**The Massachusetts Gaming Commission Enhances Community Outreach
via Speakers Bureau and Participation in Statewide Speaking Engagements**

*Effort Aimed at Increasing Public Awareness of MGC's Commitment
To Bring Responsible Expanded Gaming to the Commonwealth*

Today the Massachusetts Gaming Commission (MGC) announces the progress of an ongoing community outreach strategy designed to educate the public and provide communities with ongoing opportunity to participate in the process of regulating expanded gaming across the Commonwealth. Through the establishment of MGC's Speakers Bureau, the Commission is participating in numerous statewide speaking engagements to keep the public informed of the schedule and process, increase community awareness of the roles and responsibilities of the Commission, encourage community involvement and solicit valuable feedback to facilitate an all-inclusive, decision-making process. MGC will continue to announce new programs focused on community engagement as the introduction of expanded gaming progresses.

MGC Chairman Steve Crosby said, "It is incumbent upon the Commission to ensure that the public is well-informed on a number of critical issues associated with expanded gaming including but not limited to the licensing process, increased economic opportunities, community mitigation issues, problem gambling and the overall mission of MGC. We encourage organizations to continue to take full advantage of MGC's Speakers Bureau and other opportunities provided to share ideas, provide input and ultimately influence outcomes directly relevant to MGC's work."

As the Commission strives to ensure that its decision-making and regulatory systems engender the confidence of the public and participants, the MGC Speakers Bureau provides an important face-to-face opportunity to communicate directly and facilitate a dialogue with MGC's vast constituency. The Speakers Bureau provides MGC with an opportunity to communicate its roles and responsibilities as well as the Commission's dedication to reducing to the maximum extent possible the potentially unintended consequences of expanded gaming. In order to create the most efficient process, it is suggested that requestors have a minimum audience of **30 attendees** and make the request **30 days in advance**. To facilitate a Speakers Bureau request, the speaker request form is easily accessible on MGC's [website](#).

Below is a list of scheduled speaking engagements:

About MGC

The mission of the Massachusetts Gaming Commission is to create a fair, transparent, and participatory process for implementing the expanded gaming law passed by the Legislature and signed by the Governor in November, 2011. In creating that process, the Commission will strive to ensure that its decision-making and regulatory systems engender the confidence of the public and participants, and that they provide the greatest possible economic development benefits and revenues to the people of the Commonwealth, reduce to the maximum extent possible the potentially negative or unintended consequences of the new legislation, and allow an appropriate return on investment for gaming providers that assures the operation of casino-resorts of the highest quality. For more information on MGC, please visit www.mass.gov/gaming or connect and share on Twitter (@MassGamingComm) or Facebook (www.facebook.com/MAGamingComm).
