III. Detailed Project Description & Mitigation

1) Please describe in detail the impact that is attributed to the operation of a gaming facility. Please provide documentation or evidence that gives support for the determination that the operation of the gaming facility caused or is causing the impact (i.e. surveys, data, reports).

As a City that not only borders the City of Everett but also provides major arteries that connect all vehicle traffic from the North Shore to Everett, Revere is in a geographic position that is impacted by vehicle traffic traveling both to and from the Everett casino. The parkways and streets within the City of Revere also connect Logan Airport to the casino via Lee Burbank Highway and Revere Beach Parkway. An increase in traffic impacts public safety and police resources by increasing things such as traffic accidents, hit and runs and other motor vehicle infractions. We have reportedly had numerous OUI arrests where the defendant admitted to coming from the Encore Casino. Revere is home to several hotels where people staying at these hotels also patronize the Casino which is located less than five miles away. We have also seen the effect of the casino during prostitution and human trafficking investigations particularly involving the hotels located in Revere. Revere Police has also investigated a child sexual abuse materials case which began at Encore Casino. There have also been domestic violence calls in Revere which originated at Encore Casino. Further we have had joint investigations with Everett Police including both narcotic and other criminal cases. Additionally, we had a recent narcotic overdose death in Revere where the victim had reportedly won a significant sum of money at Encore.

2) *(If applicable)* Please explain how this impact was not anticipated in the Applicant's Host or Surrounding Community Agreement.

N/A

3) Please describe what the Applicant is proposing and how the mitigation request will address the impact indicated.

The Criminal Investigation Division is comprised of three units: Major Crimes, Drug and Gangs, and Evidence. Detectives assigned to CID are responsible for following up on cases, preserving evidence and initiating investigations into crimes and criminal enterprises. Specifically, the Department will lease eight (8) FLOCK Falcon License Plate Recognition (LPR) Cameras for thirty-six (36) months. The Department has placed FLOCKS strategically throughout the City and they have been instrumental in helping to solve three (3) shootings in Revere. Additionally, there have been many other crimes that this technology has assisted the Department in solving which includes: breaking and entering incidents, larcenies, hit and run motor vehicle accidents, and an overdose death. Also, many stolen vehicles have been located and recovered with the FLOCK LPRs. The Department has also used this technology to assist other cities in investigating homicides, robberies and other violent crimes. The addition of the eight (8) FLOCK LPRs will expand the Department's ability to both solve and prevent future crimes. We are proposing to lease eight Flock License Plate Recognition Cameras to aide in the monitoring of vehicle traffic within the city, particularly on the streets that are heavily traveled routes that lead to and from the Encore Casino. These tools would enable us to study the traffic patterns of motorists by using their data analysis tools. In addition, these cameras would be instrumental in identifying suspects involved in crimes that occur within the City of Revere and would also aide the City of Everett as our close geographic location and sharing of a border results in suspects easily passing between the two cities. Using these tools to solve crimes would also mitigate any future crimes that would have been committed by that suspect.

IV. Scope, Budget, and Timeline	
Applicant: Revere_23_PS_RPDFLOCK_APP	Vendor Code: VC6000192136
Total Amount Requested: \$64,000.00	Estimated Total Project Cost: 64,000.00

Scope of Work

Please include below a breakdown of the proposed work. The project scope should be sufficiently detailed to allow the review team to understand the steps required for project completion.

The City of Revere Police Department will utilize 2023 Community Mitigation Funding to enhance current crime investigation and prevention efforts within the Criminal Investigation Division (CID).

Specifically, the Department will lease eight (8) FLOCK Falcon License Plate Recognition (LPR) Cameras for (36) months; 1 camera at \$2,500/per year x 8 cameras = \$20,000; \$20,000 X 3 years=\$60,000.00 plus Professional Services-Standard Implementation Fee-\$500.00 X 8=\$4,000.00. Total Project=\$64,000.00.

The addition of the eight (8) FLOCK LPRs will expand the Department's ability to both solve and prevent future crimes as they relate to those issues surrounding criminal activity from Encore Casino.
