is to benefit from that right.

As discussed below, there is no law or implementing regulation that currently restricts the Commission from granting unlimited simulcast signals to every racing meeting licensee. In point of fact, no public interest would be served by limiting the number of simulcast signals that simulcast wagering patrons should enjoy.

We have provided the legislative history behind G.L. c. 128C, §2, which was originally enacted in 1992. The 1992 form of that statute did limit the maximum number of simulcast signals that the [former Racing] Commission could approve. Beginning in 1992, the Commission was empowered to grant "up to" a maximum number of race cards for live racing and simulcast signals. The Commission's 1992 authority to approve "up to" a statutory limit caused some of the racing meeting licensees to seek an unfair competitive advantage by petitioning to limit the number of live race cards and simulcast wagering at competing race tracks.[3] In 2001, after the Legislature had conducted a study that was designed to improve live racing purses,

[2] As superseded by section 92, of chapter 194, of the acts of 2011.

[3] The same motivation to unjustly suppress competition, which is patently harmful to the public interest, recently resurfaced in response to the request to approve CDTIC. It was particularly disingenuous for the Plainridge harness horse racing representative to claim that it still competes for live racing patrons when it is the only location for live racing in the Commonwealth.

the Legislature amended G.L. c. 128C, §2, by granting each racing meeting licensee the statutory right to a minimum number of simulcast signals. *See* section 17, of chapter 139, of the Acts of 2001. When the Legislature replaced the "up to" provisions with a minimum statutory right, the Commission was no longer handicapped with respect to the maximum number of simulcast signals that it could approve. *See* below discussion concerning G.L. c. 128C, §8.

As you know, live greyhound racing was banned as of January 1, 2010. *See* chapter 388 of the acts of 2008. That legislation ended the live racing competition that had existed between Wonderland and Suffolk Downs, and that had been instrumental in shaping prior legislation.

(ii) G.L. c. 128C, §2, Has Been Superseded By Subsequent Legislation.

Your supplemental memorandum to the Commissioners must recognize that the Legislature superseded G.L. c. 128C, §2, by enacting section 92, of chapter 194, of the acts of 2011. Specifically, the Legislature did so with the knowledge that live racing competition had ended when live greyhound racing was banned in 2010. The 2011 enactment expressly provided:

> "*Notwithstanding section 2 of chapter 128A of the General Laws and* ***sections 1, 2 and 2A of chapter 128C*** *of the General Laws* ***or any other general or special law, rule or regulation to the contrary,*** *the greyhound meeting licensee located in Bristol county and the greyhound meeting licensee located in Suffolk county licensed to conduct live racing pursuant to said chapter 128A and simulcast wagering pursuant to said chapter 128C in calendar year 2009,* ***shall remain licensed as greyhound racing meeting licensees*** *until July 31, 2014;* ***provided, however, that the days between January 1 and December 31 of each year shall be dark days pursuant to said chapter 128C*** *and the licensees shall continue to be precluded from conducting live racing during that period and as provided in chapter 388 of the acts of 2008; provided further, that all simulcasts shall comply with the Interstate Horse Racing Act of 1978, 15 U.S.C. Sec. 3001 et seq. or other applicable federal law; provided further, that all simulcasts from states which have racing associations that do not require approval in compliance with the Interstate Horse Racing Act of 1978, 15 U.S.C. Sec. 3004 (a) (1) (A), except simulcasts during the month of August, shall require the approval of the New England Horsemen's Benevolent & Protective Association prior to being simulcast to a racing meeting licensee within the commonwealth; and provided further, that if the association agrees to approve the simulcast for 1 racing meeting licensee, it shall approve the simulcast for all otherwise eligible racing meeting licensees."* (Emphasis supplied.)

The Legislature purposefully enacted the above with the knowledge that the intra-race track competition had ended when live greyhound racing ended, and thus, the Legislature decided to grant my clients the statutory right to continuously simulcast from January to December, subject only, to compliance with the Interstate Horse Racing Act of 1978 and obtaining the approval of the New England Horsemen's Benevolent & Protective Association ("NEHBPA"). When enacting Section 92, of chapter 194, of the acts of 2011, the Legislature did not limit my clients amended statutory right to simulcast year-round on any maximum number of simulcast signals. Obviously, after live greyhound racing was banned, the Legislature did not insert a maximum simulcast limitation in any new legislation when it knew the only live racing tracks that still competed for live racing patrons were many miles apart in East Boston and Plainville.

(iii) The Commission Has Full Power To Promulgate Regulations For Simulcast Wagering, Which It Has Done.

