 - (1) If four cards remain, the cards shall not be exposed to anyone at the table and shall be placed in the discard rack.
 - (2) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt and a stack has more or less than seven cards, the round of play shall be void and the cards reshuffled. If the cards have not been misdealt, the round of play shall be considered void and the entire deck of cards shall be removed from the table pursuant to 205 CMR 146.49.
- (f) If the dealer determines the cards were dealt properly, the dealer shall then collect any stacks dealt to a position where there is no wager and place them in the discard rack without exposing the cards.

8c. Procedure for determining the starting position for dealing cards or delivering stacks of cards

- (a) In order to determine the starting position for the dealing of cards or the delivery of stacks of cards for the game of pai gow poker, a gaming licensee may, in its discretion, use the procedure authorized in (b), (c) or (d) below.
- (b) The dealer shall shake the pai gow poker shaker and dice described in Section 4 at least three times so as to cause a random mixture of the dice.
 - (1) The dealer shall then remove the lid covering the pai gow poker shaker, total the dice and announce the total.
 - (2) To determine the starting position, the dealer shall count counterclockwise around the table, with the position of the dealer considered number one, and continuing around the table with each betting position counted in order, including the dealer, regardless of whether there is a wager at the position, until the count matches the total of the three dice.
 - (3) Examples are as follows:
 - (i) If the dice total 8, the dealer would receive the first card or stack of cards; or
 - (ii) If the dice total 14, the sixth betting position would receive the first card or stack of cards.

- (4) After the dealing or delivery of the cards has been completed in accordance with the procedures set forth in Section 8, 8a or 8b, the dealer shall place the cover on the pai gow poker shaker and shake the shaker once. The pai gow poker shaker shall then be placed to the right of the dealer.
- (c) The dealer may use a computerized random number generator approved by the Commission to select and display a number from 1 through 7 inclusive, and verbally announce the number. To determine the starting position, the dealer shall count counterclockwise around the table, with the position of the dealer considered number one, and continuing around the table with each betting position counted in order, including the dealer, regardless of whether there is a wager at the position, until the count matches the number displayed by the random number generator.
- (d) If an automated card shuffling device and dealing shoe is used pursuant to Section 8B, the dealer may use a flat disk button approved by the Commission to indicate the starting position. At the commencement of play, the button shall be placed in front of the dealer. Thereafter, the button shall rotate around the table in a clockwise manner after each round of play.
- (e) After the starting position for a round of play has been determined, a gaming licensee may, in its discretion, mark that position by the use of an additional cut card or similar object.

9. Procedures for completion of each round of play; setting of hands; payment and collection of wagers; payout odds; vigorish

- (a) After the dealing of the cards has been completed, each player shall set his or her hands by arranging the cards into a high hand and low hand. When setting the two hands, the five card high hand must be equal to or higher in rank than the two card low hand. For example, if the two card hand contains a pair of sevens, the five card hand must contain at least a pair of sevens and the three remaining cards.
- (b) Each player at the table shall be responsible for setting his or her own hands and no other person except the dealer may touch the cards of that player. Notwithstanding the foregoing, if a player requests assistance in the setting of his or her hands, the dealer may inform the requesting player of the manner in which the gaming licensee requires the hands of the dealer to be set in its Rules of the Games Submission. Each player shall be required to keep the seven cards in full view of the dealer at all times. Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player shall not touch the cards again.
- (c) After all players have set their hands and placed the cards on the table, the seven cards of the dealer shall be turned over and the dealer shall set his or her hands by arranging the cards into a high and low hand. The dealer shall then place the two hands face up on the appropriate area of the layout. If banking or co-banking is in effect pursuant to Section 10, after all players have set their hands and placed the cards on the table, the player banking the game shall turn over his or her seven cards and shall set the two hands by arranging the cards

in a high and low hand on the appropriate area of the layout.

