### III. Detailed Project Description & Mitigation

- 1) Please describe in detail the impact that is attributed to the operation of a gaming facility. Please provide documentation or evidence that gives support for the determination that the operation of the gaming facility caused or is causing the impact (i.e. surveys, data, reports).

Residents have complained about traffic speeding down Somers Road and Allen Street which lead directly into downtown Springfield. Much of the traffic seems to be from Connecticut.

The Chief of Police has proposed additional enforcement during early evenings several days per week and on weekends. The Chief has written: "This would involve a specific 4-hour cruiser shift for traffic enforcement would include: Looking for traffic violations on our roadways impacted by the travel of traffic to and from MGM casino."

Also, the Chief is requesting funding for two pole radar units and a cruiser handheld radar unit.

- 2) *(If applicable)* Please explain how this impact was not anticipated in the Applicant's Host or Surrounding Community Agreement.

Additional traffic was anticipated. Speed is frequently a problem with Massachusetts drivers. The Town of Hampden did not anticipate a speeding problem that would cause so many residents to complain.

- 3) Please describe what the Applicant is proposing and how the mitigation request will address the impact indicated.

Additional enforcement in the warmer months will curb the problem. Our experience is that speed enforcement must be ongoing to have the desired effect and to develop a sense among motorists that speed violations along Allen and Somers will result in a ticket.

We are a small town with a large land area. Concentrating regular police enforcement along the two main arteries would deny police services to other parts of town.
