APPENDIX I – PUBLIC SAFETY GRANT APPLICATION

BD-22-1068-1068C-1068L-68403

Please complete each section of this Application

1. PROJECT INFORMATION

a) NAME OF MUNICIPALITY/GOVERNMENT ENTITY/DISTRICT AND VENDOR CODE

City of Everett Fire Department

VENDOR CODE:

b) PROJECT NAME (LIMIT 10 WORDS)

Municipal Ambulance Service

c) BRIEF PROJECT DESCRIPTION (LIMIT 50 WORDS)

The City of Everett Fire Department seeks funding through a Public Safety Grant for an ambulance as a result of the increased service calls in response to the Encore's operations.

d) CONTACT PERSON(S)/TITLE (Persons with responsibility for this grant)

Scott A. Dalrymple, Chief

e) PHONE # AND EMAIL ADDRESS OF CONTACT PERSON(S)

617-394-2348 | Scott.dalrymple@cityofeverett.org

f) MAILING ADDRESS OF CONTACT PERSON(S)

384 Broadway, Everett, MA 02149

2. IMPACT DESCRIPTION/CONNECTION TO GAMING FACILITY

a) Please describe in detail the impact that is attributed to the operation of a gaming facility.

The direct impact of this gaming facility is an increase in total call volume for our Department. Since construction began, there has been approximately 1500 calls for service at the facility alone. This is an enormous increase from prior to Encore's operations. A great majority of the increased calls for service have been medical aid calls which have also had an impact on our contract ambulance provider, affecting service. The Everett Fire Department is in the process of placing its own ambulance into service. We believe, and the casino business grows, so will the number of medical calls. Even if they remain the same, we are anticipating a response to this facility a minimum of two times a day on average. The indirect impact still leads to an increase in calls and to the area surrounding the facility. The number of calls for service in the area surrounding the facility have also seen a dramatic increase due to new pedestrian traffic in the area. Motor vehicle collisions have become much more prevalent and so have pedestrians struck by motor vehicles.

b) Please provide documentation, specificity or evidence that gives support for the determination that the operation of the gaming facility caused or is causing the impact (i.e. surveys, data, reports)

****Documentation is attached pertaining to call for service in the facility alone.****

c) How do you anticipate your proposed remedy will address the identified impact?

We anticipate our proposal will address the identified impact directly by allowing us to place into service a properly equipped and staffed ambulance. This will allow us to better serve the new and growing needs of our community, specifically the growing area around the gaming facility and the facility itself. We, as a Department, have a strong relationship with this facility and staff due to frequent calls. The fact that the fire department understands the facility will allow the EFD to offer quicker response time and a higher level of care to our community.

d) Please provide information demonstrating that the requested funds are supplementing and not supplanting historic operations funding.

OEMS requires that we have a back-up ambulance in place prior to putting any new ambulance in service. The City has an agreement in place with Cataldo Ambulance to supply us with that back-up while the EFD responds, and to allow transport. This all comes as a cost, which has increased, making sense that the primary responder be one that will respond more efficiently and effectively. This ambulance will supplement the current process while responding to the greater need. It will also allow for a much needed expansion of services to what is already in place, due to the greater need due to the increase in calls.

3. PROPOSED USE OF PUBLIC SAFETY MITIGATION FUNDS. (Please attach additional sheets/supplemental materials if necessary.)

a) Please identify the amount of funding requested. In determining the funding request, please round up to the nearest hundred dollars.

\$250,000 – please see waiver

b) Please identify below the manner in which the funds are proposed to be used. Please provide detailed scope, budget and timetable for the use of funds.

****please see attached quote** We will be implementing this post haste upon receiving this grant.**

c) Please provide documentation (e.g. - invoices, proposals, estimates, etc.) adequate for the Commission to ensure that the funds will be used for the cost of mitigating the impact from the operation of a gaming establishment.

****please see attached runs exclusively for the facility****

d) Please describe how the mitigation request will address the impact indicated.

This will allow us to better serve our community and the patrons of the facility by allowing us to offer better response times, a familiarity of the property and we will be able to control the standard of care the patrons will receive.

e) How will you provide the data for reporting? How will you measure the effectiveness of the proposed project in mitigating impacts?

We will be able to monitor the calls for service at this facility via our operating system. We can measure the effectiveness by obtaining the amount of calls for service and the time it takes our ambulance unit to respond and compare them to previous years where we used the private ambulance company. We also have monthly meetings with the facility security and operations teams so we will be able to gauge their satisfaction with our service.

4. RELEVANT EXCERPTS FROM HOST OR SURROUNDING COMMUNITY AGREEMENTS

a) Please describe and include excerpts from any relevant sections of any Host or Surrounding Community Agreement.

N/A

b) Please explain how this impact was either anticipated or not anticipated in that Agreement.

The HCA was executed in 2013, and the City could not anticipate what the impact of the around-the-clock nature of the business with the longer alcohol service and vigorous attendance would eventually be. The volume of calls continues to be high and growing with the business, and specific to the operation. As such, it is reasonable that the extra resources may be needed, affecting the regular course of business unanticipated ways. With the increase and evolution of the services provided, so should the response continue to evolve due to the casino operations.

5. INTERNAL CONTROLS/ADMINISTRATION OF FUNDS

a) Please provide detail regarding the controls that will be used to ensure that funds will only be used to address the impact.

All funds will go towards the apparatus.

b) Will any non-governmental entity receive funds? If so, please describe. If non-governmental entities will receive any funds, please describe what reporting will be required and how the applicant will remedy any misuse of funds.

N/A

6. CERTIFICATION BY MUNICIPALITY/GOVERNMENTAL ENTITY

On behalf of the aforementioned municipality/governmental entity I hereby certify that the funds that are requested in this application will be used solely for the purposes articulated in this Application.

Date: 1/27/22

Signature of Responsible Municipal Official/Governmental Entity

Scott Dalrymple

(print name)

Chief

**22****COMMUNITY
MITIGATION
FUND****APPENDIX I*****Public Safety Impact Grant Application – Waiver Request*****BD-22-1068-1068C-1068L-68403**

The City of Everett respectfully requests a waiver of the \$200,000 limit on public safety operational grants for 2022. The City has submitted multiple grant requests to fund for specific impacts and public safety impacts directly related to the operation of Everett Boston Harbor (“EBH”). The Public Safety request exceeds \$200,000. This is the first year of the Public Safety Grant, and it just so happens that Everett’s specific grant request for public safety are above the originally set limits for one single piece of apparatus. The City submits that, as the host community of the largest gaming facility in the state, its request for a waiver of the public safety operational cost limit is reasonable, as seen in the application for Public Safety Grant Funds.

The requested waiver would allow the City to receive the ambulance it feels is justified in its Public Safety Application (Filed simultaneously). One attachment is the cost of the apparatus, and ambulance, which is rounded to \$250,000.00.

Accordingly, the total of Everett’s public safety grant requests is \$250,000.00. This is the only public safety grant the City is submitting for 2022. As indicated above, and as described more fully in the separate grant application filed by the Fire Department, the public safety request is for funding to address public safety impacts clearly and directly related to EBH. The City submits that the need to provide an ambulance for use is an impact unique to Everett as the host community. Moreover, the City submits that this request could be viewed as a unique capital expense that is outside of the \$200,000 limit on public safety “operational” costs.