- (d) Each gaming licensee shall submit to the Commission in its Rules of the Games Submission the manner in which it will require the hands of the dealer to be set.
- (e) Unless a player has placed a progressive payout wager pursuant to Section 11(4) or a seven-card bonus wager pursuant to Section 17, a player may announce that he or she wishes to surrender his or her wager prior to the dealer exposing either of the two hands of that player pursuant to (f) below. Once the player has announced his or her intention to surrender, the dealer shall:
 - (1) Immediately collect the wager from that player; and
 - (2) Collect the seven cards dealt to that player without exposing the cards to anyone at the table. The dealer shall verify that seven cards were collected by counting them face down on the layout prior to placing them in the discard rack.
- (f) Once the dealer has set a high hand and a low hand, the dealer shall expose both hands of each player, starting from the right and proceeding counterclockwise around the table. The dealer shall compare the high and low hand of each player to the high and low hand of the dealer and shall announce if the pai gow poker wager of that player shall win, lose or be considered a tie (“push”). If the player has placed a progressive payout wager pursuant to Section 14, the dealer shall also examine the seven cards of the player and announce if the progressive payout wager of that player shall win or lose. If the player has placed a seven-card bonus wager pursuant to Section 17, the dealer shall also examine the seven cards of the player and announce if the seven-card bonus wager of that player shall win or lose.
- (g) All losing pai gow poker wagers, seven-card bonus wagers and progressive payout wagers shall be immediately collected by the dealer and put in the table inventory container. Unless the player has a winning progressive payout wager or winning seven-card bonus wager, all losing pai gow poker hands shall also be collected. A Pai Gow Poker Wager will:
 - (1) Lose and will immediately be collected if:
 - (i) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.
 - (ii) The high hand of the player is identical in rank to the high hand of the dealer or the low hand of the player is identical in rank to the low hand of the dealer and the other hand of the player is identical in rank or lower in rank than the other hand of the dealer.
 - (iii) The high hand of the player was not set so as to rank equal to or higher than the low hand of that player.
 - (iv) The two hands of the player were not otherwise set correctly in accordance with this chapter.
 - (v) Notwithstanding subparagraphs (i)—(iv) above, if the table is designated for play as an EZ Pai Gow Poker table in which vigorish is not collected and if the dealer has a Queen's Dragon, the player's Pai Gow Poker Wager shall push and be returned to the player.
 - (2) Tie and will be returned to the player if:

 - (iii) The dealer has a Queen's Dragon and the table is designated for play as an EZ Pai Gow Poker table in which vigorish is not collected.
- (3) Win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is higher in rank than the low hand of the dealer provided that if the table is designated for play as an EZ Pai Gow Poker table and the dealer has a Queen's Dragon, the player's Pai Gow Poker Wager shall push and be returned to the player. The dealer shall pay the winning Pai Gow Poker Wager in accordance with the payout odds in Section 16(a) (relating to payout odds; Envy Bonus; rate of progression; payout limitation).
- (k) All cards collected by the dealer shall be picked up in order and placed in the discard rack in such a way that they can be readily arranged to reconstruct each hand in case of a question or dispute.

until the necessary documentation has been completed.

10. Player bank; co-banking; selection of bank; procedures for dealing

- (a) A gaming licensee may, in its discretion, offer to all players at a pai gow poker table the opportunity to bank the game. If the gaming licensee elects this option, all the other

provisions of this section shall apply except to the extent that they conflict with the provisions of this section, in which case the provisions of this section shall control for any round of play in which a player is the bank.

