The Massachusetts Gaming Commission Releases Scoping Survey for Sports Wagering Applicants

Form due to the MGC by October 17, 2022

The Massachusetts Gaming Commission (MGC) today released a [Scoping Survey](#) for companies intending to apply for a Category 1, Category 2, or Category 3 sports wagering operator license or to be vendors to those potential licensees.

In August, the MGC released a notice of intent following a sports wagering bill being signed into law to begin to understand the landscape of interest of potential sports wagering operators. Since that time, the MGC has held a number of public meetings on the issue of sports wagering and heard from many potential sports wagering operators.

Ahead of an application and associated \$200,000 application fee being due, the MGC is requiring companies applying for a sports wagering operator license and vendors to submit a [Scoping Survey](#). This survey seeks specific company information and will provide the MGC with valuable information ahead of full applications being due.

The Scoping Survey is a required as part of a sports wagering application. The document can be accessed by visiting MassGaming.com and is due back to the MGC by 5pm on October 17th.