In 2001, the Legislature had removed the 1992 statutory "up to" limitation on the Commission's authority to approve unlimited simulcast signals for all licensees (*see* section 17, of chapter 139, of the Acts of 2001), and later, the Legislature enacted section 92, of chapter 194, of the acts of 2011, without inserting therein any restriction on the Commission's authority to approve unlimited simulcast signals. What remains today is the Commission's plenary authority to approve unlimited simulcast schedules pursuant to G.L. c. 128C, §8, and the Commission's simulcast regulations at 205 CMR 7.02(1).

G.L. c. 128C, §8, provides the Commission with *full power* to promulgate simulcast regulations *under which simulcasts and simulcast wagers shall be conducted*:

> *"The commission shall have **full power** to promulgate rules, regulations, and conditions under which all running horse, harness horse, or greyhound racing simulcasts and simulcast wagers shall be conducted in the commonwealth."* (Emphasis supplied.)

The Commission's relevant simulcast regulations are at 205 CMR 7.02(1), where the Commission approves each racing meeting licensee's scheduled simulcast performances. No provision in 205 CMR 7.02(1) limits a racing meeting licensee's schedule of simulcast performances to any maximum number of signals. 205 CMR 7.02(1) provides in relevant part:

> *"All simulcast participants within the Commonwealth shall notify the Commission in writing on a form prescribed by the Commission*

*of **all scheduled simulcast performances** . . .".* (Emphasis Supplied.)

(iv) The Commission Approved My Clients' Simulcast Schedule For Calendar Year 2025 Consistent With Section 92, Of Chapter 194, Of The Acts Of 2011, And 205 CMR 7.02(1).

Last December, my clients each provided the Commission with three written pages of scheduled simulcast performances. Those simulcast performances were subsequently approved, without any condition other than obtaining the approval of the NEHBPA as required by section 92, of chapter 194, of the acts of 2011. The Commission's approval letters are attached hereto as Exhibit A. My clients have had NEHBPA's approval, and the NEHBPA's (July 31, 2025) email also approved CDTIC to be my clients' service provider for account wagering.

Conclusion

The Commission currently has the authority to grant unlimited simulcast signals to all racing meeting licensees. The public interest is only served when simulcast patrons are able to enjoy the maximum schedule of simulcast wagering that is available. Respectfully, it is not the Commission's charge to tip the competitive scale in favor of any particular racing meeting licensee.

The Commission must act consistent with its implementing regulations, as written.

The Commission's implementing regulations do not provide a lawful basis for it to withhold approval of CDTIC under 205 CMR 6.20, especially when the Commission has approved CDTIC to be an account wagering service provider for the Suffolk County racing meeting licensee.

I remain available to discuss these issues with you, at your earliest convenience.

Sincerely,

Michael P. Morizio

Alex & Justin,

Attached are the Plainridge Simulcast Schedules for 2022 thru August of 2023. I'm sending these to illustrate how Plainridge has been compliant with the simulcasting restrictions on Plainridge regarding Greyhound signals. Our daily simulcast menus show no more than 5 Greyhound tracks being offered on any given day. Greyhound simulcasting was outlawed in Massachusetts as of August 1, 2023, and therefore no Greyhound offerings are listed in the August 2023 schedule or any subsequent offerings to date. Since Suffolk has not raced live, we have not been under any restrictions for Thoroughbred signals since 2019.

The program used to create the schedules is in use industry wide and it is the same program that Raynham uses. All tracks are loaded into the program, and the simulcast director creates the daily schedules by choosing the tracks from a dropdown menu. Thoroughbred tracks list just the tracks name, Harness tracks have an (H) after the tracks name, Greyhound signals are italicized with a (G) after the tracks name. It is very easy to create the daily offerings following the restrictions with this program.

Thank you for the clarification.

One of the most significant implications is that none of the service providers will participate in account wagering if the Commission does not embrace its full authority and not restrict the number of simulcast signals that any licensee may offer to its patrons. Also, restrictions would be devastating to Raynham's daily operation, and all but destroy it. Conversations with Twin Spires/Churchill Downs were clear. They have no intention of entering into any agreement, with any licensee, that would impose such limits, conditions, and/or restrictions on their services.

Simulcast patrons want the maximum number of simulcast signals. It cannot be overstated that the public interest is not served by restricting the number of simulcast signals. If the Commission decides to restrict Raynham's simulcast business it will certainly drive patrons away from simulcast wagering.

Lastly, the idea that the Commission might reduce the number of simulcast signals encourages the old intra-track turf wars, which happened at the last meeting. The anti-competitive posture of some licensees is unquestionably harmful to the public interest.

Please let me know if you would like to discuss these matters directly.