- (b) A player may not be the bank at the start of the game. For the purposes of this section, the start of the game shall mean the first round of play after the dealer is required to shuffle the cards in accordance with the procedures set forth in Section 5(c).
- (c) After the first round of play pursuant to (b) above, each player at the table shall have the option to either be the bank or pass the bank to the next player. The dealer shall, starting with the player farthest to the right of the dealer, offer the bank to each player in a counterclockwise rotation around the table until a player accepts the bank. The dealer shall place a marker designating the bank in front of the player who accepts the bank. If the first player offered the bank accepts, the player seated to the right of that player shall first be offered the bank on the next round of play. The initial offer to be the bank shall rotate counterclockwise around the table until it returns to the dealer. In no event may any player bank two consecutive rounds of play. If no player wishes to be the bank, the round of play shall proceed in accordance with the rules of play provided in this section.
- (d) Before a player may be permitted to bank a round of play, the dealer shall determine that:
 - (1) The player placed a wager against the dealer during the last round of play in which there was no player banking the game; and
 - (2) The player has sufficient gaming chips on the table to cover all of the wagers placed by other players at the table for that round of play.
- (e) A gaming licensee may, in its discretion, offer the bank the option of having the casino cover 50 percent of the wagers made during a round of play. If the gaming licensee offers this option, it shall make it available to all players at the table. If the bank wishes to use this option, the bank must specifically request the dealer to accept responsibility for the payment of one-half of all winning wagers. When the bank covers 50 percent and the casino covers 50 percent of the winning wagers, it shall be known as "co-banking" and the dealer shall place a marker designating the co-bank in front of that player. When the dealer is co-banking, the dealer shall be responsible for setting the hand of the bank in the manner submitted to the Commission pursuant to Section 9. When co-banking is in effect, the dealer may not place a wager against the bank.
- (f) If a player is the bank, the player may only wager on one betting area.
- (g) Once the dealer has determined that a player may be the bank pursuant to (d) above and after the cards have been shuffled, the dealer shall remove gaming chips from the table inventory container in an amount equal to the last wager made by that player against the dealer or in an amount, the calculation of which has been approved by the Commission. This amount shall be the amount the dealer wagers against the bank. The bank may direct that the sum wagered by the dealer be a lesser amount or that the dealer place no wager during that round of play. Any amount wagered by the dealer shall be placed in front of the table inventory container.

- (h) If the cards are to be dealt from a manual dealing shoe, the procedures set forth in Sections 8 and 8c shall apply, except as follows:
- (1) If a pai gow poker shaker and dice are being used to determine the starting position for the dealing of the cards, the bank shall shake the pai gow poker shaker three times pursuant to Section 8c(b) instead of the dealer. It shall be the responsibility of the dealer to ensure that the bank shakes the pai gow poker shaker at least three times so as to cause a random mixture of the dice. Once the bank has completed shaking the pai gow poker shaker, the dealer shall remove the lid covering the pai gow poker shaker, total the dice and announce the total. The dealer shall always remove the lid from the pai gow poker shaker and if the bank inadvertently removes the lid, the dealer shall require the pai gow poker shaker to be covered and reshaken by the bank.
 - (2) If a computerized random number generator is used to determine the starting position for the dealing of the cards, the device shall be operated in accordance with procedures approved by the Commission.
 - (3) When counting the betting positions, including the dealer, to determine the starting position for dealing the cards, the position of the banker, instead of the dealer, shall be considered number one.
- (a) If the cards are to be dealt from the hand, the procedures set forth in Section 8a and 8c shall apply, except as follows:
- (1) Once the dealer has completed dealing the seven stacks and placed the four remaining cards in the discard rack pursuant to Section 8a, the bank shall select the first stack to be delivered by the dealer. This stack shall be designated as the first stack by the dealer moving it toward the players.
 - (2) If a pai gow poker shaker and dice are being used to determine the starting position for the delivery of the first stack, the bank shall shake the pai gow poker shaker three times pursuant to Section 8c(b) instead of the dealer. It shall be the responsibility of the dealer to ensure that the bank shakes the pai gow poker shaker at least three times so as to cause a random mixture of the dice. Once the bank has completed shaking the pai gow poker shaker, the dealer shall remove the lid covering the pai gow poker shaker, total the dice and announce the total. The dealer shall always remove the lid from the pai gow poker shaker and if the bank inadvertently removes the lid, the dealer shall require the pai gow poker shaker to be covered and reshaken by the bank.
 - (3) If a computerized random number generator is used to determine the starting position for the delivery of the first stack, the device shall be operated in accordance with procedures approved by the Commission.
 - (4) When counting the betting positions, including the dealer, to determine the starting position for delivering the seven stacks of cards, the position of the bank, instead of the dealer, shall be considered number one.
 - (5) The dealer shall deliver the first stack as determined in (i)(1) above to the starting position as determined in Section 8c and (i)(2) through (4) above. Thereafter, the dealer shall deliver the remaining stacks in a clockwise rotation beginning with the stack closest to the right of the first stack and proceeding until all stacks to the right of the first stack have been dealt and then moving to the stack farthest to the left of the dealer and proceeding left to right. If there are no stacks to the right of the first stack, the dealer will begin with the stack farthest to the left and proceed to the right. The dealer shall deliver

