Please provide documentation or evidence that gives support for the determination that the operation of the gaming facility caused or is causing the impact and that the issue is regional in nature (i.e., surveys, data, reports, etc.)

II. Please describe the project in detail and how the proposed project will address the impact indicated above. Please include a breakdown of the proposed scope of work, the scope should be sufficiently detailed to allow the review team to understand the steps required for project completion.

Identified Impacts: The Commission has identified impacts associated with the gaming establishment, which RPAs may cite in their application. There may be other impacts that have not been identified by the Commission that could be eligible for grant funds. If an agency has identified additional impacts to be addressed, the application must identify the impact and provide sufficient evidence that the impact is caused or is associated with a gaming establishment.

Positive Impacts

- Gaming establishments attract a large group of patrons and employees to their establishments that would not otherwise be present in the area. This provides opportunities for local communities and businesses to attract these patrons and employees to their communities and business establishments.
- Gaming establishments typically purchase millions of dollars of goods and services each year, much of which is purchased locally. This provides the opportunity for local businesses to provide these goods and services.
- Gaming establishments require a significant number of workers, which provide employment opportunities for local residents.