Best,

Mike Morizio

Mr. Morizio,

I understand your legal arguments and will be responding to same shortly.

Meanwhile, as stated in the email on 8/18/25 from Racing Director Lightbown to Ms. Rodrigues, and several times during the public meeting on 8/14/25 (https://youtube.com/live/8fms9AUaRno?feature=share) the Commission has requested that Raynham provide any additional information related to what the practical implications and timeline that would be needed for Raynham to apply the 128C simulcast limits to both the simulcast and ADW products.

Should you have any information of that sort, please forward it to me by 8/28/25 to also be considered by the Commission prior to the September 4th meeting. If you are unable or unwilling to provide the information, please advise.

Thank you

Subject: Raynham ADW Request

Dear Sue,

At the August 14th MGC Public Meeting that discussed Raynham Park's request for Churchill platforms Twin Spires and DK Horse approval as ADW vendors, the Commissioners requested staff gather more information. They would like to know what the practical implications and timeline that would be needed for Raynham to comply with the limits in MGL 128C. Please email this information to Justin Stempeck and me. The next MGC meeting is September 4th. We'd like to bring the approval item back for the Commissioners at that meeting. If you have any questions, please let Justin and I know.

Dr. Lightbown,

In light of the legislative ban on wagering in Massachusetts on greyhound races, the only Chapter 128C simulcasting restriction on Sterling Suffolk Racecourse, LLC ("Sterling Suffolk") and its ADW providers relates to harness races. Ch. 128C, Sec. 2, provides that Sterling Suffolk may simulcast " on any day during the calendar year, unlimited harness horse racing, except during live racing performances of the harness horse racing licensee located in Norfolk county." Ch. 128C, Sec. 2, para. 1, cl. (5)(b). This means that Sterling Suffolk may not simulcast or accept simulcast wagers on harness races that take place while Plainridge Park is conducting its live races. Through the ADW statute's incorporation of authorizations under Chapter 128C, Sterling Suffolk's ADW providers are subject to same wagering restriction. The practical implication of that restriction is that neither SSR nor its ADW providers would be able to accept wagers on harness races taking place during a period of approximately 5 hours on each of the days that Plainridge Park holds live races. For reference, in 2025, they are scheduled to host 110 days of live racing.

With respect to Sterling Suffolk's own operations on-site at the Suffolk Downs location, the restriction would be implemented through the tote system and could be achieved quickly. This would apply to wagers placed either at the counter or through the self-service terminals. Sterling Suffolk notes that Plainridge Park publishes its annual live racing schedule, including the start times for the first race each day, so identifying the black-out period should be a straightforward matter, although there would need to be some mechanism in place for Plainridge Park to alert Sterling Suffolk in the event it deviates from the published schedule.

We have received feedback from two of our ADW providers so far, each of whom has indicated that implementing the restriction would be relatively straightforward and could be achieved by turning off wagers on harness races for all of each day on which Plainridge Park races live or for a period of time, set in advance, on each of those days, commencing at the scheduled start time. We are hopeful of receiving feedback from additional providers at the beginning of next week and will let you know before Thursday's meeting if we have anything more to report.

Our present understanding is that the restrictions could be implemented by SSR and its ADW service providers promptly and that a month's lead time would be adequate.

Please let me know if you have any questions,

Bruce

Subject: ADW restrictions

Hi Bruce,

At the August 14th MGC Public Meeting that discussed Raynham Park's request for Churchill platforms Twin Spires and DK Horse approval as ADW vendors, the Commissioners requested staff gather more information. They would like to know what the practical implications and timeline that would be needed for each track to comply with the limits in MGL 128C. Please email this information regarding Suffolk Downs to Justin Stempeck and me. The next MGC meeting is September 4th. We'd like to bring the approval item back for the Commissioners at that meeting. If you have any questions, please let Justin and I know.

The link to the August 14th meeting is: MGC Open Meeting – August 14, 2025 - Massachusetts Gaming Commission.

Thank you,

Alex

Re: Account Wagering and Simulcast Rights for Massasoit Greyhound Association, Inc.

Dear Mr. Morizio:

I write on behalf of my client Justin Stempeck, Interim General Counsel of the Massachusetts Gaming Commission (the "Commission"), to respond to your letter on behalf of the Massasoit Greyhound Association, Inc. ("Raynham Park") to him dated August 25, 2025. In that letter, you describe Mr. Stempeck's memorandums to the Commission on the topic of Advance Deposit or Account Wagering (also known as "ADW") as "improper," "inaccurate" and "irrelevant," among other pejoratives. You also allege that your clients have been denied their "statutory right and obligation to conduct account wagering pursuant to their racing meeting licenses . . . without cause and without conducting an adjudicatory proceeding pursuant to G.L. chapter 30A."