each stack face down to each position, including the dealer, regardless of whether there is a wager at the position.

- (b) If the cards are to be dealt from an automated dealing shoe, the procedures set forth in Sections 8b and 8c shall apply, except as follows:
 - (1) If a pai gow poker shaker and dice are being used to determine the starting position for the delivery of the first stack of cards dispensed by the automated dealing shoe, the bank shall shake the pai gow poker shaker three times pursuant to Section 8c(b) instead of the dealer. It shall be the responsibility of the dealer to ensure that the bank shakes the pai gow poker shaker at least three times so as to cause a random mixture of the dice. Once the bank has completed shaking the pai gow poker shaker, the dealer shall remove the lid covering the pai gow poker shaker, total the dice and announce the total. The dealer shall always remove the lid from the pai gow poker shaker and if the bank inadvertently removes the lid, the dealer shall require the pai gow poker shaker to be covered and reshaken by the bank.
 - (2) If a computerized random number generator is used to determine the starting position, the device shall be operated in accordance with procedures approved by the Commission.
 - (3) When counting the betting positions, including the dealer, to determine the starting position for delivering the stacks of cards as they are dispensed by the shoe, the position of the bank, instead of the dealer shall be considered number one.

- (c) If the cards dealt to the dealer have not been previously collected, after each player has set his or her two hands and placed them on the appropriate area of the layout, the two hands of the dealer shall then be set. Once the dealer has formed a high and low hand, the dealer shall expose the hands of the bank and determine if the hands of the dealer are higher in rank than the hands of the bank. If the dealer wins, the cards of the dealer shall be stacked face up to the right of the table inventory container with the amount wagered by the dealer against the bank placed on top. If the dealer pushes, the dealer shall return the amount wagered by the dealer against the bank to the table inventory container. If the dealer loses, the amount wagered by the dealer against the bank shall be moved to the center of the layout.

- (d) If banking is in effect, once the dealer has determined the outcome of the wager of the dealer against the bank, if any, the dealer shall expose the hands of each player starting with the player farthest to the right of the dealer and proceeding counterclockwise around the table. The dealer shall compare the high and low hand of each player to the high and low hand of the bank and shall announce if the wager shall win, lose or be considered a push against the bank. All losing wagers shall be immediately collected and placed in the center of the table. After all hands have been exposed, all winning wagers, including the dealer's wager, shall be paid by the dealer with the gaming chips located in the center of the table. If this amount becomes exhausted before all winning wagers have been paid, the dealer shall collect from the bank, an amount equal to the remaining winning wagers and place that amount in the center of the layout. The remaining winning wagers shall be paid from the amount in the center of the layout. If, after collecting all losing wagers and paying all winning wagers, there is a surplus in the center of the table, this amount shall be charged a 5 percent vigorish in accordance with Section 9. Once the vigorish has been paid, the remaining amount shall be given to the bank.