As set forth below, none of these allegations are accurate, nor are they helpful to your clients' attempt to obtain the necessary Commission approval to work with CDTIC to provide ADW services at Raynham Park.

I. ACCOUNT WAGERING

You assert that the second paragraph of G.L. c. 128A, § 5C *obligates* your client to provide account wagering, while the first paragraph merely allows it. It does no such thing, and such a statutory framework (allowing it in first paragraph, then requiring it in the second paragraph) would make no sense.

Both the first and second paragraphs of G.L. c. 128A, § 5C (emphasis added) are reprinted here in order to view them in full context:

> ***Section 5C.*** *Notwithstanding section 17A of chapter 271,* ***each person licensed to conduct a running horse****, harness horse or dog racing meeting, not including racing meetings held or conducted at a state or county fair,* ***may establish and maintain betting accounts with***

> ***individuals for use in connection with account wagering on races offered by the licensee, as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C****, including those fees, payments, commissions and premiums. As used in this section, "account wagering" shall mean a form of pari-mutuel wagering in which an individual may deposit money to an account established through an agreement with a person licensed to conduct a running horse, harness horse or dog racing meeting and use the account balance to make and pay for wagers by the holder of the account which wagers may be made in person, by direct telephone call or by communication through other electronic media by the holder of the account to the licensee. An individual who has established a betting account with a racing meeting licensee may deposit money into said account through the use of a credit card or debit card issued by a federal or state-chartered bank and a racing meeting licensee may collect and deposit money received in such a manner at the licensee's racetrack or through the telephone, Internet or other telecommunications media. Only those persons who have established a betting account with a person licensed to conduct a running horse, harness horse or dog racing meeting in accordance with this section shall place bets by telephone or by communication through other electronic media with such licensee. No credit shall be extended to a betting account by a running horse, harness horse or dog racing meeting licensee.*
>
> ***A person licensed to conduct a running horse****, harness horse or dog racing meeting, not including racing meetings held or conducted at a state or county fair,* ***shall accept and maintain betting accounts directly, or through an agreement with an authorized and licensed service provider, in the name of a natural person only.*** *The licensee may refuse to establish or maintain a betting account and may refuse deposits to any such account if the licensee deems such refusal appropriate; provided, however, that such licensee shall not establish or maintain a betting account for any person who has been banned or prohibited from entering the premises of a racing meeting licensee in the commonwealth pursuant to section 10A. The licensee may suspend or close any account at any time; provided, however, that the licensee shall return to the account holder any funds that are on deposit in the account at the time it is closed.*

It is clear that the first paragraph sets out the licensees' right to establish ADW accounts – licensees "may establish and maintain betting accounts". The second paragraph goes on to describes limits to that right – any licensee that has such accounts "shall accept and maintain [them] in the name of a natural person only." This just means, **if** the licensee engages in ADW, it must (i.e., "shall") be done in the name of a natural person.

Your letter seems to suggest that the language referencing a "service provider" in G.L. c. 128A§ 5C somehow gives your client the right to work with any service provider without any needed authorization from the Commission. Again, this is belied by the clear terms of the statute. The first sentence of the second paragraph requires that ADW accounts by maintained by licensees "directly" or by "an authorized and licensed service provider". It is the Commission who authorizes such service providers. Your clients' application for approval to the Commission concedes this point; authorization of CDTIC is the issue currently pending in front of the Commission.

Lastly, your letter asserts that the Commission's authority over account wagering is somehow limited to its regulations covering "betting accounts" promulgated in 205 CMR 6.20-6.28, and

that the Commission's annual approval of such wagering is limited to "the mechanics of the patrons' betting accounts". This is a gross under-exaggeration of the Commission's authority. It is black letter law that the Commission (and any agency for that matter) draws its authority first and foremost from its statutory enabling legislation. *Entergy Nuclear Generation Co. v. Dep't of Env't Prot.*, 459 Mass. 319, 331 (2011). Regulations are implementations of statutory power; they do not and cannot limit an agency's authority that is set forth in the statute. This means that, although the Commission has issued narrow regulations on the mechanics of account wagering, those Regulations do not otherwise limit the scope of the Commission's authority to regulate account wagering.

The statute (G.L. c. 128A, in the language set forth above) provides that the Commission must "authorize" any service providers working with its licensees to provide ADW services. It is well within the Commission's authority to consider potential conditions on that authorization, if it sees fit to do so.