- (e) If co-banking is in effect, once the dealer has set the co-bank hand pursuant to paragraph (e) above, the dealer shall expose the hands of each player starting with the player farthest to the right of the dealer and proceeding counterclockwise around the table. The dealer shall compare the high and low hand of each player to the high and low hand of the bank and shall announce if the wager shall win, lose or be considered a push against the bank. All losing wagers shall be immediately collected and placed in the center of the table. After all hands have been exposed, all winning wagers shall be paid by the dealer with the gaming chips located in the center of the table. If this amount becomes exhausted before all winning wagers have been paid, the dealer shall collect from the co-bank, an amount equal to one-half of the remaining winning wagers and place that amount in the center of the layout. The dealer shall remove an amount equal to one-half of the remaining winning wagers from the table inventory container and place that amount in the center of the layout. The remaining winning wagers shall be paid from the total amount in the center of the layout. If, after collecting all losing wagers and paying all winning wagers, there is a surplus in the center of the table, this amount will be counted and the dealer shall place half of this amount into the table inventory container. The dealer shall collect a 5 percent vigorish in accordance with Section 9 on the remaining amount and place the vigorish amount in the table inventory container. The remaining amount shall then be given to the co-bank.
- (f) Immediately after a winning wager of the dealer is paid, this amount and the original wager shall be returned to the table inventory container.
- (g) Each player who has a winning wager against the bank shall pay a five percent vigorish on the amount won to the dealer, in accordance with Section 9.
- (h) If a gaming licensee offers the progressive payout wager pursuant to Section 14 or the optional bonus wagers pursuant to Section 17, the processing and resolution of such wagers shall be governed by the rules applicable to such wagers throughout this section.

11. Irregularities; invalid roll of dice

- (a) If the dealer uncovers the pai gow poker shaker and all three dice do not land flat on the bottom of the shaker, the dealer shall call a "No roll" and reshake the dice.
- (b) If the dealer uncovers the pai gow poker shaker and a die or dice fall out of the shaker, the dealer shall call a "No roll" and reshake the dice.
- (c) If the dealer incorrectly totals the dice and deals the first card or delivers the first stack to the wrong position, all hands shall be called dead and the dealer shall reshuffle the cards.
- (d) If the dealer exposes any of the cards dealt to a player, the player has the option of voiding the hand. Without looking at the unexposed cards, the player shall make the decision either to play out the hand or to void the hand.
- (e) If a card or cards in the hand of the dealer or bank is exposed, all hands shall be void and the

cards shall be reshuffled.

- (g) A card drawn in error without its face being exposed shall be used as though it was the next card from the shoe.
- (h) If any player or the dealer is dealt an incorrect number of cards, all hands shall be void and the cards reshuffled.
- (i) If the dealer does not set his or her hands in the manner submitted to the Commission pursuant to Section 9, the hands must be reset in accordance with this submission and the round of play completed.
- (j) If the bank does not set his or her own hands correctly, the wager shall not be lost pursuant to Section 9, and the dealer shall be required to reset the bank's hands in the manner submitted to the Commission pursuant to Section 9 so that the round of play may be completed.
- (k) If a card is exposed while the dealer is dealing the seven stacks in accordance with Section 8a, the cards shall be reshuffled.
- (l) If cards are being dealt from the hand and the dealer fails to deal the seven stacks in accordance with Section 8a(c), the cards shall be reshuffled.
- (m) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle, or fails to complete a shuffle cycle, the cards shall be reshuffled in accordance with procedures approved by the Commission.
- (n) If an automated dealing shoe is being used and the device jams, stops dealing cards, or fails to deal all cards during a round of play, the round of play shall be void, and the cards shall be removed from the device and reshuffled with any cards already dealt, in accordance with procedures approved by the Commission.
- (o) Any automated card shuffling device or automated dealing shoe shall be removed from a gaming table before any other method of shuffling or dealing may be utilized at that table.

12. A player wagering on more than one betting area

- (a) Except as provided in Section 10(f), a gaming licensee may, in its discretion, permit a player to wager on no more than two betting areas at a pai gow poker table, which areas must be adjacent to each other.
- (b) If a gaming licensee permits a player to wager on two adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player

shall be required to rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked and set and placed face down on the appropriate area of the layout, the hand may not be changed.

13. Permissible additional wager

- (a) If a gaming licensee, pursuant to Section 8c, uses a random number generator to determine the starting position for the dealing of cards or the delivery of stacks of cards, the gaming licensee may in its discretion offer to every player at the pai gow poker table the option to make an additional wager as to which one of the numbers 1 through 7 will be selected and displayed by the random number generator at the beginning of a round of play.