II. SIMULCAST WAGERING

Next, your letter attacks Mr. Stempeck's reading of the applicable laws (G.L. c. 128A and c.128C) and Regulations that the Commission may limit or restrict Raynham Park's simulcasting operations. You take the position that the Commission has no right to limit the number of simulcasting signals because "there is no law or implementing regulations that currently restricts the Commission from granting unlimited simulcast signals to every racing meeting licensee." Letter at 4. There are two problems with this logic – first, it is wrong on the facts (there is such a law); and second, even if there was no such law restricting the Commission from granting an unlimited simulcasting (which there is), that absence would not mean the Commission was prevented from placing such limits or conditions on a right granted under its statutory authority. Doing so is well within its discretion.

As you recognize in your letter, Raynham Park's right to simulcast is derived from G.L. c. 128C, § 2. That section states (emphasis added):

> ***Section 2. A racing meeting licensee****, except a licensee operating within Berkshire county,* ***shall have the right to simulcast live races, for wagering purposes or otherwise, within the commonwealth*** *except in Berkshire county and to and from pari-mutuel licensees or other licensed wagering facilities located outside the commonwealth.* ***Such right may be exercised only on any calendar day on which the licensee conducts a racing performance, a dark day, or during a dark season.*** *Any violation of this chapter shall be cause for the commission to suspend or revoke a license pursuant to section 11 of chapter 128A.* ***The right to simulcast is subject to the following exceptions and conditions****, and each racing meeting licensee shall obtain prior approval from the commission:--*

According to this section, racing meeting licensees have the right to simulcast, but only on certain days (during live racing, a dark day or dark season) and subject to a list of conditions. This is a law that limits the Commission's ability to grant authorization for simulcasting. Where

the statute sets for clearly stated "conditions" on racing meeting licensees' ability to simulcast, the Commission is without power to alter those conditions.

Section 2 then goes on to list simulcasting limits on each of the racing meeting licensees. The sections applicable to Raynham Park are in clauses (2) and (3). It limits Raynham Park's ability to simulcast to the following: "(a) unlimited greyhound dog racing," "(b) . . . unlimited running horse racing from and after 6:00 p.m., plus the entire racing cards from any 2 running horse racing meetings in the state of California" . . . "and 6 interstate running horse simulcasts prior to 4:00 p.m. on any day the Suffolk county running horse racing meeting licensee does not conduct live races" and "(c) a total of 4 harness horse racing performances on any day of the calendar year." G.L. c. 128C, § 2, cl. 2. In addition, Raynham Park may also simulcast "15 running horse special events". G.L. c. 128C, § 2, cl. 3.

You ignore these simulcasting restrictions in your August 25th letter. You avoid this language by arguing that "the Legislature superseded G.L. c. 128C, § 2, by enacting section 92, of chapter 194, of the acts of 2011." But the language of Section 92, as quoted in your letter, states only "notwithstanding" Section 2, greyhound meeting licensees remain licensed and that each day of the year is considered a "dark day." This was a necessary in the wake of eliminating live greyhound racing. Originally, greyhound tracks had to race a certain number of days in order to simulcast. When live racing was eliminated, the Legislature had to make sure the greyhound tracks remained licensed to provide simulcasting. Where the statute limited simulcasting to "racing performances" or dark days, the Legislature made all days "dark days." Without the proviso "notwithstanding" in Section 92, the language of G.L. c. 128C, § 2 would have practically prohibited all simulcasting. Thus, the reference to "notwithstanding" in Section 92 *supplemented* G.L. c. 128C, § 2, rather than superseded it.

The conclusion that the Gaming Act did not supersede G.L. c. 128C, § 2 is explicitly confirmed by the fact that G.L. c. 23K (the Gaming Act) requires the Commission to "administer and enforce chapters 128A and 128C." G.L. c. 23K, §7. No where is there language that states G.L. c. 128C, § 2 is superseded, null, void or not in effect.

III. CONCLUSION

For the reasons stated above, Mr. Stempeck will not be supplementing his Memo to the Commission as your letter demands. Mr. Stempeck, and the whole legal team, understand that there are separate and distinct statutes and regulations that govern account wagering and simulcasting. You and your client must understand, however, that the statutory language authorizing your client's right to offer ADW for simulcasts is modified by the phrase – "***as the licensee is otherwise authorized to accept in accordance with this chapter and chapter 128C***." G.L. c. 128C, § 5C. This means account wagering is allowed for simulcasts, only to the extent that the licensees are lawfully simulcasting pursuant to G.L. c. 128C. The Commission will be considering what this language requires, and you have made your client's position known.

Best regards,

Nina Pickering-Cook
